#### STYLE E.

Has just been introduced for the FALL TRADE. The whole construction has been got up with eare and special attention has been given to the Durability of the instrument, and its capacity for clearness and Beauty of Tone.

The Drawings have been made by our designer who has a wide-spread reputation in the United States and Canada for his taste in Organ Building.

The Organ is of Solid Black Walnut, with heavy Hand Carved Trusses. The ends and Front Panels are raised and finished with French Walnut Stock, highly polished. It ha

beautiful Lamp Stands placed in a convenient and safe position for use. There is a high Fancy Back attached, made and finished in harmony with the case, with

a neat Vase Stand that adds very materially to the beauty of the same. The Fall Board is the most simple and convenient of any in use. Any child can open and close it with case. When open it forms a neat and convenient Rack for Music. These

Falls are placed so that they cannot interfere with the musical qualities of the Organ. Our designer has given great attention to the parts that have to be removed for the purpose of cleaning dust from the reeds or boards, which can be got at without removing a screw or nail.

He has also given special attention to the Bellows capacity, which he has left roomy and large, allowing free space for working the redals, which attachment is put on with the greatest care for Strength and Durability.

The Action Work has been improved wherever improvements have been found to be advantage.

We still hold our Wide Spread Reputation for the power and Clear Smooth Tone of the instrument. The number of sales we make and the reputation we have for first-class Organs amongst our customers throughout Cauada and Eugland is a sufficient guarantee.

By close attention to business, -selling only to Safe customers, -Selecting First-class class Stock at cash prices. -using Economy in every particular, - having a great variety of Wood Working Machinery adapted purely to our work, -and thoroughly competent Hands, enables us to give better value than ever before to our customers.
