

# THE HOLIDAYS OVER

## Now Buckle Down to Work and Study.

Most people have now got back from their summer vacations. The men must settle down to work again and the boys go back to school. Let no one lament the time spent in taking a holiday once a year. The relaxation given to aid exhausted nature is money well earned and saved. You return to quickly overtake and pass the man who has remained at his desk at the sacrifice of health and strength.

### Our Bodies Wear Out too Quickly and so do our CLOTHES.

While you have been trying to save health and strength, the wear and tear of CLOTHING has gone on worse than before, and now you discover how seedy-looking and faded your outfit has become. No beating about the bush.

**Men Must Have New Business Suits, Boy's Must Have New School Suits.**---Where to make your money go farthest is now the important question in most families. If you want to see your Dollars grow, make your purchases from our attractive stock which overflows with Good Qualities, Latest Styles, Rock-Bottom Prices.

**Strong Suits for Men, \$5; Young Men's Suits, \$4; Three-piece Suits for Youth's, \$3.25; Two-piece Suits for Boys, \$1.98; Boy's Odd Pants, 35c.**

Wives who have husbands—young men who want wives—mothers who have boys—strike for

# GOUGH BROS. THE WONDERFUL CHEAP MEN.

### LOCAL NEWS-LETTERS

**JANETVILLE.**  
Special to the Watchman.  
**A Great Offer.—THE WATCHMAN and THE WEEKLY CLOSE or THE WEEKLY MAIL AND EMPIRE** from now until January 1st, 1897, for One Dollar.

**ORILLIA.**  
**THE STEAM THRESHER AGAIN.**—Tuesday morning about 9 o'clock the barn of Mr. John Shannon, with the season's crop, consisting of 15000 bushels of grain, was totally destroyed by fire. The house was also burned, but the contents was saved. The loss will amount \$2500, on which there was no insurance. The fire originated from a spark from a steam thresher.

**MIDLAND.**  
**KILLED IN A SAWMILL.**—On Saturday a young man named James Aderson was killed in Mr. Playfair's mill. He went into the engine room where the engines were slowing down and the attention of the two engineers engaged. They saw some sawdust fly and they heard something go wrong with the machinery, and then they found the body on the floor close to the big pulley. One heel and the left side of the head were crushed. The theory is that the young man was stepping over one of the driving belts and his heel caught and he was swung around the pulley, receiving the death blow on the way. His mother is a widow. The remains were interred today at Wyebridge beside those of his father who was drowned some years ago.

**MANSE GROVE—ELDON.**  
**PERSONAL.**—Mr. J. S. Ingram of Queens University, spent part of last week renewing old acquaintances. Mrs. Wolsey of Buffalo visited friends here recently. Mr. A. D. Cameron of Toronto University, spent Monday last in our midst. Miss Thompson, who has been visiting her friend Mrs. McDonald for the past month returned to Washington on Thursday last. Mrs. J. Vanstone is visiting her parents at New Market.

**ACCIDENT.**—Mr. J. D. McMillan who is in the employ of Mr. D. N. Smith met with an accident last week, which will lay him up for a time.  
**Y.P.S.C.E.**—Mr. J. R. Ingram took charge of the Endeavor Meeting on Sabbath evening last. The "Pledge" being the topic, he dealt with it in a very able manner, Mr. Ingram being formerly a member of the society was listened to with attention.

**LITTLE BRITAIN.**  
Special to the Watchman.  
**NEW BOOKS.**—The mechanics' institute here will soon be in receipt of about 300 new volumes; when these books arrive Little Britain will have a very complete library, and one that should be supported. Mr. Sam Champion is the librarian, at whose store the books can be obtained.  
**NEW BARN.**—Robert Anderson is erecting a fine new barn. Next year he will build a commodious brick house.

**IMPROVEMENTS.**—Mr. P. Allin is improving his house. The building is being raised and a stone foundation put underneath, and the inside is being improved in many ways. Mr. John Wallis will move in as soon as the repairs are completed, and Mr. Medland will occupy the house vacated by Mr. Wallis.

**RECOVERING.**—Dr. Vrooman is regaining his health, and is able to be around again.  
**PERSONAL.**—Mr. S. A. Champion returned Friday last from his visit to Rochester, Buffalo and points east. He reports a good time and thinks there is worse places to live and do business than Little Britain.

**AT LINDSAY.**—Messrs. Caleb Mark, Isaac Irwin, James Marshall, James Glass and S. A. Champion were at Lindsay on Sabbath last attending the funeral of the late Councilor Winters.  
**NEW GOODS.**—Mr. S. A. Champion is receiving his fall and winter stock of tweeds and overcoatings and is prepared to do even better than ever for those who want well-made stylish garments. \$16 suits for \$14 and \$14 suits for \$12 are some of the bargains he is offering. Call and see him. It will pay you.  
**BASKET SOCIAL.**—The Little Britain L.O.G.T. lodge, will hold a grand concert and basket social in their hall on Friday evening, October 4th. An excellent program will be rendered by the members of Little Britain and Cresswell lodges, assisted by the best local talent from surrounding places. Mr. Denson, comic singer and vocalist, of Lindsay is expected to be present.

**OAKWOOD.**  
Special to the Watchman.  
**FAREWELL PARTY.**—A number of Mr. McIntosh's personal friends were invited into Mrs. Bank's on Tuesday to spend an hour with him on the eve of his departure for Kingston. This is the second summer Mr. McIntosh has spent at Oakwood and Cambray. He is the most popular student we have ever had and his leaving now is a matter of regret. A most enjoyable evening was spent with him on Tuesday night. At the close of the meeting one of the members of the congregation stepped forward and addressed a few parting words to Mr. McIntosh thanking him for his untiring efforts, and unobtrusive success in the field over which he had charge during the summer of 1894 and 1895, and also assuring him of our best wishes for him wherever he may be.

**DIVISION COURT.**—A number of cases were tried here on Tuesday. The sessions lasted throughout the day.  
**FAIR.**—Great preparations are being made for our annual township fair. We anticipate unusual success in our show this year.  
**WAR AT OAKWOOD.**—A great slaughtering sale of dry goods and groceries. Giving up business. Store to let. A CAMBRAY.

**CAMBRAY.**  
Special to the Watchman.  
**CHURCH OPENING.**—The dedication services in connection with the Methodist church took place on Sunday and on Monday last. At the different services on Sunday the church was crowded, many being unable to gain admittance. Rev. Chancellor Burwash, of Toronto university delivered excellent addresses in the morning and evening. In the afternoon Rev. Mr. Hughson, Baptist minister of Lindsay, addressed the Sunday school. This is the first time that Cambray people have had the pleasure of hearing Mr. Hughson but he is sure of a welcome should he visit us again. Large, however, as the gathering was on Sunday it was greatly surpassed on Monday afternoon and evening. As early as three o'clock people began to arrive from the surrounding country and from then until after seven there was almost a continuous procession of rigs into the village. In the basement of the church, where the dinner was served, everyone was busy, but so complete were the arrangements that no one was kept waiting for any length of time. Not less than seven hundred people were served in less than four hours. In the church there was a fine array of talent local and foreign. The speeches by the different clergymen were short and interesting. The musical selections given by the choir and by the Hartley quartette were well rendered and received hearty encores. At the close a vote of thanks was tendered, to all who had assisted in the programme. The proceeds from dinner, collections and subscriptions amounted to a little over \$400, thus leaving the church clear of debt. Great credit is due to the pastor and people for the way in which this work was undertaken and so successfully carried through.

**LOCALS.**—Large quantities of grain are being marketed here. Mr. W. A. Fanning took first money in the two races for which he entered at Victoria Road fair.  
**PERSONAL.**—Miss E. Widdes of Lindsay spent Sunday and Monday here, the guest of Miss Edwards. Mr. J. Wood of Kirkfield spent Sunday at home. Dr. J. A. White of Lindsay was in Cambray on Sunday.

**FENELON FALLS.**  
Special to the Watchman.  
**ACCIDENT.**—Another serious though not fatal accident occurred on Friday morning of last week in Howry & Sons saw mill. The unfortunate was Mr. Lawrence Welsh, who came here from Saginaw a few months ago and although Mr. Welsh is a long way from recovery, he is doing as well as could be expected under the care of Dr. Graham.

**ELECTRIC LIGHT.**—Our village though small will soon be able to say that she is better lighted by electricity than many of the large towns or villages in Ontario. She now can boast of two plants, the one belonging to Messrs. Brandon, McDougall & Co., the other to Howry & Sons, but the third is yet to come and by all appearances the third will be owned by Mr. Sandford, who is busy getting signatures to light peoples houses. Can you beat it?

**PERSONAL.**—Miss Mary Cameron left here Wednesday morning for Orillia, King County, Washington. She will be accompanied from Toronto by her sister-in-law, Mrs. Robert Cameron, who left here about four weeks ago. Mr. J. A. Ellis left for Toronto, Monday morning. Mr. John Austin spent a few days with his family at the Falls this week. Inspector Reazin was here last week on his semi-annual visit to the schools. Miss Mary Dunsford, of Lindsay, is visiting at Mr. Jas. Dickson's, Bond street.

**To Study Horse Breeding.**  
Five young men, members of aristocratic families in England, arrived at Wichita, Kansas, a few days ago with thirty trunks, and took quarters at the best hotel. Next day they applied for work at three fast horse farms, and offered to work for nothing in order to learn the American way of developing speed in horses. Thirty-two of them came to America together, the others scattering about in New York, Nebraska, Kentucky and California. Two of them secured work on the farms and the other three have become laborers in livery stables. After their day's work is done they go to their hotel, dress up and live like lords. One of them, said to be a nephew of Sir Charles Palmer, is assisting in taking care of "Ashland Wilkes," the sire of "John R. Gentry." They say they will remain there two years and that their purpose is to get acquainted with the stock in order to secure the best breeds to take to England with them.

**Victoria County Cheese Board.**  
The regular meeting of the Victoria county cheese board took place in the council chamber Wednesday forenoon. Mr. Wm. Flaville was the only buyer present.  
The following are the factories:  
1 Star.....124 11 Fenelon Falls. 85  
2 Lorneville.... 50 12 North Verulam. —  
3 Cameron.... 70 13 Minden..... 33  
4 Dunsford.... — 14 Leaskdale.... —  
5 Gamebridge — 15 Valentinia.... 39  
6 Marryville... 75 16 North Ops.... 36  
7 Derryville... 17 Downeyville... 35  
8 Canbray..... 60 18 Reabro..... 60  
9 Janetville... 35 19 Bobcaygeon... —  
10 Manilla..... 20 North Star.... 85  
President Robertson invited Mr. Flaville to make a bid.  
Mr. Flaville declined to offer \$c, and would not recommend the board to sell for less as this was the best cheese of the season. If the board offered the cheese at \$c and gave him time to cable he would be prepared to do business.  
The chairman did not think there should be any rush to sell at present, and proposed an adjournment for two weeks.  
On motion the board adjourned for two weeks. It was suggested that all factories should come prepared to sell the whole board.

### Editorial Notes.

By a vote of 13 to 8 the Toronto city Council have decided to retain the service of Mr. Mansergh, the eminent English Engineer, and pay him a fee of \$15,000 for his services to consider the tunnel scheme and the best means of supplying the city with pure water. If Mr. Mansergh can permanently settle this matter and devise means whereby Toronto can be permanently supplied with wholesome drinking water it will be the best expenditure the city ever made.

**Y.M.C.A. Notes.**  
—Men's meeting as usual on Sunday at 4:15. Bright address and good music.  
—Bible training class on Monday night at 8:45; study lasts one hour.  
—Board meeting on Friday night at 8 o'clock.  
—Reception committee will please meet at 7:30 on Friday night.  
—Educational classes are a new feature in this winter's programme, and will be announced later.

**The Fire at Dovey & Son's Mill.**  
To the Editor of the Watchman.

SIR,—I was approached last night by the Mayor, and again this morning by several of the leading citizens with the query,—"What was the matter with the pressure during the progress of the fire last night?" Permit me to state most emphatically that there was nothing wrong with the pressure of one hundred pounds per square inch on Kent St., or any equivalent locality in the town, and this pressure was furnished all through the night. The trouble lies not with the waterworks, but in failure of the fire department to turn in an alarm on leaving the fire hall, in leaking joints along the line of hose, in a wrong use of the Siamese coupling, and in a leaking valve in that coupling. Ever since I took charge of these works, the fire pressure has been fully up to the contract figure. The citizens of this town may rest assured that so long as I may remain here pressure will always be forthcoming if we are only notified in proper time from the fire hall.

Lindsay Sept. 25th. F.K. BEGRIE. Supt.

**The Front Navigation.**  
To the Editor of the Watchman.

SIR,—Kindly allow me to say that the Dominion government are now spending millions of dollars in building locks on our inland waters in order to make them navigable for steamboats and barges, and have nearly completed a distance of about 150 miles, bagging at Lakefield, to Cobecook and Port Perry, which is attracting considerable interest along the route, and so far as it has been built the work is substantial and good and very costly. Yet the system of using or controlling the water is very unsatisfactory, as the sawlogs, raft and mill owners now monopolize the right of navigation. They have used up the water on and along this route by lifting the stop-logs in order to float their sawlogs so that it has drawn it so low that our steamboats that only draw three or four feet of water are now dragging on the rock and mud bottom of the canal, whilst the orders passed in council forbid mill owners from using water below the level of the dam, they now do as they like, and if this state of things is allowed to continue the sooner these works are stopped the better it will be for the country and seamboat men as well. A CRITIC.

**DIED.**  
**WINTERS.**—In Lindsay, on Thursday, Sept. 19th, J. L. Winters, aged 61 years.
