

Local Matters.

CONSIDERABLE money changed hands in the village on Monday last on the issue of a match race between Dr. McKay's horse, "Extra," and D. K. Campbell's mare, "Bird." The race which took place on the ice in Port Perry, was for \$200 a side, and considerable excitement was created, the match being considered a close one. The result of the race was as follows: Extra 1st, Bird 2nd, Extra 3rd and 4th heats. The Dr. is highly elated with this victory.

THE Clerk informs us that the people of Eldon are very lax in the matter of registering births, &c., with him. We have frequently drawn the attention of the public to the fact that they are exposing themselves to the liability of a fine for non-compliance with this statute, but it does not seem to produce any effect. The Clerk informs us that he will proceed to prosecute all those who fail to comply in future. An example or two would be very salutary in this connection.

THE Methodists of Woodville circuit have arranged to give us a rare musical treat. The celebrated Colored Jubilee Singers have been engaged to give two concerts on the circuit. One will be held at the Methodist church, Glenora, on Tuesday, January 11th, and in the Methodist church, Woodville, on Wednesday, January 12th. This promises to be the best musical treat ever presented to a Woodville audience. The troupe are flatteringly endorsed by the Provincial press and the public may expect a rare treat. The *Hamilton Times* says:—"The Jubilee Singers gave a concert at the Mechanics' Hall last evening, which was one of the most successful entertainments of the season. In point of attendance it exceeded anything that has been in the hall for a long time. The Rev. Mr. O'Banion, leader of the singers, is to be congratulated upon the success of his concert, which, we must say, was in every way deserved. The various melodies were melodious in every sense of the word and received tremendous encores. Some of the old songs of twenty years ago were admirably sung and stirred the heart of many in the assemblage. The concert was a financial success, and what is even more, everybody in the house went home pleased and satisfied."

Holloway's Pills.—Pure Blood.—As this vital fluid, when in a healthy state, sustains and removes every part of the living system, so, when it becomes impoverished or impure it exerts a precisely contrary effect. It is abundantly manifest that any medicine which does not reach the circulation can never exterminate the disease; but any preparation capable of exercising a salutary influence over the blood, must with it be carried to every living fibre of the frame. The lungs, heart, liver, kidneys, and skin all receive benefit from its more wholesome condition. Holloway's purifying Pills operate directly, powerfully, and beneficially upon the whole mass of blood, whether venous or arterial. They strengthen the stomach, stimulate the liver and kidneys, expel disease, and prolong existence.

FARMERS' HELPS.

The Montreal "Weekly Witness" is a paper that devotes special attention to the Farmers' needs. The Agricultural Department is edited by W. F. Clarke, Esq., Lindebank, Guelph, who is widely known as at one time the editor of the *Canada Farmer* and more recently the "Witness" lecturer on agriculture. His editorial articles and "Agricultural Letter Box" are especially attractive. The "Witness" Markets are all perfectly reliable and very full. Hardly less valuable is the Veterinary column conducted by D. McE. A. R. F. R. C. V. S., Principal of the Montreal Veterinary College, and the Dominion Inspector of live stock. His name stands in the front rank of veterinary surgeons on this continent, and the prompt replies given to correspondents are valuable. A "Poultry Column" has just been added, and promises to be of great assistance to poultry farmers, who are growing in number. In the cities and towns especially the raising of fowls is increasing in popularity. While these departments are of especial value to the farmers, the cultivators of the soil in a smaller way, and the gentlemen and ladies who are fond of gardening, are not neglected. The Legal Department, in which all legal questions are answered by one competent to perform this work, is a valuable assistance to all men of business. And then the paper is full of information of special interest to the family, even the little children have a column to themselves. An especial feature about this paper is that every department is carefully edited, not thrown together haphazard, so that those relying on any information given are not likely to be misled. Every subscriber of the Montreal "Weekly Witness" can tell of special offers whereby old and new subscribers are benefited.

A man who bought a turkey on the London market a few days ago by the pound found it stuffed with stale eggs.

IMMINENT danger threatens any one troubled with a hacking cough. Inflammation when it attacks the delicate tissue of the lungs and bronchial tubes, travels with perilous rapidity. It is worse than madness to neglect a cough or cold. To do so is simply to invite consumption and premature death. Battle with and overcome the disease in its infancy, and avert the peril. Do not allow the lung-eating tubercles to develop themselves before resorting to medicine. Experience has shown that the preparation best adapted to subdue a formidable cough—to soothe and heal the lacerated lungs—is Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda—a swift and sure specific for bronchial and lung affections, laryngitis, and various forms of scrofula. It is not pretended that this favorite remedy will cure fully developed consumption, but that it will avert it is a fact too well proven to admit of any reasonable doubt. The fact is equally well known and appreciated, both by the public and profession, that the article is an admirable fertilizer of the blood, imparting to it those constituents which are essential to the complete nutrition of the system and its preservation in a state of health. In an embolized system phosphorus—that necessary element of bodily substance—is deficient. It is constituent, as well as lime and soda, up to date in bone formation) and supplied in the Emulsion of Cod Liver Oil. Prepared by Northrop & Lyman, Toronto. Sold by all druggists.

GENTLEMEN,—I have been using your "Castorine" and have discovered a new use for it, extremely useful to Printers in Oiling Roller Moulds. To get a roller out of a mould is one of the most difficult jobs a Printer has to do.

I tried "Castorine" three times and was perfectly delighted with its actions, the roller slipping out like a charm.

By testing the Castorine between finger and thumb it struck me that it would be just the thing to swab the iron mould with.

Were this hint published in the *Mail* or *Globe* it would be a great boon to Country Printers.
