TOWN AND COUNTY.

LITTLE LOCAL LINES.

Nice Sweet Cider—just fresh from the press—at Geo. Fox's
John Fisher of Trout Creek, Muskoka, claims to have dug 214 potatoes from one hill.
Try Fox's 15 cent Chocolates and choice Creams. Best confections and finest fruits
The Gravenhurst Banner says that the new consumptive hospital will be located near that town.
R. CAMPBELL, Insurance Agent, office second door north of WATCHMAN printing office.—23-4.
A spaniel belonging to Mr. W. A. Goodwin dropped dead on Kent-st. Monday. Only a few days previous the animal was at Sturgeon Point with some sports in pursuit of partridge, but as the number bagged was very small it is just possible the dog died of a broken heart.
The other day a gentleman from Guelph, who was passing through town, espied a fine barrel of snow apples at Mr. A. Primeau's store door. As the price was right, the apples changed ownership and were quickly on their way to the market.

Oysters? Fresh and nice, on ice at Fox's.
The deer shooting season is limited to two weeks this year, from November 1st to 15th.
Did you see those Scotch tweed suits in our window? Price reduced from \$20 to \$16. DUNDAS & FLAVELLE BROS.
Farmers should remember that they are liable to a fine of \$20 if they take up a stray animal and neglect to advertise the fact.
In our report of Mariposa fall show a slight error occurs, in the prizes for road carts, which should be credited to Mr. R. Robertson, the popular carriage maker of Little Britain.
On Nov. 3rd there will be a union church parade of all the military organizations in Toronto. Major-general Gascoigne, the newly appointed commander of the Canadian forces, will take part.
Mr. Sidney McKenzie of Beaverton planted a single bean this spring and recently harvested 1419 beans as a return. This is a wonderful yield; who can beat it?
In the list of contributors to the fund in aid of the unfortunate Lindsay family who suffered so terribly by fire at Leon Lake a short time ago, Mr. Henry Fellows of Orillia heads the list with \$50.
Mr. Thomas Mason of Stanhope, Haliburton county had five sheep killed by bears in broad daylight recently. Bears are very plentiful this season, and know a good quarter of mutton when they see it.
On the corner of William and Durham-sts. Mr. Geo. Gain has opened a lunch counter, where travellers and others can obtain a dainty lunch on short notice. It will prove a great convenience and George will no doubt make it go.
Mr. Nelson James of Orillia, representing Frank A. Cutting of Boston, Mass., is now in town shipping tan bark, which has been brought up on scows from the lower lakes, to points in the states. This is a wealthy concern and furnish their own cars for shipment.
At the request of several leading banks the postoffice department will issue letter cards of the denomination of 2c. The banks state that they will be able to use several thousand such cards in a year, as they will be a great advantage to them for sending out notices to customers in preference to ordinary letters. The department has also decided to issue in towns where there is no delivery by carrier.
A leading citizen claims to have discovered a radical cure for diphtheria. It is also a preventative. Letters patent have been applied for in the United States and Canada. If the discovery is all he claims for it, his name will go down to posterity with Jenner and Pasteur, and his children and children's children will wear diamonds and fine linen.
The man who discovers a cure for this dread disease is a public benefactor, and deserves all the wealth that the discovery is sure to bring him. Oh, let it be soon.
The low figure at which potatoes are selling—25 cents to 30 cents per bushel—is causing many farmers to feed their crop of "Murphies" to their stock. If this practice becomes general potatoes will command three times their present price before spring. We have heard of one farmer in Uxbridge township, who has many acres of potatoes planted, who has decided to leave the crop in the ground rather than dig them and sell for 15 cents a bushel, the price at which they are being sold in that township of hills.
Rumor has it that a young man in town is in a heap of trouble. The old man "fired" him from the house the other evening, or rather morning. It appears the amorous couple forgot, in their sweet bliss, time, wood and light bills, old man and everything else, and in the wee small hours gave vent to their feelings in a nice 10 cent love song, with musical accompaniment. About this time a form clad in a night shirt and a club appeared in door, and it is said the young man went out of the window without raising the sash.
The Ontario Fruit Growers Association intend making an experimental shipment of apples to Sydney, N. S. W., and the result of the venture will be watched with much interest. One hundred and fifteen cases of beautiful apples, all wrapped in tissue paper, and rowed carefully in the boxes, compose the lot. They go by way of Vancouver, on the November steamer, reaching Sydney about December 1. The varieties sent forward are Spy, Cranberry, Baldwin and Greening. Mr. J. S. Larko, agent for the Dominion at Sydney, has offered to see after the shipment in the interest of Ontario fruit-growers.
"Walsh's Illustrated Monthly Magazine" is the name of the new Catholic publication issued at Toronto, the first number of which is before us. The magazine will reflect as well as contain the literary ability of Catholic writers of Canada. The list of contributors is large, and some of the best known writers of Canada are to contribute regularly to its pages. That there is room for such a publication there can be no doubt. It will possess an outlet for talent in Canada little if at all known. The subscription price is one dollar per annum. Mr. John Pyne is the local agent for Lindsay and district.
A lady in town writes to THE WATCHMAN asking how the natural color of autumn leaves can be preserved. This can be done perfectly if care is exercised. Soon after they are gathered they should be dried by pressure between two sheets of blotting paper laid flat on a table and held down by heavy books. All of the moisture should be taken out in from three to four hours after they are first subjected to this treatment. After this process they will retain their colour for years, provided they are not subjected to the direct rays of the sun.

A nice lunch for 15 cents at Fox's, and oysters as you like 'em.
F. C. Taylor, Insurance Agent. Office on the ground floor of the new opera house, Lindsay-st.—8.
Don't look dressed carelessly when the same amount of money expended with us will make you look like a gentleman. DUNDAS & FLAVELLE BROS.
During the deer season which opens November 1st, the Grand Trunk will run a special night train from Toronto to enable the sportsmen to reach the happy hunting grounds more expeditiously.
Mr. Thomas Fee writes as follows: "It pays to advertise in THE WATCHMAN. The gun I advertised as stolen was located and returned in four days after the first insertion of notice. The thief was also located."
They grew big babies as well as mammoth vegetables up on Manitoulin Island. A woman there recently presented her husband with a bouncing baby boy weighing 16 lbs. If a good looker it would take Gough's prize.
We would again call the attention of Road Commissioner Walker to the unsanitary condition of the water course on Sussex-st., near Kent. A proper fall for the water that issues from a drain is urgently needed.
The boy dusted the tail of his Seymour jacket as he picked himself out of the gutter, where he had been landed from the toe of a fruit dealer's boot. "What is up?" asked a passer by. "Oh! nothing much," said the boy, "that fellow has just treated me to some fresh histers."
On Saturday afternoon last Master Gordon Porter, Sussex-st., while running slipped and fell, and his right arm coming in contact with a stone severely sprained elbow joint was the result. The bruise proved very painful, and it was found necessary to carry the wounded member in a sling for several days.
Large gangs of men have been passing through town lately on their way to the shanties of Howry & Son, in the north country. Some ten camps are being located this season and a large quantity of logs will be taken out. The gang that passed through yesterday were from Ottawa and were in charge of Mr. B. L. Richards.
On Tuesday morning Fred Shaw, brakeman on Conductor McCarty's special on the Belleville division, had his hand severely pinched, losing one finger and having the other badly jammed. The train was delayed about two hours in order to have the injured member dressed, when Mr. Shaw was brought through to Lindsay.
It is not surprising that the Hon. Justice Meredith should come to the conclusion that the crime of counterfeiting is on the increase. Last week a second case came before him at the Wentworth assizes. There are two ways of making money in this world, one by honest industry and the other with home made machinery and base metal. The first method pans out best in the long run.
The Egyptian boy George Sudday, who was convicted the other day of peddling in the county without license, is a remarkably bright and clever lad. Although only twelve years of age he speaks five different languages—the Assyrian, Arabic, Italian, French and English. He has only been in this country about ten weeks and saw snow for the first time on Monday.
The Egyptian, Michael Sudday, arrested last week for attempted criminal assault on a Mariposa lady, was sentenced Wednesday morning by County Magistrate Deacon to six months in the Central Prison. The sentence is not the first case of this kind the bold Egyptian has been guilty of. A gentleman from the north country informs us that complaint was made of his conduct while out there a few weeks ago.
One day last week Georgie, the five year old son of Mr. J. H. Lennon, met with an accident that might easily have ended fatally. In climbing on the roof of the south wing of the skating rink he slipped and fell, alighting on his head and shoulders. The distance to the ground is about six feet, and when picked up, the lad was insensible. The back of his head was bruised and he was generally shook up. It was several days before Georgie was himself again.
Saturday evening matters were lively at the police court for a few minutes. A man by the name of Covey Burke had just received a sentence of 30 days in the common goal, when he made a sudden break for liberty. By a quick unexpected move he floored Constable Reeves, but Charlie clung to him. For this had the bracelets on him. For this attempt to escape Burke was rewarded by an addition to his sentence of 30 days, making two months in all. It was a foolish move on the part of the prisoner, as even he had succeeded in getting away his freedom would have been of very short duration, and several months would in all probability have been added to his sentence.
We wish to draw the people's attention to our advertisement in another place in this paper. We are going to sell for cash after the first of November, and we are going to sell so cheap that it will pay you to deal with us. You will find some of our prices quoted in our advertisement elsewhere and every week after this it will pay you to read our advt. We have not time to quote all our prices, we have the best and cleanest stock of any merchants in the country, and the newest stock. We have no goods in our store 20 years old, nor yet one year old. We have all new goods and no bankrupt stocks, and we are selling our new goods cheaper than you can buy old goods for. We are going to close our books on the first of November and not open them till April 1st. This will give you a change to spend your money to good advantage this winter during hard times. We will help you through by giving you goods cheap.

Oysters! Fresh Chesapeake Bay-bed Oysters at Fox's. Get some.
Belleville is enjoying an epidemic of measles.
See Fairweather & Co's advt. on second page. They have something to say about furs.
Situation wanted, as general servant, by respectable young girl from country. Private family. Apply at this office.
Several car loads of drain tile have been shipped from Lindsay to eastern points by Mr. S. Fox during the past week.
Mr. Geo. Combs is busy at Kinmount putting up a brick building, for which he secured the contract. He has several Lindsayites assisting him.
House to let on William-st., midway between Kent-st. and station, or would divide to suit two tenants. Apply to C. Chittick, or J. H. Sootheran.—42-f.
Owing to the death of Mr. J. J. Daly, the Daly House, corner Simcoe and Front-sts., Toronto, is offered for sale. Particulars can be had from Mr. Ed Daly, Lindsay.
Miss Windrim, dress and mantle maker, has removed to more commodious quarters over Miss Paton's millinery store, Kent-st., where she will be pleased to meet her numerous patrons.
Tuesday morning a young man named Waller of the north ward, had his hand badly lacerated by coming in contact with a barbed wire fence, over which he stumbled. He will carry his hand in a bandage for some days to come.
There was quite a fall of snow Monday night, and Tuesday morning the sidewalks were covered with the "beautiful." Those who have neglected to provide coal will send in their orders right away.
The electric light man has been winking and blinking to a good portion of the town of late. The sudden stoppage of light in shops has proved annoying, but machinery will get out of gear occasionally.
Mr. Frank Dougherty, of Midland, brother of Mrs. F. VanCamp, of this town, was married to Miss Mowatt, in Toronto on Wednesday by Rev. Mr. Wilson. Miss Hazel VanCamp was one of the maids of honor.
The annual report of the Lindsay Y.M.C.A. will be found on page 2. The report is a very favorable one, and shows that the interests of the young men are being well looked after by the energetic secretary, Mr. F. A. Robinson. The present is a capital time to help on the good work by joining the association.
The young ladies mission circle in connection with the Cambridge-st. Methodist church meet at the residence of Mrs. Coyle this evening. They are intent upon finishing up the box of clothing for the heathen abroad, and any one who can thread a needle or sew on a button will be cordially welcomed.
If better order is not maintained in this court I shall be compelled to report against the payment of the special constables," was the rather ansonious remark of the Honorable Justice Meredith during the recent setting of the Assizes Court in this town. The specials however, were not so much to blame as the audience, which lacked decorum. The six specials were perfectly quite thereafter.
Mr. W. R. Riddle, Q. C., who conducted the crown business at the recent assizes in Lindsay is a member of the prominent law firm of Bester, Blackstock, Chadwick, Nesbitt and Riddle, of Toronto, and does not reside at Cobourg as stated last week. He has bidden adieu to the pretty but sleepy lakeside hamlet, having gone westward with the star of empire, and is now a resident of the Queen city. Mr. Riddle is one of the two consulting counsel of the firm mentioned, a position for which he is eminently fitted.
The water in the Scugog river is very low at present, so low that from the top of the iron bridge one can see distinctly all the branchy trunks of trees, water-logged fence rails, Hollowen gates, empty beer bottles and castaway barrels, that have been there doubtless for years upon years. Some time back it was a steady resort for bathers, many of whom used to show off by taking deep dives; if they would only go down there now and survey the bottom they can see what perils they have luckily escaped. If boatmen were to get a glimpse of the spot they would surely take some measures to remove the rubbish at once.
"Farming" for October is the usual first-class number, and replete with everything of interest to the farming community. From the first to the last page this handsome 64-page monthly is bristling with good things. Every department is in charge of a specialist—the very best that can be procured—and matters pertaining to live stock, dairying, fruit-growing, etc., are treated in a practical way that covers the whole ground. It is the best publication of its kind on this continent to-day. The subscription price is only one dollar, and it should be in the hands of every live, up-to-date agriculturist. The Bryan Press, 20 Bay street, Toronto.
For the average politician to miss is a favorite daily paper of an evening is even worse than for a Scotchman to miss his "parritch" for breakfast. A staunch north ward reformer, who never fails to include Laurier, Mowat and the Globe in his prayers, found himself confronted by two evils last Saturday evening, namely: to go home without a daily paper, or buy the Mail-Enterprise. He chose the latter evil. On the road home a happy thought struck him, and when his ain fireside was reached he hunted up an old copy of his favorite grit journal, and cutting the heading off he pasted it over the words "The Mail." Then, by avoiding the editorial page, he was able to read with a certain degree of comfort. He has since confessed that he was almost afraid to go home alone with a copy of the Mail in his
