Revised services have been held by the members of Lily of the Valley Lodge, C.O.F., for some weeks past, and as a result of the work, many members have been taken into the fold since April 15th, and still there's more to follow. The membership of this progressive young order has now reached 117 in good standing.

"Say," remarked a citizen the other day, "our local gardeners charge too much for their garden truck. Five cents for a small bunch of lettuce, onions or radish is too steep. Two good-sized bunches for that matter would be about right, and then we could all indulge in the luxury of fresh garden greens in the early spring. Very few of us can afford to plunk down 25c for a bunch of greens for one meal for a small family."

Sunday morning a party of about thirty members of Lily of the Valley Lodge, Canadian Order of Oddfellows, went to Boboyzeon and attended divine service with the brethren there at 11 o'clock, when a very appropriate and eloquent sermon was preached by Rev. J. W. Shier in the Methodist church. The trip was a very successful one, and the party reaching home at 4 p.m. In the evening about fifteen members of the same order drove out to Cambury and joined in the service there. In the morning, the service was held at the Methodist church. An excellent sermon was preached by Rev. F. J. Anderson from Peter I. And above all things have fervent charity among yourselves, for charity shall cover the multitude of sins."

The illustrated lecture Monday evening in St. Paul's school room by Mr. J. J. Keiso of Toronto, superintendent of the Ontario, was a very interesting one, and the audience evinced the deepest interest in the remarks of the speaker as he described in an entertaining way the great work that is being accomplished by his society in different parts of the province. The lecture was accompanied by many views of child life, thrown on the canvas by the aid of a magic lantern. The views were shown by the aid of Mr. W. H. Stevens of the Collegiate Institute, who kindly placed his instrument and services at the disposal of the local society. At the conclusion of the lecture votes of thanks were tendered Mr. Keiso and also Mr. Stevens.

The Y.M.C.A. of this town purpose holding a grand jubilee celebration in Lindsay on June 22nd. In the forenoon there will be aquatic sports, firemen's races, and other amusements. In the afternoon will be celebrated by football and baseball matches, bicycle races and general field sports. A number of meetings have been held, and committees of citizens and directors of the association have been appointed and are now busy at work arranging the details of the different features. It seemed until a short time ago that the day would pass uncelebrated in this town, but now the Y.M.C.A. have taken hold of it and it is to be hoped the citizens will do all they can to help it along. The whole town will be benefited by a celebration of this kind, and if all do their part in donating prizes and in decorating their premises for that day there will be such a day spent here that will show to the world that Lindsay people are loyal and know how to celebrate a diamond jubilee.

A farmer named Wm. Irwin of Fenelon township appeared before County Magistrate Deaton at Fenelon Falls on Friday charged with abusing a Barnado boy named Henry Ball by beating him with a heavy leather strap. The charge was denied by Irwin, who claimed that the boy had been crushed against a stall by a horse. The magistrate, however, failed to take this view of the case, and fined Irwin \$50 and costs or three months in jail at hard labor. On the evening previous to the trial Irwin spent an interesting hour or two in the village. The story of the boy's illness had preceded him, and a large crowd gathered, who were inclined to take the administration of justice into their own hands. Cooler heads prevailed, however, and it was decided to treat Irwin to a mess of ripe corn fruit. He was made run the gauntlet of the crowd, and as he passed through the ranks he was liberally peppered with eggs, until he looked like a huge cucumber. Some time ago he had been in the hospital for some time.

He will reach the great English city in time to witness the Queen's jubilee festivities, having been fortunate enough to secure apartments on the route of the procession.

Mr. B. J. Gough, the well-known clock-maker, left Monday evening for Montreal, where he will purchase an immense bankrupt stock of high-class ready-made clothing to be laid down in Lindsay in readiness for the grand opening of his new palace clothing store, corner of Kent and Williams. He expects to be absent most of the week.

Mrs. Robt. Ross, president of the Lindsay branch of the W.F.M.S. in connection with the Presbyterian church, lectured at Beaver-ton on Tuesday evening last week on foreign missions in general. The Express says: "The lecture was short, bright and interesting. The ladies present all appeared to enjoy the words spoken by the lecturer. After the address was over Mrs. Ross succeeded in forming an auxiliary of the Woman's Foreign Mission, with Miss Maggie Munro, president; Miss Ethel Wood, vice president; Miss A. Campbell, secretary; and Mr. McClelland, treasurer. We wish the society every success."

A very large circle of friends in Lindsay will learn with pleasure that Mr. Harry P. Dill, of Phillips, Maine, who occupied the position of commercial agent here some years ago, has been appointed U. S. consul at Port Hope, his commission being dated for the first of June. Mr. Dill has served for a portion of the time under every administration since Grant's, being retired by each democratic regime and re-appointed by the republicans. He was appointed to East Erie, Ont., by President Hayes, and since then has served at Sorel, Que., and Guelph, Lindsay, and Palmerston, Ont. Two years ago Mr. Dill, who is an experienced journalist, being a graduate of West Point seminary, established the Rangely Lakes, a weekly newspaper, at Rangely, Maine, to which he has since devoted a large portion of his time of late. He will leave for his new post about the first of June.

Most of our readers, especially those who have had the pleasure of a personal or professional acquaintance with R. F. Morrow, L.D.S., Peterboro, will be pleased to know of his further distinction in the profession. Last week he received the D.D.S. and M.D.S., these being degrees that few one to, and which every dentist looks forward to with expectation and delight as the goal of his ambition. Recognizing the high standing of Mr. Morrow and his ability in the profession the board of the Royal College of Dental Surgeons has appointed him examiner for the college in materia-medica. That one so young in life should receive the honors of this appointment only goes to show that enterprise, application and pluck, bring their reward in the professional as well as the business world. We trust that Peterboro's rising and already almost leading dentist, should long enjoy the confidence of the profession and what is better the patronage of the public whom he is so eminently fitted to please. Mr. Morrow's many friends in Lindsay join in the general congratulatory.

The Orangeville Advertiser in its report of the recent trial and conviction of the Cleveland boys, has this to say of our fellow townsman, Mr. Hugh O'Leary, Q. C., who conducted the prosecution: "Mr. H. O'Leary, Q. C., of Lindsay, who had the conduct of the crown cases, deserves credit for the skill and ability with which he marshalled the evidence and conducted the prosecution throughout. Mr. O'Leary was first and foremost a lawyer at the preliminary investigation at Shelburne, and he appears to have set himself to work at once to master a huge mass of rather intricate details. A prominent local lawyer informs the Post that Mr. O'Leary has not only arranged the case in brief in excellent style, but that he thoroughly understood it. In the second case the crown was undoubtedly forging a terrible chain of evidence against the

three prisoners in the dock when they collapsed and pleaded guilty. Mr. O'Leary probably owes his reputation by the government in criminal cases to the fact that he is an active and pronounced reformer, but it must be admitted that in him the crown has an able, courteous and painstaking counsel."

Base Ball Notes.

The Young Central base ball club play at Fenelon Falls on the 22nd inst. with a picked club of that village. An energetic committee of the members are now industriously circulating a petition for funds for defraying expenses and also to purchase a new outfit. No doubt the boys will meet with a generous response.

A very interesting game of ball was played on the market square on Thursday evening between McWatter's team of the east ward and the Young Central, which resulted in a victory for the latter by a score of 6 to 4 and an innings. Batteries for losers, McWatters and Walker; for winners, Walton and Workman. The Young Central are open to play any club in or outside the town, average age 12 and 13. For arrangements see S. DO YOU SEE THE POINT

It is just this. If you go on allowing your eyes to ache and smart and trouble you, you may never be able to make them strong again. We have studied the eye, we know what we are talking about. It is a patient, long suffering organ, but it will break down at last; and then all the oculists and all the opticians in the world couldn't make it right again. Any irritation about the eyes means something. Come and find out.
