THURSDAY, JULY. 28 1892.

Editorial Notes.

THE section of the reform party which still clings to the leadership of Messrs. Laurier and Cartwright may well exclaim, "Heavens save us from our friends"—across the border. The New York *Journal*, in an article indulging in bluster over the canal toll matters, said the other day:

"The Canadian Liberals, who have always been our sincere well wishers, and through whom alone the union of the Anglo-saxon race upon this continent can be effected, will never obtain control of the Dominion Government until the voters who have been gulled by the present Conservative Ministry have been made to smart for the folly and insolence of their representatives."

ON Saturday last a vote of the entire Province of Manitoba was taken on the question: "Are you in favor of Prohibition?" The verdict of the Province was overwhelmingly "Yes." In the city of Winnipeg the vote was 2 to 1 in favor of Prohibition, in Portage la Prairie 4 to 1 in favor, whilst in some of the country districts the majority in favor of such legislation was even greater. Such an expression of public opinion as to what ought to be done must of necessity exert a powerful

influence in the direction of immediate legislation for the curtailment at least of the licensed liquor traffic. It is not probable that a measure of total prohibition will immediately follow the vote of last Saturday, as large vested interests die harder than that; but there can be no doubt that the moral effect of the vote will give great and immediate force to the movement.

A NEW YORK journal intimates that the passage of the retaliation bill by the United States government in connection with the canal toll question is merely a warning to Canada. Canadians have become so used to retaliation messages and measures on the part of their neighbors on the eve of a Presidential election that the warning is being calmly accepted for what it is worth. The closing of the Sault Ste Marie canal to Canadian trade until the canal on this side of the line is completed, would be a serious blow to our Western trade, it is true; but where would the trade of the Western States be were Canada to retaliate, as she certainly would do, by closing the St. Clair flats canal and the Welland canal to American carriers? Unfriendly bluster against Canadian interests is all very well as an election dodge, but Canada has the bulge to too great an extent in this canal toll matter to heed the "warning" on this occasion.

THE advocates of one national public school system under the control of the state gained a signal victory in the Manitoba elections last Saturday. The leading question at issue in the contest was the school question. It will be remembered that some two years ago the Manitoba Government passed an act abolishing state aid to Separate schools, and maintaining the right of the Province to tax all for the support of the National system. An appeal on behalf of the supporters of Separate schools is now pending before the Privy Council. The Greenway government refused to compromise on the burning question, and pledged itself, should the decision of the Privy Council be against the Act, to refuse to vote the supplies so far as any provincial grant to

Separate schools is concerned. The Opposition promised to abide by the decision of the courts, and to act accordingly. The Province by a vote of 25 to 13 has decided in favor of a national school system, and that the Province is determined to settle for itself all matter pertaining to education.

THE Reform press throughout the country is advocating the calling together of a convention of the party, with a view to giving the rank and file the right of having more to say as to the policy of the party, and for the purpose of improving the organization. Much might be accomplished in furthering the latter by the holding of a convention; but it is very doubtful that the honest convictions of the rank and file would be heard as to the policy of the party. The modern party convention is simply a gathering of dyed-in-the-wool partisans selected by the ward heelers in the constituencies, who on assembling follow the management of the head bosses and re-echo the cut and dried resolutions of the latter. Should the Liberals hold a grand convention free from all those objectionable features, it will be something new and refreshing. Such a convention would scarcely adopt a resolution endorsing the policy of unrestricted reciprocity, which the rank and file of the party have ere this been shown by some of their best leaders means the surrender of the commercial freedom of Canada to the United States, and in the end annexation. There is not much chance of such a convention being held however.

IN the agricultural building of the World's fair Canada has obtained one of the choicest locations for her exhibits, adjoining that of Great Britain, and measuring about 10,000 square feet. It is expected that an imposing display of the Dominion from the Atlantic to the Pacific will be made on this area. It is proposed that these shall be arranged in provincial groups, and farmers everywhere are invited to aid in the work. Samples of from 10 to 20 lbs. of grain will be sufficient for the

purpose, and should be accompanied by the name of the producer, the place where grown, the character of the soil, date of planting, quantity of seed per acre, date of harvesting and yield, with the name of the particular kind of grain sent. These samples will be shown in suitable glass jars, and the label will bear the name of the exhibitor. One section of this building will be devoted to exhibits of honey, which it is intended to have shown in uniform glass cases. The cost of these cases will be borne by the Dominion Government. Individual exhibits of extracted honey will be shown in quantities not exceeding 50 lbs. from any one exhibitor, and comb honey will be limited to 100 lbs. It may be taken for granted that the deepest interest will be taken by the farmers of the Dominion to make the Canadian agricultural display an imposing one.

FROM bulletin 12 of the manufacturing series of the census returns shows that the increase in the value of products of our manufacturing establishments, as represented by the urban population, is 117 millions, while the increase in the rural districts in the value of manufactured products is 49 million dollars nearly, and the increase in population 126,000. The urban population has thus increased its output by \$306 per head of increase, and the rural by \$386 per head. Both the rural and city districts have made great advances in manufacturing development during the past 10 years. From the figures relating to cities and towns having over 5,000 inhabitants, the following as regards places along the Midland may be interesting. In 1881 the total output of manufactured products from Lindsay was \$542,103; in 1891 \$1,043,602; from Belleville, \$1,091,208 in 1881, \$1,204,095 in 1891; from Peterboro, \$1,011,266 in 1881, \$2,774,746 in 1891; from Port Hope \$918,176 in 1881, \$675,100 in 1891. The figures for Orillia, which is under 5,000 population, are \$253,895 for 1881, and \$660,949 for 1891. The total output from Toronto increased in the same period from \$19,562,981 to \$45,026,322.

A CHICAGO arithmetician computes that the loss to the World's Fair managers by the closing of the exhibition for twenty-six Sundays would be \$7,000,000. Sundays, he says, were the big days at the Paris Exposition, where the average attendance was 137,289 and the maximum 400,000. Preparations have been making to run Sunday excursions to Chicago during the fair. "With good weather," says the Chicago Times, "these excursions would, with the immense turnout of Chicago wage-earners, swell the Sunday attendance to 400,000 people. This for twenty Sunday days only would make \$4,000,000 in gate receipts alone. Reducing the other six Sundays to half that estimate for probable bad weather, it would make \$600,000, which, for the twenty-six Sundays, would make a total of nearly \$5,000,000. On concessions an official of the ways and means estimates that the total receipts would exceed \$10,000,000. For the twenty-six largest days or Sundays it would reach nearly \$2,000,000, making a grand total for the exchequer of the Exposition, approximately, \$7,000,000." All this may be quite true, but it is practically an argument in favor of all kinds of Sunday labor. What millions of dollars might be earned on paper if a calculation were made of what the industries of the world could produce in the time apparently lost by the day of rest. Yet the world is happier and better off for resting on the seventh day, and so will be those who go to the Chicago fair.

Fish! Fish!

If you want a real fresh fish go to SOANES' Fish Market, 5 William street opposite the Montreal Bank.

NEWS ITEMS.

Cruiser No. 12 was launched from Cramp's shipyard at Philadelphia Tuesday and christened Columbia. Miss Edith Morton daughter of the vice-president, did the christening.

Two gas explosions occurred in St. Louis Tuesday afternoon, bursting the Mill creek sewer, demolishing the Iron Mountain railway bridge and causing the loss of at least three lives.

Sheriff Tipton, Tom Howard and George Rayburn, of Mount Sterling Ky., were killed Tuesday by a horse thief named Hurley, whom they were pursuing, Hurley got away.

VOTERS' LIST, Municipality of the TOWNSHIP OF FENEL, County of Victoria.

—HOLD THEIR—

Annual Mid-Summer Sale in Lindsay.

It is customary with us, after the 15th of July, to organize in our different stores a big sale of our entire stock. This we do—first, because we believe it does not pay to carry goods over until another season, and secondly, in order to make room for our big fall purchases of

OVERCOATS AND WINTER CLOTHING,

which requires ever inch of room we can command; therefore during the Month of July the following extraordinary inducements will be offered:—

In our Men's Clothing Department we will take 20 per cent. off our regular prices. In our Children's Clothing we will take 15 per cent. off. And in our Hat and Cap Department we will take 20 per cent. off. Remember, all our goods are marked in

OUR OVERCOAT DEPARTMENT

Not only in our prices but by showing twenty times more goods and ten times nicer goods than were ever seen before in Lindsay. But more about this hereafter. What we want now is to make room for this great stock for fall, and if low prices will do it, you will get them now, for we are bound to clear out the balance of our Spring and Summer Goods regardless of cost. Don't miss this great opportunity; it will pay you to buy for next year, and other merchants would do well to take advantage of this great sale, also, for we will sell them cheaper than any man in Canada can make them for.

plain figures, and it is a well-established fact that our prices are the lowest, consequently when we advertise a

GRAND REDUCTION SALE

it means a reduction, for the goods are sold at the regular prices and the discount taken off after the sale is made.

We have just closed a successful season, our sales going beyond our most sanguine expectations. Thanks to you, good people of Lindsay and Victoria County. And although we are certain we have given general satisfaction, we are not egotistical enough to believe we have pleased everybody. When our Saviour was on earth He did not please everybody. Can we expect to? Nor do we claim to be infallible. We are liable to err in our judgment as well as others, but we do claim to do our business in an honourable way, because we believe it pays; and for this reason if there are any of our patrons who have cause for complaint let him come to us and we will make it right now, either by refunding the money or replacing the goods. This fall we will astound astonishment in
