Mr. Jackson, editor of the Newmarket Era, was elected Warden of the County of York.

Eleven religious societies in the city of Winnipeg have an aggregate wealth of over \$1,300,000. The lands of the Catholic church are valued at \$1,000,000. The Methodists at \$450,000 and the Presbyterian, Baptist and Congregationalists divide the rest. Two new \$100,000 churches are to be built this year.

The Barrie Advance says:—Mrs. Stevenson, of Muskoka, was slandered by one Fox. She met him on the road, knocked him down, gonged out his eye, removed the greater portion of his hair, banged his head on a stone, and whipped him all over the road. She then proceeded to a magistrate, laid information against herself, was fined \$1 and costs, and bound over to keep the peace. And Fox carries his bush low.

The following are the wages paid the men working on the C. P. R. in British Columbia: Bridge carpenters (first-class), \$3 per day; Bridge carpenters (second-class), \$2.50 per day; masons, \$2.50 to \$3 per day; blacksmiths (first-class), \$3 per day; blacksmiths (second-class), \$2.25 per day; blacksmiths (helpers), \$1.50 to \$2 per day; drillers, \$1.75 to \$2 per day; laborers, \$1.50 to \$1.75 per day; first class hewers, \$3.50 per day; first class choppers, \$2.50 per day; first class scorers, \$2.50 per day.

A station-master in India telegraphed 200 miles to the central authorities: "Tiger jumping about on platform. Please telegraph instructions." The fact is that the station-master was unable to get to the signal-station owing to the presence of a tiger on the platform, and, in order to avoid an apprehended collision, he telegraphed to the head office for instructions to be sent to the next signal-box that an approaching train might be stopped in time.

About three years ago a Chicago newspaper printed under flaming headlines a long and detailed account of the burning of the Newhall house the night before, with a frightful loss of life. The article was a hoax, and closed with a sentence explaining that the horrible calamity which it graphically portrayed was liable to occur at any time. E. B. Northrop, a well-known newspaper man, now of St. Paul, was the author of the hoax and always declared that the time would come when his article would be regarded in the light of a prediction.

Mr. JOHN SUTHERLAND, late of Orillia, who it will be remembered was lost on the Manitobian prairies for six days, during three of which he was without food, died at Winnipeg on Sunday from the effects of the exposure. The exposure caused a bad cold which turned to congestion of the lungs.

The retiring president of the Eastern Dairywomen's Association of Ontario in his address on Wednesday brought out in a forcible way the importance of butter make as of producing the best possible article. He said there were 50,000,000 pounds of butter exported from this country in one year, and that this butter would average about ten cents per pound more if it were up to the proper standard. Thus he claimed the country loses in a single year \$5,000,000 through its butter being poor. This is an eloquent showing and one which should attract attention of those butter makers who are getting poor prices for their product.

The boy who spends his evenings in reading the newspaper containing the local news of the day, will certainly make a better man than the boy who spends his evenings on the street or loafing at places where gossip is dishied out in the most obscene or vulgar manner. Parents should think over these facts, and see that their children have good papers to read.

The following from the Winnipeg Sun will be read with interest by some of the marriageable spinsters in this vicinity:—"Wife wanted: must not be over twenty-five. good cook, good house-keeper, and able to milk four cows; if lady means business, send photo. to. Address Box 179, Rapid City, Manitoba."

An exchange wants to know "What is home without a newspaper?" and the Plattburgh Sentinel replies: "It is a place where old hats are stuffed into window panes; where children are like young pigs; the house wife like a savage, and the husband with a panorama of the dismal swamp painted on his shirt bosom with tobacco juice."

A COLLAPSE of Vital Energy in lung disease is greatly accelerated by the loss of flesh, strength and appetite which invariably attends it. It is one of the chief recommendations of Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda, that by reason of the blood-enriching and nourishing properties of the last-named ingredients, it renews falling strength by compensating for losses already sustained, while a healing and soothing influence is at the same time exerted upon the inflamed membrane lining of the throat, lungs and bronchitis, by the Cod Liver Oil. Digestion is stimulated and appetite improved, the nervous system acquires tone and vigor, and the secretions undergo a healthy change when it is used. Purchasers should see that the bottles (sold at 50 cents and \$1.00) have the firm's name blown in them, and that the wrappers bear a FAC-SIMILE of our signature. Sold by all druggists. Prepared only by NORTHROP & LYMAN, Toronto.

BEWARE OF IMITATIONS. Since Dr. Thomas' Electric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electron and Electric Oil for the genuine Dr. Thomas' Electric Oil.

BEWARE OF THESE SIMILAR NAMED ARTICLES. If their originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit, they resort to the most unprincipled means of selling them by getting a name as near as possible to ELECTRIC. We therefore ask the public when purchasing to see that the name

DR. THOMAS' ELECTRIC OIL is on the front of the wrapper, and the signature of NORTHROP & LYMAN, the proprietors for Canada, on the back.

Allan, of Acton, says she has never been without a bottle of Hagyard's Yellow Oil in the house for the last twenty years, and would not be for ten times the cost; adding that she has never known it to fail for colds and croup, sore throat, stiff neck, burns, scalds, etc. She concludes by saying, "if any one doubts its efficacy refer them to me."

How It Works. Malarial Diseases, so prevalent in the Spring and Fall, such as ague, chill fever, bilious fever, &c., depend upon an inactive state of the liver, bowels, skin, kidneys, etc., for did these outlets of morbid poisonous matter from the system properly, no sickness would result. Burdock Blood Bitters effectually regulates these organs and corrects the absorbent and secretory system as well.

Jos. Beaudin, M. D., Hull, P. Q., writes: Dr. Thomas' Electric Oil commands a large and increasing sale which it richly merits. I have always found it exceedingly helpful; I use it in all cases of rheumatism, as well as fractures and dislocations. I made use of it myself to calm the pain of a broken leg with dislocations of the foot, and in two days I was entirely relieved of the pain.

Gilbert Laird, St. Margaret's Hope, Orkney, Scotland, writes: "I am requested by several friends to order another parcel of Dr. Thomas' Electric Oil. The last lot I got from you having been tested in several cases of rheumatism, has given relief when doctors' medicines have failed to have any effect. The excellent qualities of this medicine should be made known, that the millions of sufferers throughout the world may benefit by its providential discovery."

THE ELEMENTS OF BONE, BRAIN AND MUSCLE, are derived from the blood, which is the grand natural source of vital energy, the motor of the bodily organs. When the circulation becomes impoverished in consequence of weak digestion and imperfect assimilation of the blood, which should enrich it, every bodily function flags and the system grows feeble and disordered. When the blood becomes impure either from the development of inherited seeds of disease, its contamination by bile, or other causes, serious maladies surely follow. A highly accelerated remedy for these evils is NORTHROP & LYMAN'S Vegetable Discovery, Dyspeptic Cure and Blood Purifier, which eradicates impurities of the blood and fertilizes it by promoting digestion and assimilation. Moreover, this fine alternative and stomachic stimulant that organ to a performance of its secretory duty when inactive, and expelling bile from the blood.
