Holloway's Ointment and Pills .-Female Complaints.—On the mothers of Canada devolves much and serious responsibility in securing for their daughters robust health; frequently, alas thoughtlessly sacrificed by culpable bashfulness at a particular period of life, when all important changes take place in the female constitution, upon the management of which depends future happiness or misery. Holloway's Pills, especially if aided by the Ointment, have the happiest effect in establishing these functions, upon the due performance of which health and even life itself depend. Mother and daughter may safely use these powerful deobstruent remedies without consulting anyone. Universally adopted as the one grand remedy for female complaints these Pills never fail never weaken the system and always bring about the desired result.

#### THE BRUISER KING

#### The Whole World Pays Homa ;e to Sullivan, Our Sullivan.

John L. Sullivan, whose success has been greater than that of any other visitor to England, except "Buffalo Bill," is a typical American in that all of his successes have been won by "hard knocks."

Boston may hug herself with positive unction in the knowledge that three representatives of her peculiar culture have won unusual social recognition in England-Lowell, Holmes and Sullivan.

According to the English idea, the "greatest" of these is Sullivan.

The plegmatic English populace is seldom "enthused" to the point of unhitching the horses from the carriage of a popular idol, while excited men wrangle for the honor of a chance at the rope which is to drag it through the streets.

It well illustrates the power of mind over matter.

Sullivan dined and wined by the nobility, followed and cheered by surging masses of "we, the people," drawing crowded houses at his exhibitions, must be sated, if one of his stamp can be, with 440 dulation and applause.

It would be a sad "blow" to him if he should be "knocked out" in his coming eontest with the English champion.

The best of athletes reach, sometimes early, a point at which their powers begin to wane. Over-training often produces serious effects. John C. Heenan died in the prime of life, wasted away with what was called consumption. A post mortem examination in many of these cases has revealed that it is the primary organs, the kidneys, liver and heart, and are most affected by athletic over-training. If they are taken care of there is little danger.

trainer and athlete, says: I consider Warner's safe cure invaluable to all, who are training for out door sports. have given it to many whom I have trained for the athletic world with great benefit."

Harry Wyatt, the celebrated English

Sullivan is beyond question the present "Athletic King," and if he follows Wyatt's advice, he will no doubt long remain at the head of the "profession."

Some mean, cowardly wretch eented his spite against the editor of this paper on Sunday, by firing four bullets into his dog and killing it .- | Uxbridge Times. |

The friends of the Scott Act in this town are at a standstill at present in the matter of the enforcement of the Act, and their finger-nails and craniums are frequently brought in contact in the effort to discover some means whereby the latest scheme of the hotel-keepers may be circumvented. The latest plan is to lease the bar to a stranger who when convicted skips out before the fine is paid.—[Uxbridge Times.]

Jake Guadaur wrote home a couple of weeks ago saying he was coming to Orillia to live in the spring. He is recovering from his injury in his back.

Sunday night about 11 o'clock at Mi'brook, a young farmer named Clark wis pounced upon by an enemy and brutal y kicked about the head and body. Son e neighbors who heard a cry of "murder" hastened to the scene and found Clark sweltering in blood and unconscious. He recovered after a while and said that while walking along the street he was struck down from behind and kicked until left for dead. At last accounts he was yet alive, though not expected to recover.
