THE social held by the ladies of the Presbyterian church congregation last Friday evening was certainly the best of the series. The programme was well arranged and nicely carried out. So far these socials have not been very successful financially, but they have furnished a source of good enjoyable entertainment. The next is to be held at the same place on Friday evening, March 25th, when we hope to see a larger gathering present.

WE are in receipt of the *Girl's Own Paper* from the Canadian publishers, Wm. Warwick & Son. It is a companion to the *Boy's Own Magazine* and is filled with choice and select reading matter for girls. Parents will find in this publication a work which they may not hesitate to place in the hands of their children. Its subscription price is \$1.50 per year.

ONE of the handsomest of publications is the Illustrated Scientific News, published by Munn & Co., New York. Every number contains thirty-two pages, full of engravings of novelties in science and the useful arts. Ornamental wood-work, pottery, vases and objects of modern and ancient art are finely shown. The March number contains, among various other subjects illustrated, a full description of the manufacture of paper hangings, with engravings; how the deceptive curve is produced in casting the ball by the base-ball pitcher, his attitude, how he holds and handles the ball, are fully illustrated. The number before us also contains engravings of Capt. Eads' proposed ship railway across the Isthmus, and a novel hydraulic railway locomotive. In addition to this it contains many valuable recipes for artisans and housekeepers. This publication will be found instructive and entertaining to all classes, but will be best appreciated by the most intelligent. Published by Munn & Co., 37 Park Row, New York, at \$1.50 a year, and sold by all news dealers.

HARDWARE! HARDWARE!

THE attention of farmers and others who are thinking of building, is directed to the following facts:—In order to prevent disappointment, it is necessary to see just what you are buying, otherwise goods may be sent you on your order, which are not exactly what you want, and when different qualities and varieties are kept in stock, you can be much better suited by judging for yourself which you will take. When you have bought your Hardware, very often a mistake is made in size or quantity, which necessitates sending back to the store and much time is thus consumed when you are dealing at a distance from home. In view of the above facts you are requested to call and examine the stock and prices of the undersigned who keeps constantly on hand A LARGE AND WELL-ASSORTED STOCK OF SHELF AND HEAVY HARDWARE.

R. F. KILLALY, Cannington.

N. B.—Parties purchasing their Hardware from me, having more than they require of Glass, Putty, Nails, or any other articles, may return them and full price will be allowed if in good order. TERMS, LIBERAL.
