stock who is looking for big dividends.
This is one of the facts that the officials will not give to the big city dailies.

—A correspondent from Burnt River writes: We have been in the habit of reading about strikes in different places and for various reasons, but now we are able to look on at least a small fragment of a large strike, that of the G.T.R. sectionmen, and if ever men were justified in adopting extreme measures in order to have their grievances adjusted surely striked and strikes in different to baye their grievances adjusted surely examination. He had that although at first sight it might appear that its abolifiers to sight it might appear that its abolifiers that such will not be the case. He thought it best to retain it and raise the age limit and classify schools.

Mr. Birchard of Coboconk in his essay on "Ocean Currents," gave some valuable information. He deant at length with the causes of the currents, their courses and their effects on the different continents.

Messrs. Maybee, Cundal and Reazin Messrs. Maybee, Cundal and Reazin Messrs. were appointed a question drawer committee, and the convention adjourned until 9

a.m. of the following day.
On Friday morning Mr. Mark of Powles'
Corners took his subject, "How We are betide the foreman that would be caught allowing his men to take shelter in a rain Governed." He showed the proper manner of leading up to and dealing with the subject. His custom is to begin with the school section and proceed through the different governing bodies to the Dominion parliament, showing the constitution of each, and finish with a blackboard line.

In the discussion it was very apparent that all present were of the opinion that that all present were of the opinion that there is too much history on the public school course, too much time required for it, and that the examination is altogether think you will agree with me that it could not be worse. In fact here at Burnt

R ver the only conclusion you could come to would be that they had been trying to Mr. Mosgrove of Kirkfield gave a talk make it as inconvenient as it possibly could be and that they had succeeded to an admirable degree. But they don't forget to charge plenty for anything they problems which had proved stumbling for the freight, charges are an admirable degree. But they don't forget to charge plenty for anything they carry, in fact the freight charges are enormous; for instance, I have been charged as much as \$1.54 for a barrel of

blocks to some of the teachers present. D. McMillan of Lorneville spoke on the means of preserving the health of the te cher and pupils. In the discussion following many valuable hints were given by

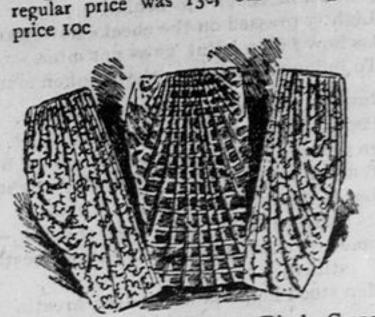

Mr. Hutchison of Cambray in his paper

SELECT AND EXCLUSIVE WASH DRESS GOODS

The almost universal acknowledgment of our leadership in WASH FABRICS has not been attained by handling ordinary goods at low prices. The low prices are here, but our efforts have been directed particularly towards collecting the most select in weave, design and color effects from the largest manufacturing centres of Cotton Goods. Our stock embraces:

-"Primities from Belfast," beautiful goods, in spots, stripes and figures, our price 20c a yard

-"Piques from Manchester," the beautiful, heavy and rich-looking cords are here as high as 50c and low as 15c per yard

-"Ginghams from Glasgow." We don't know anything to compare with the real Scotch Ginghams for fineness and reliability as to the washing

, manner you warmen you qualities; pretty, neat shepherd's schecks at 100, stripes, checks and plaids at 150

-"Organdies from Paris," beautiful, real sheer goods in perfect tints of Nile blue, yellow and pink, special, 20c per yard

-"Dotted Muslins from St. Galls," in pink dots, with white grounds, stripes and floral designs, being modest and subdued in tone, at 100, 156 20c and 25c per yard
