### DESTINY OF THE U.S.

REV. DR. TALMAGE DISCUSSES IT IN HIS SUNDAY SERMON.

THE DANGERS OF THE NATION.

Monopoly the Hydra-Headed Evil That Threatens the Existence of the Republic-What Is Wrong for the Individual to Do, Ought to Be Wrong for the Corporate Monopoly Also.

Washington, May 28 .- Rev. Dr. Talmage chose Isaiah lxii, 4, "Thy land shall be married." He said:

shall be married.'

lon and Tyre in the cemetery of dead nations our republic was to be entombed, that I wish you to understand it is not to be obsequies, but nuptials; not mansoleum, but carpeted altar; not cypress, but orange blossoms; not requiem, but wedding march; for "thy land shall be married."

I propose to name some of the suitors who are claiming the hand of this republic. This land is so fair, so beautiful, so affluent that it has many suitors, and it will depend much upon your advice whether this or that shall be accepted or rejected. In the first place, I remark: There is a greedy, all grasping monster who comes in as suitor seeking the hand of this republic, and that monster is known by the name of monopoly. His scepter is made out of the iron of the rail track and the wire of telegraphy. He does everything for his own advantage and for the robbery of the people. Things went on from bad to worse until in the three legislatures of New York, New Jersey and Pennsylvania for a long time monopoly decided everything. If monopoly favor a law, it passes; if monopoly oppose a law, it is rejected. Monopoly stands in the railroad depot putting into his pockets in one year \$200,000,000 in excess of all reasonable charges for services. Monopoly holds in his one hand the steam power of locomotion and in the other the electricity of swift communication. Monopoly has the Republican party in one pocket and the Democratic party in the other pocket. Monopoly decides neminations and elections-city elections, state elections, national elections. With bribes he secures the votes of legislators, giving them free passes, giving appointments to needy relatives to lucrative positions, employing them as attorneys if they are lawyers, carrying their goods 15 per cent. less if they are merchants, and if he find a case very stubborn as well as very important puts down before

him the hard cash of briber But monopoly is not se now as when during .m of Mr. Buchanan the committee in and exposed the manner a certain railway med a donation of pubsound out that 13 of the .at state received \$175,000 cm, 60 members of the Lower of that state received between \$5,and \$10,000 each, the Governor of

.nat state received \$50,000, his clerk received \$5,000, the Lieutenant-Governor received \$10,000, all the clerks of the Legislature received \$5,000 each, while \$50,000 was divided among the lobby agents. That thing on a larger or smaller scale is all the time going on in some of the states of the Union, but it is not so blundering as it used to be, and therefore not so easily exposed or arrested. I tell you that the overshadowing curse of the United States to-day is monopoly. He puts his hand upon every bushel of wheat, upon every sack of salt, upon every ten of coal, and every man, woman and child in the United States feels the touch of that moneyed despotism. I rejoice that in 24 states of the Union already anti-monopoly leagues have been established. God speed them in the work of liberation.

I have nothing to say against capitalists; a man has a right to all the money he can make honestly. I have nothing to say against corporations as such; without them no great enterprise would be possible, but what I do say is that the same principles are to be applied to capitalists and to corporations that are applied to the poorest man and the plainest laborer. What is wrong for me is wrong for great corporations. If I take from you your property without any adequate compensation, I am a thief, and, if a railway damages the property of the people without making any adequate compensation, that is a gigantic theft. What is wrong on a small scale is wrong on a large scale. Monopoly in England has ground hundreds of thousands of her best people rotten monster, stretches out its hand, CPR into semi-starvation, and in Ireland has CPR madness, and in the United States proposes to take the wealth of 60 or 70.

He slew the Czar of Russia, keeps many a king practically imprisoned, killed Abraham Lincoln, would put to death every king and president on earth, and, if he had the power, would climb up until he could drive the God of heaven from his throne and take it himself, the universal butcher. In France it is called communism; in the United States it is called anarchism; in Russia it is called nihilism, but that last is the most graphic and descriptive term. It means complete and eternal smashup. It would make the holding of property a crime, and it would drive a dagger through your heart and put a torch to your dwelling and turn over this whole land into the possession of theft and lust and rapine and Where does this monster live? It would, if it had the though we were on the way to national power, leave every church, chapel, catheinterment, and beside Thebes and Baby- dral, schoolhouse and college in ashes. Let me say it is the worst enemy the laboring classes in any country. The

honest cry for reform lifted by oppressed laboring men is drowned out by the vociferation for anarchy. The criminals and the vagabonds who range through our cities talking about their rights, when their first right is the penitentiary-if they could be hushed up, and the downtrodden laboring men of this country could be heard, there would be more bread for hungry children. In this land, riot and bloodshed never gained any wages for the people or gathered up any prosperity. In this land the best weapon is not the club, not the shillelah, not firearms, but the ballot. Let not our op pressed laboring men be beguiled to coming under the bloody banner of nihilism. It will make your taxes heavier, your wages smaller, your table scantier, your children hungrier, your suffering greater. Yet this nihilism, with feet red of slaughter, comes forth and offers its hand for this republic. Shall the banns be proclaimed? If so, where shall the marriage altar be? and who will be the officiating priest? and what will be the music? That altar will have to be white with bleached skulls, the officiating priest must be a dripping assassin, the music must be the smothered groan of multitudinous victims, the garlands must be twisted of night shade, the fruits must be apples of Sodom, the wine must be the blood of St. Bartholomew's massacra. No! It is not to be to nihilism, the sanguinary monster, that this land is to be

Another suitor for the hand of this nation is infidelity. When the midnight ruffians despoiled the grave of A. T Stewart in St. Marks' churchyard everybody was shocked; but infidelity proposes something worse than that-the robbing of all the graves of Christendom of the hope of a resurrection. It proposes to chisel out from the tombstones of your Christian dead the words "Asleep in Jesus," and substitute the words, "Obliteration-annihilation." Infidelity proposes to take the letter from the world's Father, inviting the nations to virtue and happiness, and tear it up into fragments so small that you cannot read a word of it. It proposes to take the consolation from the brokenhearted and the soothing pillow from the dying. Infidelity proposes to swear in the President of the United States, and the supreme court, and the governors of states, and the wi nesses in the courtroom with their right band on Paine's "Age of Reason," or Voltaire's "Philosophy of History." proposes to take away from this country the book that makes the difference between the United States and the kingdom of Dahomey, between American civilization and Bornesian cannibalism. If infidelity could destroy the Scriptures, it then from semi-barbarism into midnight savagery, until the morals of a menagerie of tigers, rattlesnakes and chimpanzees would be better than the morals of the

shipwreeked human race. The only impulse in the right direction that this world has ever nad has come from the Bible. It was the mother of Roman law and of healthful jurisprudence. That book has been the mother of gates of the city saying, "Stay back!" to all reforms and all charities-mother of English magna charta and American | youd those gates as I can press out bedeclaration of independence. Absurd. They are sick of the govern-That book brought George Washington ments that have oppressed them, and down on his knees in the snow at Valley | they want free America! Give them the Forge, and led the dying Prince Albert

to ask some one to sing "Rock of Ages." I tell you that the worst attempted crime of the century is the attempt to destroy this book. Yet infidelity, loathsome, stenchful, leprous, pestiferous, ichorous with the second death, to take driven multitudinous tenants almost to the hand of this republic. It stretches it out through seductive magazines, and covered as they will be, with vineyards through lyceum lectures, and through turbey du i greason of navitation, Cop millions of people and put it in a few caricatures of religion. It asks for all that part of the continent already fully settled Monopoly, brazen-faced, iron-fingered, and the two thirds not yet counted. It says: "Give me all east of the Mississippi, Connection will be made at Sault CPR to this republic. He stretches it out over with the keys of the church and with the lakes and up the great railroads and the Christian printing presses. Then give me Wyoming, give me Alaska, give me Montana, give me Colorado, give me all the states west of the Mississippi and I will take those places and keep them by CPA forbid the bank of that marriage, forbid right of possession long before the gospel

But there is another suitor that presents his claim for the hand of this republic. He is mentioned in the verse following my text where it says. "As the bridegroom rejoiceth over the bride, so shall thy God rejoice over thee." It is not my figure. It is the figure of the Bible. Christ is so desirous to have this world love him that he stops at no humiliation of simile. He compares his grace to spittle on the eyes of the blind man. He compares himself to a hen gathering the chickens, and in my text he compares himself to a suitor begging a hand in marriage. Does this Christ, the King. deserve this land? Behold Pilate's hall and the insulting expectoration on the face of Christ. Behold the Calvarean massacre and the awful hemorrhage of five wounds. Jacob served 14 years for Rachel, but Christ, my Lord, the King, suffered in torture 33 years to win the love of this world. As often princesses at their very birth are pledged in treaty of marriage to princes or kings of earth, so this nation at its birth was pledged to Christ for Divine marriage. Before Columbus and his 120 men embarked on the Santa Maria, the Pinta and the Nina for their wonderful voyage, what was the last thing they did? They sat down and took the holy sacrament of the Lord Jesus Christ. After they caught the first glimpse of this country and the gun of one ship had announced it to the other vessels that land had been discovered, what was the song that went up from all the three decks? "Gloria in excelsis." After Columbus and his 120 men had stepped from the ship's deck to the solid ground, what did they do? They all knelt and consecrated the new world to God. What did the Huguenots do after they landed in the Carolinas? What did the Holland refugees do after they had landed in New York? What did the Pilgrim Fathers do after they landed in New England? With bended knee and uplifted face and heaven-besieging prayer, they took possession of this continent for God. How was the first American congress opened? By prayer, in the name of Jesus Christ. From its birth this nation was pledged for holy marriage with

No Egyptian plagues. No Germanic divisions. The people of the United States are happier than any people on earth. It is the testimony of every man that has travelled abroad. the fulfillment of the text. We have been turning an important leaf in the mighty tome of our national history. One year at the gates of this continent over 500,000 emigrants arrived. I was told by the commissioner of emigration that the probability was that in that one year 600,000 emigrants would arrive at the different gates of commerce.

Are you afraid this continent is going to be overcrowded with its population? Ah, that shows you have not been to California, that shows you have not been | THE to Oregon, that shows you have not been to Texas. A fishing smack to-day on Trent Valley Navigation Co. Lake Ontario might as well be afraid of being crowded by other shipping before night as for any one of the next ten generations of Americans to be afraid of being overcrowded by foreign populations in this country. Then let the Boseons and the New Yorks and the Charlestons of the Pacific coast come to the marriage altar on one side, and then let the Bostons and the New Yorks and the Charlestons of the Atlantic coast come to the marriage altar on the other side, and there between them let this bride of nations kneel, and then if the organ of the loudest thunders that ever shook the Sierra Nevadas on the one side or moved the foundations of the Alleghanies on the other side should open full diapason of wedding march, that organ of thunders nations, saying, "as a bridegroom rejoiceth over a bride, so thy God rejoiceth platters shall be of Nevada silver, and the chalices of Canfornia gold and the fruits lations from the free nations of earth and
