The decision given by the Court of Chancery in reference to the Church of Scotland in Eldon, has been sustained on appeal. It was claimed that this church entered the Union, but the courts have decided otherwise, and therefore the church, manse and 200 acres of land remain the property of the Church of Scotland.

Any boots bought at Rod. Campbell's that have pancake soles or counters, they will be taken out and Leather ones put in free of charge.

Solid Progress.—The Oakwood Correspondent of the Post says: Our sister village of Woodville seems to be making steady progress. Not having been in the village for four or five years I now notice marked and solid improvement. The new Presbyterian church shows what a devoted and liberal people can do by liberal and united effort. It is a great credit to the congregation. If it had a well proportioned spire instead of the little minarets on the corners it would set it off to still greater advantage. The money invested in churches will surely count in the great reckoning much to the advantage of the givers. I noticed that genial citizen, the township clerk, Mr. G. W. Millar, has built a beautiful residence on the Mariposa side of red brick trimmed with white and flat roof. May the village go on and prosper.
