A Maniac Maiden.

BUFFALO, Nov. 18.—On March 8th 1890, a sensation was created in Buffalo by the arrest of a young girl named Mary R. Keefe for attempting to roast her baby sister alive, and attempting to take the life of her mother and of her elder sister. The homicidal mania was so violent in the prisoner that it was with great difficulty that she was removed to the Providence Retreat, a private Roman Catholic institution here, for the care of such cases. The maniac was possessed of singular beauty, and was but a little over 17 years old. She was well developed for her age, and her features were an object of admiration to all visitors at the asylum.

Among others who paid considerable attention to the fair lunatic was John A. McAndrews, a retired merchant, who resides at 145 Hudson street. McAndrews owns most of the land formerly known as the McAndrews estate, also several large tracts of land on Fifth street and Front avenue. Socially Mr. McAndrews stands high, his wife having taken a leading part as a patroness of the recent fancy dress charity ball here, the opening social event of the season; while her husband was a steward. A niece of John A. McAndrews, Miss Annie McAndrews, was confined in a cell adjoining Miss Keefe. An acquaintance formed in the corridor between McAndrews and Miss Keefe ripened, until by the first of the present year McAndrews called at the asylum every day ostensibly to see his niece. He obtained permission from the Lady Superior, Sister Mary Thomas, to take Miss Keefe to Niagara Falls, and showed a letter, purporting to be signed by Mrs. Keefe, granting him permission to take the girl to Niagara Falls on a pleasure trip.

Permission was withheld until June 18 of this year, when it was granted, as the patient showed hopeful signs of recovery. McAndrews kept the girl at Niagara Falls over night, and she was not returned to the institution till next day. Next he took her to Crystal Beach. Her relatives heard of this strange familiarity, and forbade the authorities from allowing the girl to go out with any person except by their consent.

Nothing further was heard by the relatives until October 22nd, when, to their surprise, they heard that the girl had run away from the institution. The police were informed, and they set quietly to work. On October 25th she was seen at McAndrews' house, and after that all trace of her has been lost. Detective Hayes, armed with a warrant, to-night searched McAndrews' house, and placed him under surveillance. He refuses to tell where the girl is hidden. Only to-night it became known that McAndrews, on two occasions, implored Doctors Crego and Wood, the medical superintendents of the asylum, to discharge the patient, and that it was upon his petition, and certificates granted by two medical friends, that the girl's release was obtained. Miss Keefe, whose parents reside at 671 Elk street, will, upon her attaining her majority, come into possession of her share of a fortune of \$175,000, which is to be divided between her brothers and sister.

The affair has created a profound sensation in society circles, where McAndrews is well known, and further startling developments are anticipated.

Wheat on the Rise.

LONDON, Nov. 21.—The Mark Lane Express in its weekly review of the British grain trade says that the deliveries of English wheat show that the general quality is very low, though during the last few days the condition has slightly improved. An advance of 2d. is recorded in Mark Lane, where a small business has been done. Prices of foreign wheat have been kept down owing to large exports from Russia. In to-day's market English wheats were firm. American was held for 6d. advance. Other foreign wheats were unchanged. Good American flour was 3d. dearer. There was little sale for barley, oats and corn, and the price of each was down 6d.

—Mr. William Bowman, of St. Catharines, after whose grandfather Bowmanville was named, thinks he has a big claim for land in Bowmanville which other people are now occupying without proper title. His grandfather was a U. E.oyalist, and was awarded a large tract of land in this country. Mr. Bowman has engaged Mr. J. C. Rykert and Mr. B. B. Osler Q.C. to investigate. It is said there are points in Mr. Bowman's claim which, if affirmed will affect a great many titles in Western Ontario.

CONTINENTAL HEALTH.

An International Congress Assembling at Mexico. MEMPHIS, Tenn., Nov. 23.—The 20th annual session of the American Public Health Association and International Medical Congress will convene in the City of Mexico Nov. 29 and continue four days. Two sleepers filled with delegates, accompanied by 28 ladies, left Memphis to-night for the City of Mexico. They are from Indianapolis, Louisville, Nashville and Chattanooga. At Little Rock, Ark., they will be joined by others from the north, east and west, including those from Canada.

THUMPING A PIANO.

A Woman Outplays a Man And Goes Him One Hour Better. ELMIRA, Nov. 23.—A "long time" piano playing contest between J. M. Waterbury of New York and Mrs. W. M. Darrin of this city began here last night at eight o'clock. The players were to play continuous melody, never removing either hand from the key board. The contest closed this afternoon, resulting in a victory for Mrs. Darrin. Mr. Waterbury giving up the contest at end of 18 hours, while Mrs. Darrin continued to play for an hour longer. Mr. Waterbury had a badly swollen wrist, which became so painful that he was obliged to desist. Mrs. Darrin said she could have played several hours longer if necessary.

LENGTH OF RAILWAY.

How the Laws of Society and State May Conflict.

CHARLETON, S.C., Nov. 23.—The Supreme Court of the state has ordered a new trial in the suit over the estate of William Robb of Charleston. The case raises the question whether a childless unmarried man of alleged illegitimate birth can have any legal heirs. Mr. Robb was a Scotchman and came to this city many years ago. He died in 1885, leaving property valued at nearly \$150,000. Devising a portion to his partner he left the remainder to "such person or persons and in such shares or proportions as they shall be entitled to the same under the laws of the state." Mrs. Jean Robb Muir claimed the estate as Robb's sister. Her claim was contested by the state, to which the estate escheated, on the double ground: first, that Robb was an illegitimate child and could have no heirs; and, second, that when he bequeathed as in his will he meant his lawful relations, and as he had none, being illegitimate, his unlawful relations could not take it. Mrs. Muir was not suited. The higher court now reverses this decision and orders a new trial.

A LEGAL CONUNDRUM.

The United States Has Nearly Fifty Feet Cent. of the World's Record.

WASHINGTON, Nov. 23.—The census office issued a bulletin of the statistics of railway mileage of the world in 1890. It shows that out of a total railway mileage for the world of 370,281 miles the United States have no less than 163,597 miles, or 44.18 per cent. of the whole, and that the mileage of the United States exceeds by 3493 miles the entire mileage of the Old World, Europe's 136,865 miles, Asia's 18,798 miles and Africa's 3992 miles, making an aggregate of but 159,665 miles. In 1890 there were less than 40 miles of railways in the United States. In 1860 the total was 28,919 miles, and in 1890 87,724 miles. Germany has 25,969 miles, Austria and Hungary, including Bosnia, 16,467 miles; Great Britain and Ireland 19,939, France 22,586, Russia, including Finland, 18,728, and Italy 8117.

AN OVERLAND FLYER.

Collides With a Freight Train—Six Men Killed.

OMAHA, Nov. 23.—Four persons have been killed in a Union Pacific wreck at Alda. The wreck was caused by a collision between the overland flyer due in Omaha at 10.40 this morning and a freight train. The freight train had been switching and had just pulled out of the Alda yard, when the flyer rounded a curve and the two trains crashed together. Both trains were completely wrecked. The baggage and postal cars were telescoped and the freight cars piled on top of the broken mass. The killed are: Engineers Barrett and McDonald, Conductor Keeler, Fireman Owens. Injured: Fireman Costello, Mail Clerk Lyons, both fatally; Brakeman Sutherland, badly bruised and scalded. Only one passenger was hurt, and he slightly. Fireman Costello and Brakeman Sutherland died this afternoon. The coroner's inquest developed the fact that Conductor Keeler left the switch open.

MUNITIONS OF WAR.

Said to Have Been Sent From Europe to South America.

VALPARAISO, Nov. 23.—A correspondent at Rio says President Peixotto is offended at the absence from his last reception of the entire diplomatic corps. The entire state of Rio Grande do Sul is said to be in revolt. News comes from Montevideo that the Uruguayan congress has ordered the dredging of the Martin Garcia Island, claimed in connection with Argentina. The Brazilian Minister to Uruguay has gone to the frontier to investigate the claims of Brazil against Uruguay. The latter country, it is alleged, favored the revolution in Rio Grande do Sul. Large quantities of raw material have been received at Buenos Ayres from Europe. It includes many Mauser cartridges and 10,000 barrels of smokeless powder. Everything is quiet in Santiago and it is thought all traces of the revolutionary plot have been stamped out. The plot was hatched in the house of Claudio Vacuna, and his son presided over the meetings of the conspirators. It was overheard by a servant woman who was taken sick in Vacuna's house and was removed to the hospital, and there gave the information. Great praise is given to the Grenadiers and artillery for their loyalty. The Government is blamed for having been too lenient with the men engaged in the plot. It is probable more stringent measures will now be adopted.

THE CLOSING ACT.

A General Reduction of Wages Among Re-Engaged Strikers at Carnegie's.

HOMESTEAD, Nov. 23.—The closing act in the famous strike was performed last night. The Advisory Board, which has directed the destinies of the locked-out men throughout the entire struggle, met for the last time in their hall and after disposing of the unfinished business was dissolved. Ex-President Weigh of the Amalgamated Association was quoted as saying in connection with the Homestead strike: "No other strike was so broad in its influence and men were never so persecuted in any other strike. On an estimate of \$1.40 per day for laborers and \$3 for skilled workmen, the 8300 strikers in the Homestead, Lawrenceville and Beaver Falls mills lost \$22,000 daily, or \$2,000,000 during the entire strike."

BEAVER FALLS, Pa., Nov. 22.—Many of those who have regained their old positions at the Carnegie Mills here are much depressed over the notification that their wages would be reduced. The boiler men, who formerly received \$2.25 per day, must now work for \$1.89. The wages of the others are cut in proportion.

The assistant boss roller on one of the turns refused to go to work. His wages before the strike were \$9 per day, but yesterday he was notified that they would be reduced to \$2.

The Guion Steamers Off.

WASHINGTON, Nov. 22.—The New York agent of the Guion Line Steamship Company has notified the Treasury Department, as a proof that immigration by that line is effectually blocked, at least for the present, that their steamers intended to leave Liverpool for New York this week, next week and week after have been withdrawn, and also that their wharf in New York will be sublet for three months.

MONEY TO LOAN.

COMPANIES' & PRIVATE FUNDS.

TO LOAN AT LOWEST RATES. privilege to borrower to pay off any sum on account of principal with any payment of interest without notice and without expense. Interest yearly. All payment made in my office.
