

paper, his subject being "Sheep Husbandry." He gave a very exhaustive and practical description of this branch of farming and which has proved so successful with himself. After some discussion Mr. Rennie was asked to read a paper on "Pure Seed Grain," and which proved quite as interesting and important as his former one. The conversation which followed was very instructive. A. Gunn, V. S., was next called on to read a paper on the breeding and management of the heavy draught horse. He brought out many useful and practical hints of this very important branch of farming. The meeting then adjourned to meet again in "Spencer Hall" at 8 o'clock. There was a good programme prepared for the evening's entertainment. Mr. Jackson again in the chair. The first piece presented was by our village Band which in passing we might be allowed to say is a great acquisition to the village. Mr. P. McSweyn followed with a song which was rendered in his usual happy style. Mr. H. Glendinning, of Manilla followed with a paper on "Fruit Culture," which showed much careful study and practical thought. Mr. M. Stoddart followed with a song. A duet by Miss L. Gilchrist and Mrs. H. McNeil was followed by a song from Mr. Gillogly, who was encored and responded with another. The address of the evening was now given by Mr. John Dryden, M. P. P., with the subject "How can we Make Farming pay." In opening his remarks the speaker said this was one of the most interesting meetings he had ever attended. The large audience present was a demonstration to him of the great interest that must be taken in farming in this locality. He spoke upwards of an hour and from the attention his lecture received it must have been greatly appreciated. Mr. Gillogly followed with a song and Mr. D. Annas with a recitation. Mrs. H. McNeil also favored the meeting with a song. The band then brought the programme to a close. A vote of thanks was moved by Mr. A. Gunn seconded by Mr. Jno. Campbell Jr. to all those who assisted at the meeting and was carried by a standing vote. [Com.]
