The Enjoyment of Eating and Drinking and its Penalties.

We need not state that volumes have
been written upon the above subject since
the days of the renowned *bon vivant*, Cor-
naro, down to the latest treatise designed to
enable us to judge for ourselves in the ap-
propriateness of our habitual eating and
drinking. It is impossible to deny the
great utility of such information; but, un-
fortunately, mankind in general lends a deaf
ear to warnings when the tastes and the
passions are in question. As the world
wags, we fear the people would continue to
eat and drink just according to their taste
and humour for a long time yet to come,
especially when they find that, by a timely
recourse to some such medicine as Hollo-
way's Pills, they can easily and readily get
rid of all the constitutional disorders caused
by over-feeding and intemperance, a few of
these Pills sufficing in the majority of in-
stances to set a man "all right" overnight
to begin his day of labour, after having
yielded to the temptation of what is techni-
cally called "a blow out." No doubt your
soda-water or citrate of magnesia may seem
to be equally effective, but, unfortunately,
in very many cases much more requires to
be done than can be effected by these other-
wise very pleasant and saline libations. All
over-feeding—every act of intemperance—
must necessarily contaminate the blood, and
the vitiated blood must necessarily impair
every organ through which it flows. Now,
in order to correct this effect, a radical re-
medy is required, and such is that invented
by Holloway, whose Pills, as we have stated,
have superseded almost every other "cor-
rective" or "alterative" of the old school.

Perhaps this results, not only from the
power of their purifying agency, but also
from their gentle and almost imperceptible
regenerating action—without any incon-
venience in the general routine of life—re-
quiring no extraordinary precautions to pre-
vent "catching cold" or morbid reactions.
If reported correct, no medicine stands in
higher repute at our fashionable clubs and
officers' quarters than Holloway's Pills,
although very few of the patients can allow
their gratitude to admit the fact in return
for the benefit.—*The Adviser.*

on February 15th, 1882. Members all pre-
sent. Resolved, that the following memo-
rial to Hon. Oliver Mcwat, Attorney-General
of Ontario, be adopted and that the Reeve
do sign the same and affix the Corporation
Seal thereto.

MEMORIAL:

Beaverton, Feb. 16th, 1882.

To the Honorable OLIVER MOWAT,
Attorney-General, Province of Ontario.

This memorial of the Corporation of the
Township of Thorah, respectfully sheweth
that your memorialists learn through the
public press with some surprise and alarm
that an application has been made through
you to the Provincial Government to set off
a new county, with Orillia as its county
town the said county with other territory
to contain the Township of Thorah. That
your memorialists think that in a matter so
materially affecting the interests of the
municipality they represent, they should
have been notified or in some way consulted
concerning this project. That your mem-
orialists consider their present county relations
very satisfactory as after contending for
years with various difficulties and inconveni-
ences, present and prospective railway ar-
rangements place them within easy reach of
Whitby, the county town of Ontario, and
afford every needed accommodation. That
to disturb their present county connections
and cause their township to incur all the
expense, inconvenience and trouble of orga-
nizing new ones will be a serious grievance
and injustice to the municipality of Thorah
without any compensating advantage so far
as your memorialists can prove. Your
memorialists therefore enter a very decided
protest against the proposed change and
respectfully request your Honor not to un-
dertake the project of attaching our township
to the suggested new county, and in any
case to give us sufficient notice of the inten-
tion of the Government so as to enable us to
offer all legal opposition to the scheme.

Resolved, that the Clerk do transmit the
aforesaid memorial to Frank Madill, Esq.,
M. P. P., to present the same to the Hon.
Oliver Mowat, and that Mr. Madill be re-
quested to furnish to the corporation the
earliest information of any action of the
Provincial Assembly in this matter affecting
the interests of the corporation. The coun-
cil examined the By-law regulating liquor
licences. No alterations. Resolved, that
the council do now adjourn until Saturday,
April 8th.

Holloway's Pills.—With the darkening
days and changing temperatures the diges-
tion becomes impaired, the liver disordered,
and the mind despondent unless the cause
of the irregularity be expelled from the
blood and body by an alterative like these
Pills. They go directly to the source of the
evil, thrust out all impurities from the cir-
culation, reduce distended organs to their
natural state, and correct all defective and
contaminated secretions. Such easy means
of insuring health, strength, and cheer-
fulness should be in the possession of all
whose stomachs are weak, whose minds are
much harassed, or whose brains are over-
worked. Holloway's is essentially a blood-
tempering medicine, whereby its influence,
reaching the remotest fibres of the frame,
effects a universal good.

The sheep-stock of Great Britain in the
last two years has diminished by more than
12 per cent., there being a decline of 2,000,
000 sheep and 1,000,000 lambs since 1879.
