To all our Subscribers for 1892.

We, the publishers of "North American Homes," in order to increase the circulation of our journal throughout the United States and Canada, will spend this year over one hundred thousand dollars among our new subscribers in the form of an artistic Crayon Portrait and a handsome frame (as per cut below), to be made free of charge for every new subscriber to "North American Homes." Our family journal is a monthly publication consisting of 16 pages, filled with the best literature of the day,

the New York World had only about 15,000 daily circulation; to-day it has over 300,000. This was obtained by judicious advertisement and a lavish expenditure of money. What the proprietor of the N. Y. World has accomplished we feel confident of doing ourselves. We have a large capital to draw upon, and the handsome premium we are giving you will certainly give us the largest circulation of any paper in the world. The money we are spending now among our subscribers will soon come back to us in increased circulation and advertisements. The Crayon Portrait we will have made for you will be executed by the largest association of artists in this city. Their work is among the finest made, and we guarantee you an artistic Portrait and a perfect likeness to the original. There is nothing more useful as well as ornamental than a handsome framed Crayon Portrait of yourself or any member of your family; therefore this is a chance in a lifetime to get one already framed and ready to hang in your parlor absolutely free of charge.

The same Blue Book shows that the surplus of the London Mutual was \$67,176 composed entirely of the unassessed portion of premium notes which no policy holds ever expects to be called upon to pay.

The following table shows at a glance how the affairs of the London Mutual have been going during the last few years :-

Year.	Losses unpaid at close of each year.	Cash available for paying losses at close of each year.	Money Borrowed	Surplus reckoning premium notes at full face yalue.	Investment each year.
1885 1886 1887 1888 1889	\$6,047 9,878 12.455 23.014 20,436 26.182	\$63,963 50,686 22,701 20,721 13,911 1,403	None None \$20,000 40,000 40,000 60,000	\$101,816 115,955 97,268 75,334 74,068 67,176	None \$6,500 8,000 None 9,028 11,797

It should be borne in mind that during the last three years the London Mutual collected in heavy assessments over \$30.000 more than usual, and yet at the close of last year, after collecting a full year's income, they had only \$1,403 with which to pay \$26,182 of unsettled losses. In regard to security no one should hesitate as to which company to select.
