GEORGE INCLE

A SHORT STORY

In London Life Containing Condensed Wisdom for Thousands.

A baker Living at 257 Dundas Street. London, Ont., Geo. Roberts by name, Recommends DOAN'S KIDNEY PILLS Because They cured him. He had Pain in the Back: His Urine Was red-colored And painful In passage. The cure through DOAN'S KIDNEY PILLS Was quick and complete. That's how they always act, Because they're For kidneys only. If you have Sick kidneys Don't experiment With an unknown remedy. Take no substitute for DOAN'S KIDNEY PILLS.

THURSDAY. MAY 18th, 1899

SUCCESS MUST FOLLOW

THE FOIR USE OF DR. WILLIAMS' PINK FILLS FOR PALE PEOPLE

THAT IS THE EXPERIENCE OF MRS. SYDNEY DRUCE, OF DESERONTO. WHO HAD SUFFERED FOR MANY YEARS WITH RHEMATISM AND CATARRH OF THE BOWELS.

From the Tribune, Deseronto.

ghey

Our attention was lately directed to the of Sydney Druce, caretaker of the high friends of the family. Mrs. Druce had from the early age of ten years been a sufferer from rheumatism and had endured untold amounts of suffering from this dire disease. She had tried scores of dif-

system and she had at last become resigned to the belief that rheumatism was incurable. In addition to rheumatism. about seven years ago she began to suffer from catarrh of the bowels with its attendant headaches and depression of spirits. The pain of the rheumatism and constant headaches wore her out. The doctors prescribed opiates which only dulled the pain, but did not repel the disease. The two diseases continued to make steady headway and at times she felt such pains that she could not even allow her husband to raise or move her. The neighbors thought she would never get up again. All kinds of remedies were suggested and many of them tried but all expressed it, the use of Dr. Williams' Pink Pills was mentioned. It was not until the end of the second box that she realized any benefit. She then began to realize that she was regaining strength. Before she mentioned this to others her husband also observed the change, for he remarked "those pills are doing you some good, you look livlier than you have for one time." She continued the use of D Williams Pink Pills until she had taken four een boxes, with the gratifying and almost remarkable results that she was completely cured of the rheumatism and catarrh, not a solitary symptom of either trouble remaining. Mr. Druce was present at the interview and confirmed all that his wife had said and was a delighted liams Pink Pills. Mrs. Druce said that out of gratitude for this wonderful restoration to health she had told scores of the virtues of the medicine which had follow her plan of giving the pills a fair and prolonged trial as she was confident that in the end success would surely fo!ow as in her own case.

The Outlook for Wool

[Globe, May 13] As is usual in the early part of May, when preparations are being made for the coming of the new wool clip on the market, great interest is taken in the pro-pectus presented for this important industry. The outlook is anything but reassuring. To begin with, it is estimated that 75 per cent. of the clip of last year is still held in this Province. A good deal of this wool was purchased from 16c. to 18c., and the highest price bid for it to-day in this market is 13c. Not only is the bulk of last year's clip still held in Ontario by parties who a year ago expected to be able to sell it at a profit soon after it was purchased, but a Canadion exporter has at an American point a large lot of the 1897 clip, which he was able to get across the line before the Dingley duty took effect, and for which, notwithstanding the fact that it has the advantage of not having to carry the 12 per cent. duty which the 1898 clip would have to pay, there is practically no market in the United States, and it remains to-day unsold. The position of the Canadian clip for the present season is this: The greater part of the last clip is unsold; native wools in the United States, with which Canada fleece can be compar ed, are to-day lower than the importation price of foreign wools with which they may be ranked in the American markets, and the effect of the Dingley act on American native growths has, as a result, been very disappointing to ranch men, who expected that it would result in a sharp rise in values. The best price that can be obtained in the United States for Canada fleece is now 27c. The duty is 12c., the freight charges 0.55 of a dollar, the consular charges 0.25, and the commission for selling on the other side of the line 1tc per pound, which makes a total of 14.30 per pound for charges after the wool is purchased here. This would leave for the purchaser of the wool in Canada, reckoning on a scale at 27c. in the United States, 124c per pound, and that price leaves no margin of profit for the exporter. This is the situation at present as it is figured out by local exporters. So much for washed fleece. The position of unwashed is even more unpromising. Within the past few weeks a Toronto dealer has sold some unwashed at 18c. in Boston, which, after paying the duty and freight and o her charges, makes the value of the unwashed wool in this market exactly 61-5c. pe pound, and yet purchases have lately been made here of unwashed at 8c. to 9c.

EXPENSIVE BAD ROADS.

Two Important Damage Lawsnits Decided Against Townships.

In Clair County, Snyder township will be mulcted out of \$2,000 as the result of a defective public highway. Mrs. Bessie Davis and her brothers, Edward and Harry Kockler, instituted a suit against the township to recover damages for injuries sustained on a highway a short distance from Tyrone. The three were driving along the road in a carriage, when the horses plunged over an ugly embankment. The jury awarded Mrs. Davis \$2,000 for the bodily injuries she sustained, and \$20 to each of her brothers for the damage done to the vehicle.

Keeping Apples in Pits. It is rather surprising that more farmers do not winter their apples underground in pits, such as they use for storing potatoes and roots. These pits are much better than keeping the fruit in cellars under the house where temperawoun erful cure effected upon a resident ture often changes very rapidly and is of Deseronto, which illustrates in a very usually most of the time too warm. But markel way the merits of that widely known the pit for fruit should not be just the ne : Ith restorer "Dr. Williams Pink Pills." same as for potatoes or roots. These We refer to the cure of Mrs. Druce, wife growing undergound are not injured by contact with soil even in winter. Any school building. Being desirous of giving contact. It should be inclosed in paper our readers the facts, a reporter of the or straw or in a box, so that there will Tribune called at Mrs. Druce's residence, be no chance for soil to touch it. Nor and is therefore enabled to present our should the fruit be placed where water readers with the following facts, which leading through the soil can readily reach can be vouched for by many neighbors and it, as that will spoil it as would the soil

STANDARD BANK AT BOWMANVILLE GONE THROUGH.

Gagged-A Vault and a Safe Wrecked to Secure Their Booty-Guards Posted to Shoot Any Who Interfered.

Bowmanville, May 15 .- The Standard Bank, on the corner of King and Temperance streets, the business center of the town, was burglarized on Saturday morning between 2 and 3 o'clock, and all the money in the vault, excepting the coppers, was stolen, with a number of valu-

Henry Metcalf, the nightwatchman employed by the Town Council to patrol the business streets, had just finished taking his lunch in the police office in the Town Hall block, only about 50 yards from the bank corner, when he heard footsteps on the sidewalk, and went to the door to see who was passing. As he stepped from the police office door to the street he was seized by two masked | been sent there. men, one on each side of him, and his arms raised from his sides to prevent his reaching his pocket for his revolver. He was pushed back into the office and the baton wrested from his hand by a blow from some instrument that inflicted a gash on the back of the head, now badly swollen. Metcalf was then blindfolded by as she in praising the virtues of Dr. Wil- a third party with an ordinary white linen handkerchief, and gagged by another similar handkerchief.

When his arms were first seized two other men stood, one on each side of of other sufferers from different diseases | him, with revolvers pointed to his head, and he was told that "if you open your been the undoubted means of prolonging peep we will shoot you." They took from his pocket a pair of handcuffs, and, placher life. She hoped that others would ing his hands behind him, handcuffed nim, and he was then marched by the two men towards the bank. Before he was gagged Metcalf said: "Boys, is this a game?" thinking it might be some local sports playing a trick on him. One promptly answered, "No, it's business; we are going through the bank." He was taken a few steps south of King street, beside the bank, and his legs tied with a piece of rope that apparently had been part of a clothes line.

One man stood by him as he sat on the sidewalk with Metcalf's revolver, which they had taken from him, in hand, while the others, at least five in number, proceeded to do the jeb. A large pane of glass was cut with a die from a west window and an entry secured to the manager's office. The front door was pried open. Very soon he heard an explosion, the men having run on to the street by the front door. They immediately returned to the building and in a few minutes there was another explosion. The burglars had now secured entrance to the inside vault, where they rifled the contents of several boxes, some belonging to the manager and others to customers who had placed them there for safe keeping. Before the third explosion, which blew open the massive safe. Metcalf was moved a few yards farther south so as to be away from danger should the walls be blown out. This explosion, like the others, was very successful, and it was the work of only a few minutes to secure the

The amount of money stolen is over \$11,000 belonging to the bank, and \$90 to the Canada Life Insurance Company, for which Mr. W. J. Jones, the managor, is agent; \$110 belonging to the Queen Fire Insurance Company, both of which were in a private pouch. Many valuable papers are also missing, receipts, drafts,

When the burglars got through with the job, which lasted only about 30 minutes, two of them carried Metcalf into the bank, laid him on the matting on the floor, and left him there gagged and bound. He soon began shouting, but not till about 5 o'clock was he discovered by Frank J. Garrett. Chief Richard Jarvis was soon on the spot and removed the handcuffs, and Mr. Metcalf was once more at liberty.

Government Detective Rogers returned home to Toronto late Saturday, and confessed that he could not find the slight est clue to work on.

A reward of \$2,500 will be paid for the recovery of the money, and \$2,500 for the arrest and conviction of the thieves.

HALFBREEDS' CLAIMS.

Government Has Appointed a Commis

sion to Deal With Them. Ottawa, May 12.-Major James Walker

of Calgary and J. A. Cote, Mr. Smart's private secretary, have been appointed a commission to deal with the halfbreeds of the Northwest Territories born between July 15, 1870, and 1885 who may present their claims. The commissioners are to leave Edmonton for the north with the Indian treaty commission.

When the halfbreeds' commission commissioners to issue scrip to those born prior to July 15, 1870, the date of the transfer to the Hudson Bay Company. The halfbreeds demurred to this, and have again and again pressed the to seek fresh fields and pastures new. claim that halfbreeds born between July Two gunners also are reported as being 15, 1870, and 1885 should receive the deserters. same treatment as those born prior to 1870, and the Territorial Legislature has on more than one occasion adopted and forwarded to the Government at Ottawa

resolutions in support of this ciaim. The Government has now decided that the Indian and halfbreed rights should be extinguished at the same time.

Wisconsin Sends Ore to Canada.

Troops Are on the Move and Gunboats Are Leaving for Sea.

Sealed Orders Are Carried by the Latter -There Is the Gravest Anxiety at Pekin-Germans and Japanese Are Particularly Uneasy Because of Russia's Unexpected Move-Chinese Are Anxious for the Protection of Britain.

Hongkong, May 16 .- The native opposition to the occupation by British forces of the new territory, Kowloon, opposite Hongkong, has suddenly been renewed. About 900 men of the Hongkong Regiment, with machine guns, left yesterday, while the volunteers have been warned to be in readiness for any emergency. The British second-class gunboat Swift, accompanied by three other gunboats, is proceeding to sea under sealed orders. These warships have 500 men on board. The territory back of the hinterland is also disturbed, and Chinese troops have

The Troops Actually Sent.

A later despatch says: In all, 1,350 infantry soldiers, 100 artillerymen, 50 Opp. Benson House, engineers and 500 marines have gone to the Kowloon hinterland. The greatest secrecy is observed as to the plans of the British authorities, and nothing is definitely known regarding the actual destination of the troops. The gun vessels engaged in the operations have been provisioned for eight days. Troops are patrolling the European quarter of Kowloon. It is reported that rebels from Tungkung invaded British territory on Sunday evening, and that two armed gangs robbed the city of Kowloon. Hongkong itself is quiet.

Anxiety at Pekin.

Pekin, May 16.—The Russian demand for a new railroad concession, connecting Pekin with Russia's present railroad system in Manchuria, is still exciting the gravest anxiety there. The chief Chinese officials are having constant consultations with the Dowager Empress. The Germans and Japanese are particularly uneasy on the subject of this unexpected move upon the part of the Russians, and there is a feeling among the prominent Chinese that the moment has come to make every effort in the direction of securing British sympathy and aid.

WILL FIGHT IT OUT.

Aguinaldo Gives Notice That the War Will Be Continued to the Bitter End-More Fighting.

London, May 16.—The Filipino Junta here has received the following message from Aguinaldo, cabled from Hongkong under date of May 12: "The Filipino Government, in accordance with the general feeling of the country, has decided to continue the war at all costs, until independence is secured.

"The Filipinos energetically refuse the American peace overtures, based on restricted autonomy, coupled with promises of subsequent self-government.

"The Filipinos demand a strict fulfilment of the articles of the American constitution and treaties contracted by the American representatives when imploring a Filipino alliance in combatting the Spaniards.

"All the Filipino generals support Aguinaldo. General Luna's reported overtures for peace are untrue. Our army is near Manila, simultaneously attacking the whole American line.

"The heat and rains are causing many casualties in the American army. All the hospitals are crowded with sick and wounded. Four hundred of the Cincinnati regiment have been imprisoned by General Otis for insubordination in refusing to fight. The regular troops quartered in Manila and other towns are quiet. The volunteers are abused and are always at the front with scanty rations. "The discontent between the Ameri-

cans and Europeans is general." Into a Nest of Insurgents.

Manila, May 16 .- The "tinclad" gunboats Laguna de Bay and Cavadonga and a launch, under Captain Grant, ran into a nest of insurgents concealed in the bushes on both sides of the Rio Grande River, three miles above Calumpit, yes terday afternoon and were received with heavy volleys at short range. A sergeant belonging to the Utah battery, was killed and a private was wounded. Opening with their rapid-fire guns, the Americans killed twenty of the natives and wounded several others, filling the jungle with a hail of shot for a half hour, until the

They Are Still Deserting.

Halifax, N.S. May 16.—Desertions are occurring almost daily from the 1st Leinster Regiment, stationed in the garrison. Five privates have departed within issued in 1885, it only empowered the the past week, four of the number on Friday. Men of nearly every corps in the garrison and also several sailors from H.M.S. Comus, Alert and Buzzard have within the past few months thought fit

Scarfe Raised the Money.

Windsor, Ont., May 16 .- W. P. Scarfe. who was convicted of having fraudulently induced T. W. McKee and Eugene Lasaline to endorse drafts drawn on Scarfe & Co., Brantford, whom he claimed to represent, will be released to-day, as the money which Judge Horne gave Scarfe a week to produce will be returned to the endorsers.

Col. Aylmer Going to School. Ottawa, May 16 .- Col. Aylmer, Adjut-

ment gives a bonus of 75 cents a ton the ant-General of Canada, leaves on Saturfirst year, 50 cents the second and 30 day next for London, England, where he will be on the staff of Sir Redvers Buller, iron, and this has stimulated the pur- in command at Aldershot, and where he chase of American ore.
