A few days ago threshers were at work at Mr. John Cook's in the township of Verulam; and, when the last of the barley that had been piled in one of the bays of the barn was removed, a duck was found, not only alive, but fat and hearty. The belief is that it had been there about three months, as there appeared to be no way by which it could have got in after the bay was filled. As the bird was against the outer wall of the barn, which was not battened, there was no lack of light or air, and by crushing up the heads of barley it | Belleville, Nov. 23.—Dr. St. George B. could get plenty to eat; but how it lived Crozier, Music Doctor, formerly professor so long without water is a mystery. of music in Albert College, died suddenly Some think that the barley straw must last night, aged 79. have been damp when it was stowed away, and that the duck, by sucking or ly, John A. LUSTY LUNGS.

Saves a Hamilton Maiden From Being Kidnapped By a Ruffian.

Hamilton, Nov. 23.—Elizabeth Gadden a young woman who resides at No. 26 Tif fany-street, had a very unpleasant experience last night, and but for her lusty pair of lungs might have fared badly.

About 8.45 o'clock she was in the somewhat lonely locality corner of Barton and Tiffany-streets, when she found herself suddenly overpowered, picked up in the arms of a powerful man and carried away. She struggled, but could do nothing; then she screamed, but the man tried to shut her up, and as he got her of the street and in rear of some houses she naturally became more alarmed, struggling the harder and shouting the louder.

The man got her in rear of Mr. Larkin's residence, No. 39 Tiffany-street, about 150 yards from where he had picked her up, and then footsteps were heard, and recognizing that his plans had failed the man dropped his burden and ran.

TORONTO, Nov. 23.—Another case of smallpox has developed in the city, and just when the four or five patients in the Isolation Hospital had been declared well enough to again mingle with society. The patient is an Englishman named

All the Sumner, who is single and without relatives in the city, will be removed to the Isolation Hospital this morning.

Prohibition in Kansas. TOPERA, Ks., Nov. 23.—The official

count as made by the Secretary of State shows that the proposition to hold a constitutional convention was defeated at the recent election by a majority of 1284. The result is a great disappointment to those Anti-Prohibitionists who hoped to

secure the repeal of the prohibition laws. One important result of the recent election will be the extension of woman suffrage. The platform of both the Republican and People's Party pledged the extension of woman suffrage to all state officials, and there is no doubt that it will be accomplished at the coming session of the legislature.

RAIN IN TORRENTS.

Railroads on the Puget Sound Have a Grievance Against Nature.

PORTLAND, Ore., Nov. 23.-Rain has fallen in torrents yesterday in Oregon and Washington west of the Cascade Mountains, and the local train traffic on Puget Sound north of Tacoma is entirely suspended.

The damage already done in the Puget Sound country will probably reach a halfmillion dollars, and the prespect now is

that much greater damage will result. The Northern Pacific repaired the damage to the main line and the trains for the east are now running regularly.

The land slide on the Union Pacific at the Cascade continues to come down with increased energy. A heavy rain fell there to-day, which washed tons of earth down the mountain side. Construction work on the track around the slide began yesterday and it will probably be completed by tomorrow night. The company is still transferring passengers and mails around the obstruction by boat.
