Many of our townspeople, particularly ur business men, regret that Mr. C. L. Porteous late manager of the Montreal Bank, has been transferred to Kingston, Mr. Porteous always identified himself with any project having for its object the best interests of the town, and while we regret his removal, we cannot but congratulate him on his promotion. His successor, Mr McGahan is, we are glad to say, very acceptable to the business community both socially and otherwise and there are few in town who will not heartily congratulate him on his promotion. During his sojourn in Lindsay he has made many friends who are glad to see him placed at the head of such an important institution.

Diphtheria.

Last week we commented on what was a current rumor regarding the negligence which was said to have existed in the case of the young boy of Mr. Kings, who died on the 4th, supposing the disease to be that of diphtheria. This week, we have received a letter from Dr. Coulter, who says, the child died from inflammation of the lungs. We give his own words :-"Sammy King, aged 4 years died of inflammation of the lungs and there was no danger in the friends attending the funeral. When Nellie King complained of being ill and of having a sore throat I at once had her isolated and watched the developement of the case, and as soon as I could pronounce the case to be one of diphtheria I did so and placarded the house.
