MARRIAGES have become so frequent in the village lately that we have ceased to chronicle them as anything unusual. The latest venture in this speculative line was taken on Thursday last, by our enterprising young Harness-maker, Mr. A. J. WHAT IS LARDINE? Ask any Farmer, Thresher or Saw Mill man, or in fact, any man who runs machinery of any kind, and he will tell you that it is the only MACHINE OIL which will wear equal to Castor Oil and won't gum or clog your machinery. Ask your dealer for it and take no other.

THE evil-doer is sure to meet his fate at last. This is like the Irishman who covered himself with the sheets to escape the mosquitoes, but who exclaimed when a lightning bug entered the room: "There's no use; here is one of 'em come wid a lantern. It's all over wid me, sure."

AN engineer and party were here last week locating a railway from this point to Gravenhurst. They had Mr. Wm. Boulton, J. P., along with them for consultation. The road has been located from Kirkfield to Gravenhurst, but the engineers prefer this route. It is the Midland R. R. Co. that propose building the proposed road.—Uptergrove cor. to Times.

WE have received a copy of the financial report of the Citizens' Insurance Co., dated January 1st, 1882, by which it is shown the amount of Assets over Liabilities, stands at \$1,208,383.48. The gross income for the year ending December 31st, 1881, was \$208,293.62. The Citizens is one of the best and most reliable of the companies doing business in the Dominion. Mr. J. C. Gilchrist is the agent here.

"Now all ye weary bachelors, &c.," mourn no more, relief has come at last in the shape of the Mutual Aid Association of Canada, for which our worthy postmaster, Mr. J. C. Gilchrist, is agent. For further particulars and circulars, apply to the above named gentleman.

THE following from an exchange hits the nail square on the head. A doctor will sit down and write a prescription, time five minutes, paper and ink one-fourth of a cent, and the patient pays \$1, \$2, \$5, \$10 as the case may be. A lawyer writes 10 or 12 lines of advice, and gets from \$10 to \$20 from his client. An editor writes a half column puff for a man, pays a man fifty cents to one dollar for putting it in type, prints it on several dollars' worth of paper, and sends it to several thousand people, and then surprises the puffed man if he makes any charge.

ADVERTISING is becoming more of a necessity to the merchant and man of business. People earn more money, spend more, and are busier now than twenty-five years ago. There is twice as much competition now as there was then. People have less time to look for what they want, and look to the papers to inform them, and accept it as a settled rule that the man who advertises what he has to dispose of means business, and he is the best man to deal with.

DURING the week a petition has been handed round through the village for signature, asking Parliament to sanction the dispensation of the now famous Temporalities' Fund, by the Presbyterian Church in Canada. We do not object to the object of the petition, but certainly an indiscriminate gathering of signatures, irrespective of knowledge of the subject involved, should not be allowed to influence the decision of a matter so important. More discrimination in signatures will carry greater weight and be a more honest expression of the wishes of its signers.

ON Saturday afternoon last a little boy, son of Mr. Andrew Murray of this place, was, while crossing the road knocked down and run over by a "fast horse," the result being a thigh broken. Dr. Grant being called in soon set the fractured limb. He is recovering. The

MESSRS. GREGG & TODD, of Brechin, inform us that during the season of 1881, they shipped five tons of butter. We do not think this can be equalled in the Province by any village of the size of Brechin. Taking into consideration the fact that a large quantity of the product from that neighborhood came here while considerable went to Orillia, the amount of butter made in the district must be immense.

ON Thursday morning of last week a very singular and deplorable occurrence took place here. A young man, Arch. Buchanan, of 4th Con. Thorah, while laboring under a fit of insanity, came into the village in a very startling condition. Being early, but few happened to be about. After wandering around for a time he entered McKinnon's hotel where he was secured. He was subsequently released, but later in the day was brought back to town and placed in the lock-up. The unfortunate is a fine, well built young man, well known here and generally liked. On Friday he was examined and committed to Whitby jail awaiting a vacancy in the asylum.

KENDALL'S SPAVIN CURE,

The Most Successful Remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From the Oneonto Press, New York.

ONEONTO, New York, Jan. 6th, 1881.

Early last summer Messrs. B. J. Kendall & Co., of Enosburgh Falls, Vt., made a contract with the publishers of the Press for a half column advertisement, setting forth the merits of Kendall's Spavin Cure, for one year. At the same time we secured from the firm a quantity of books entitled Dr. Kendall's Treatise on the Horse and his Diseases, which we are now giving to advance paying subscribers to the press as a premium.

About the time the advertisement first appeared in this paper, Mr. Schermerhorn, who resides near Colliers, had a spavined horse. He read the advertisement and concluded to test the efficacy of the remedy, although his friends laughed at his credulity. He bought a bottle of Kendall's Spavin Cure and commenced using it on the horse in accordance with the directions, and he informed us this week that it effected such a complete cure that an expert horseman, who examined the animal recently could find no trace of the spavin or the place where it had been located. Mr. Schermerhorn has since secured a copy of Kendall's Treatise on the Horse and his Diseases which he prizes very highly and would be loth to part with at any price, provided he could not obtain another copy. So much for advertising reliable articles.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved beyond a doubt that "Kendall's Spavin Cure" has sufficient strength to penetrate and vitiate to cure the worst cases of rheumatism, corns, bunyons, frost-bites, or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister but on the contrary removes all soreness.

Kendall's Spavin Cure.

St. Johns, P. Q., Oct. 27th, 1881.

DR. B. J. KENDALL & Co., Gents.—I have used your Spavin Cure with great success on spavins, curbs and splints. I know it to be a good remedy for ringbones, loose spavins, cuts, galls and all kinds of lameness and many other difficulties about the horse. One of my men sprained his ankle very badly. I applied Kendall's Spavin Cure and I never saw anything work like it. he was well in a few days. I know it to be good for man as well as beast. I procured one of your Treatise on the Horse, by mailing 25 cts., and I think it was the means of saving me \$100, on one horse that I treated according to the directions given in your book for displaced stifle.

Yours truly,

WM. J. PEARSON.

Dunham, P. Q., March 10th, 1879.

DR. R. J. KENDALL & Co., Gents.—About a year ago I fell in the road on my horse and was badly hurt on the hip joint, which caused me much suffering. I tried various remedies but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for about two weeks during last October, and it effected a perfect cure; I have since then been well and free from lameness. It is very valuable for man as well as beast.

Yours truly,

CHESTER K. GREEN.
