Little Local Lines

—Dr. Ryerson of Toronto will be at the Benson house, Lindsay, for consultation on Saturday, June 6th.—21-

—Farmers and breeders should read the letter of "A Lover of Good Horses" under the heading of Woodville on page 7.

—Mr. C. Chittick shipped a carload of calves; expect cattle to Montreal on Saturday. The shipment was made up of his own and cattle purchased from Richard Evans of Yvelton.

—A plank drain down the centre of Cambridge st. caved in on Monday, the water poured from two openings in the street surface near Dr. Merriman's residence. Excavations are going on to locate the trouble.

—Mr. Albert Davidson of Glandine, delivered to P. B. McIlhargy this week, several very fine cattle. One two years old five months old weighed 1300 pounds; other thirteen months old weighed 600 pounds. They brought five cents a pound.

—On Monday evening 15000 salmon trout from the government hatcheries at Tweedie, were deposited in Head Lake at Haliburton. Some years ago a similar quantity was placed in Sturgeon Lake and the fish lived only one season, and lake is probably deeper.

—"There'll come a time some day."
He sang in a tenor voice,
And the beauty of his vibrant tones
Made all about rejoice.
"There'll come a time some day."
Again the chorus low,
And his tailor there in a gallery seat
Tried out, "I hope that's so!"
—Beginning next Sunday Rev. Bryce Jones pastor of the Presbyterian church at Bobcaygeon will deliver a series of four lectures on (1) The Church; what it is and what it is not; (2) Why I should be a member of the church; (3) Duties of a church member; (4) The government of the Presbyterian church. —The annual excursion in aid of the Home for the Aged, will take place on June 22nd to Sturgeon Point, per steamer Crandella.

—It will make you dollars if you feed your calves Cottonseed Meal or Oil Cake. It makes them healthy and they grow like mushrooms. You can get it at the OAK FRONT GROCERY.—16-1f.

—A monster single-yoke egg, measuring 10 1/2 by 6 1/2 inches, was left in our sanctum on Thursday by Wm. Chapman of Cameron. The egg was gourd-shaped and laid by a common barnyard hen.

—Miss Wingrove's Kindergarten class will be held regularly from now until midsummer. Those who intend sending their children, apply between 1 and 4 o'clock at No. 27 Cambridge-st.—20-2.

—Percy Steele of Bolsover, aged 16, was struck by lightning and instantly killed on May 20th. He was on his way home and had sought shelter from the storm in an unoccupied house, where his body was found.

—The Grand Orange Lodge of British North America is in session in Toronto. Over 500 delegates are present, those from this district being Messrs. John Kelley, J. W. Wallace, Lindsay; J. H. Delamere, Minden; S. Suddaby, Burnt River.

—Miss Mitchell is sparing no pains to retain the reputation for fine millinery and dress making, obtained during many years of business in this town. She enjoys an increasing patronage and the style and quality of her manufactured goods deserve it all.

—On Friday last, through an accident, one of the large carriages in Carew's mill ran over the end of its track and dropped to the river some 15 feet below. The mill had to be stopped until by block and tackle the runaway was released. Fortunately it is one of the sort on which no workmen stand.

—It was reported on Tuesday that the bridge men had declined to perform certain unusual duties and had been dismissed. It transpires that they have only suspended. This is regarded as a game of bluff on the company's part. The men in fact are M. Mulvihill, Adam Switzer, W. Cammon, Thos. Nixon and Geo. White.

—The first game of lacrosse in this district of the C.L.A. junior series will take place at the Agricultural Park, Lindsay, to-morrow, June 2nd, when Cannington and Lindsay will cross sticks. An interesting game may be looked for. Admission 15 cents; ladies free. Game called at 2.30.

—On Tuesday morning Master Cyril McAlpine and some fellow-students got on the Haliburton train to ride down the Avenue on their way to school as is their custom. The conductor appeared unexpectedly and at his request the boys jumped from the moving train. Cyril fell against a stone and lacerated his leg very badly. The wound required three stitches.

—A letter from Bombay India recently received by Miss Belle Nugent returned missionary from that country states that very heavy rains fell in April. Usually no rain falls in that month. The wet has driven the wild beasts to seek food in the clearings and a large tiger had been killed near a residence while attacking the domestic animals. The plague has still to be fought but the natives in that section are becoming reconciled to inoculation, which has proved an effective preventive in 95 per cent. of the people treated.

—A severe wind and rain storm, accompanied by thunder and lightning and hail passed over this section on Monday evening. The rain fell in torrents, deluging the already over-soaked ground. In the French village a house owned by C. Bissette was struck by lightning. The fluid passed down the pipe, after striking the chimney and shaking the furniture up considerably. The inmates fortunately escaped. Just east of the grain warehouses on King-st., a bolt struck the bank, finging heavy stones and earth onto the track.

—Major Martin returned home from Toronto on Thursday filled afresh with the military spirit of the good old days when the smell of powder was the order of the day. The gallant major's enthusiasm was caused by the pleasure derived at the meeting of the managing committee of H.M. Army and Navy Veterans Association in this city. The major states that the regular annual celebration will be held in Peterboro on Coronation day, June 25th, and he has been appointed on the committee of management to arrange all necessary details. Col. Sam Hughes, M.P., and Capt. J. W. Wallace of Lindsay were both elected members of the association.

—The season at Sturgeon Point is likely to be very late this year on account of the fearful scourge of caterpillars that is making the place unenhabitable. During the past week the slugs have spread their wings on the oak, basswood, ash and some other trees, besides attacking the lower bilberry bushes. At certain places of the day great numbers of them crawl up the sides of the houses and when possible into them. The webs by which they suspend themselves and to trees make a network everywhere and to get out of doors at all requires a good deal of resolution. Those who refuse to stay inside, go about habitually swathed in webs and decorated with varying numbers of the nine-spot wrigglers. Captain Graham is said to be of the opinion that the removal of whiskey from the Point is the cause of the caterpillars being so plentiful.

—Firecrackers are a good thing on the Queen's birthday and provide an extremely easy means of exhibiting our loyalty, but they require care in the using. On Wednesday of last week two or three parties had accidents occurred from the use of William Parkin of the north ward had his eye quite painfully injured by a "squib" in which the ladies of a mischievous boy, who held it toward the little fellow's face as he was passing on the sidewalk. The doctor thinks no serious results will follow. Another accident was at Sturgeon Point, where several of the royal faction. One of them, named John Paul of Peel-st., was examining a heavy cracker, whose fuse seemed to be dead, when it exploded in his face and several particles of powder were embedded in the skin while two or three struck the eye dangerously near the three track of the same company named Hart Baldwin held an explosive in his hand while it went off, and had that member badly lacerated with the recoil. A young son of Mr. R. B. Allan of William-st., north, had his eye quite badly damaged by the premature explosion of a cracker.

—The felling is worth trying: If a splinter has been driven into a child's hand it can be extracted with steam. Nearly fill a wide mouth bottle with very hot water, place the injured part over the mouth and press slightly. The suction thus produced will draw the flesh down, and in a minute or two the steam will extract the splinter and inflammation together.

—The R.C. picnic at the lower end of Big Island, Bobcaygeon, on June 6th, will be on a large scale. Every point on the joined "Karwatha" lakes is apparently to be represented. The Alice-Ethel will convey excursionists to the grounds from Bobcaygeon and intervening points and the Crandella from Lindsay, Pleasant Point and Dundas. Mr. Stratton, M.P.P., of Peterboro, will be among the speakers.

—Stimulated by the grand success of last year's Industrial Fair, the directors of the Toronto Exhibition are putting forth greater effort than ever to make the one for the present year eclipse all that have gone before, both as to the extent and variety of exhibits as well as the magnitude and novelty of the special attractions. The Prize List has been published, and copies can be procured by any of our readers by dropping a post card to the secretary at Toronto. The fair is to be held from the 28th August to the 9th of September.

—The party of local fishermen, comprising Messrs. J. B. Knowlson, J. A. Paddon, G. H. Hopkins and Dr. Simpson, who had been spending a week trout fishing on the York branch of the Madawaska river, 13 miles from Baptiste station, on the L.L. & O. railway, returned home on Tuesday of last week. Their catch was not up to the usual number. They arrived on the morning of the fish. However they managed to catch a sufficient number of speckled beauties to keep the pan supplied. Some of these weighed 2 1/2 pounds. A party from Toronto—Messrs. Askin, Taylor and Strachan, of the Grand Trunk Transportation Co.—who camped near the mouth of the fish, were more fortunate and captured 80 fine fish. The water was abnormally high, which interfered with the fishing. The point at which the Lindsay party pitched their tent is 870 feet above the level of Lake Ontario, and the boat was intense for the season. There was a frost every night during their stay. The ice did not leave Baptiste lake this year until the first week in May.

Talent Workers Social
The congregation of St. Andrew's Presbyterian church are erecting a new Sunday school and installing a pipe organ at a cost of about \$9,000 for the whole undertaking. The ladies of the congregation wishing to assist in the matter formed themselves into a society called the "Talent Workers," through which by the manufacture of different articles for private sale, or a weekly or monthly subscription, they have undertaken to raise \$1,000 in three years. That they are succeeding is quite evident when we say that although only organized about eight months, they have already raised \$335. The present school room will be undergoing alterations in the course of a few weeks, and the Talent Workers took the opportunity on Tuesday evening last of having a farewell social in the old room, and also giving an exhibition of the work they are doing. This proved very interesting to the large crowd present. A great many pleasant gatherings have been held in this room, but we venture to say that none exceeded this in sociability and pleasure. A most interesting program was rendered by the following parties: Misses. Camelon, Lizget, Dunoon, Mrs. Mowat and Messrs. Mullett, Peace and Skinner. We congratulate the ladies on the work they have done and predict the raising of the full amount considerably within the time limit. It is remarkable what can be accomplished by a large number, each doing a little.
