RASTER TOILETS.

Handsome Variety of Dress Novelties -Vegetables and Fruits on Hats.

Dressmakers and milliners are " busy as bees" with silks, satuns, velvets and laces, getting ready for Easter Sunday. There rate Binns must go. are a number of changes in dress goods, as well as innovations in models and the off tints. Skirts are worn considerably fuller. Polonaises are still favored. This graceful style of dress is generally considered equally becoming to tall and short figures. This garment is draped considerably high on the hips. There are two separate cuts, called Marie Antoinette and the Pompadour. The sleeves are full and high at the shoulder, a style that is greatly favored in Paris. A stout figure looks best in a long polonaise with very little looping. At the are very effective.

All wool plaided fabrics are once more fashionable and are combined with plain goods of the same hues, and those that are favored are marine blue and dahlia-red, four abstained wholly from alcohol, 27 garnet and olive, with white neatly mixed used wine at dinner only, 26 used tobacco. in. Among the latest changes in colors Of the latter, only 13 smoked while at work, there is one new tint that is called Nana one chewed and one took snuff. Mark Sahib; it is very like a dark tan, seen in a Twain "required 300 cigars a month, strong light, and at other times it is very which he found sufficient to keep his connearly a blue gray with a tanlike shimmer. | stitution on a firm basis," and Mr. Ruskin The Nana Sahib cloth has a fine cord. expressed his "entire abhorrence of the This goods is all wool, and combines nicely practice of smoking." with all the rich brocades and velveteens, particularly with the "nonpariel" velvethat is sure to find favor. A dress made of this material was lately finished for Easter wear. The skirt is made of the ivory-tinted fil-a fil; the pleats are laid lengthwise, with three double box pleatsat the back; down the front is a row of butto ns covered with the goods. The vest is cut of the same goods, but of an ecru tinge, very pale. The jacket is short on the hips and cut away to show the vest front. There are rows of small buttons, covered with the same fabric, that run on both sides of the jacket and the vest is closed with these buttons. The straw hat that will be worn with this suit is of a dainty eoru; the high crown is encircled with a fold of velvet of the same shade as the skirt of the dress two long ostrich plumes are skilfully ad justed on one side, partially concealing a portion of the crown, the ends are prettily curled over each other and rest on the brim at the back, looking very like a huge rosette.

A Tedious Courtship Ended.

The handsomest girl in Sylvania County Ga., became engaged, nearly forty years ago, to John Gross, the son of a wealthy planter. Shortly after the engagement was announced, Gross went to New Orleans on business, forget his lady love, settled in years later. Though the lady had not heard investigate the efficiency of the protection a word from him in all that time, she was still true. They renewed the engagement, then quarrelled, and Gross went off again. He remained away until a few days ago, when he returned to his old homestead to celebrate his 60th birthday. He found his fiancée still waiting and promptly married her. She had refused many offers of marriage during his absence. Three men whom she had refused became respectively a Congressman, a Senator and a Governor.

According to a report published by the company for excavating the canal on the isthmus of Corinth, the works will be finished by the time appointed-i. e., in the year 1887. The canal, twelve miles in length, will unite the Ionian and Ægean Seas, and save the voyage of 120 miles around the Cape of Matapan. Southern Italy and Sicily will derive the greatest advantage from the new route.

Lord Tennyson retired immediately after being sworn in as a peer, without taking his poles were earth wired. seat on either side of the House or on the cross benches. But as he was introduced by two Liberal peers, and, so far as can be judged from his writings, his sympathies run with that party, the Liberal journals entered the army as a cornet in the Ceylon eight days without water, and if grazing on claim him. But it is still a subject of dis. Rifles in 1848, was transferred to the Tenth green foliage, without labor, will only cussion and doubt.

CURRENT TOPICS.

An ordinary Cabinet Minister soon sinks into insignificance in England when he retires from office ; even Mr. Milner Gibson, to whom the penny papers are under scarcely known by name to the present generation until his death occurred last month.

DR. BJORNSTROM, superintendent of lunatic asylum at Stockholm, introduced a printing press and some type into the establishment for the benefit of an insane compositor. The other patients became interested in printing, and the doctor soon gave them a more extensive apparatus. The result is the recent publication of the doctor's book on " Diseases of the Mind, which was set up, printed and bound by the patients, and is pronounced a very good piece of work in every respect. It contains 202 pages.

THE Hygienic Institute of Munich is they call Dr. Jager's "normal clothing." It consists in having all the undergarments digitated. The affair is described as a very unlovely woollen skin. A sort of woollen bagis worn over it, and the coat and waistcoat are buttoned up to the chip. No one knows why the costume is called normal, but every one laughs at it except the wearer; the latter is an employee of the institute, and insists that his health is for 62 out of the 80 pages of the report surely going out of fashion this spring, and constantly improving under the infliction.

hanged Michael McLean, a boy of 18, at Liverpool March 12th, does not appear to great regularity. One John Shaughnessy ugly foreheads. There can be no denying give satisfaction, not even to those whom in particular, must have been very ill, the fact that when the hair is arranged he hangs. McLean, to begin with, de- judging from the great quantity of medi- prettily and becomingly over the forehead cidedly objected to be hanged at all, on the cine it took to cure him. The return shows it greatly softens the outlines of the face, Aye keep the stracht road on your journey ground that he was innocent of the crime that he used a bottle of whiskey daily from and lends an additional charm to it. It is for which he was to suffer. Binns was May 3rd to July 12th. He occasionally skip- all nonsense for people to say that the most very nervous, and when the execution was ped a day, but always made up for this by sensible women wear their hair brushed over the governor of the jail testified before getting two bottles the next day. On July smoothly back from their brows. The the coroner that it was not done "scientifi. 12th he seems to have been temporarily most sensible women are those who know cally." His view was that Binns "puts a cured, for his name does not turn up in the what is becoming to them. If they look rope round a man's neck, and it's accidental list again for about six weeks. On August | well with their hair banged or curled they if he hangs him." He gave his victims a 25th, however, he again bobs up serenely wear it so; if they do not they fail to fol drop too much—in this case 11 feet 31 for another bottle of rye. The relapse, low the prevailing fashion, and dress their inches. Binns in defence declared that as however, does not seem to have been so hair plainly. The Grecian knot has gone his victim was a light one he believed in serious as the first attack, for from that entirely out of fashion except for street "giving him rope enough," but the coroner's date to the end of the year John managed wear. It is almost impossible to wear the jury severely censured him in a verdict which | to keep body and soul together at an aversays: He appears to have no scientific age of two bottles of whiskey a week. principle for going through his work, and we think this really requires a scientific man." Evidently Binns must give way to Prof. Tyndall or Prof. Huxley. At any

Before publishing his book, " Study and Stimulants,' Mr. A. Arthur Reade sent lon, "is made for the purpose of supporting circulars to a large number of literary men, asking about their habits with respect to the use of alcohol, tobacco, etc., while engaged in literary work. The writer received 132 replies. Mr. Gladstone found that his "glass or two of claret at luncheon, the same at dinner, with the addition of a glass of light port, especially necessary to him at the time of greatest intellectual back the draping is disposed in loops exertion." Canon Farrar believed from graduating in depth. The burnous draperies experience that " work may be done more vigorously, and with less fatigue, without wine than with it." The editor says that no one of those who replied to his questions resorts to alcohol for inspiration. Thirty-

WITH reference to the early life of Osman teen. Fil a-fil is a new kind of dress goods Digma, the Suakim correspondent of the London Times writes that he was origin ally a broker and trader, and principally a slave trader, in Buakim and Jeddah, where he received a severe financial blow when, some six years ago, a British cruiser captured two slave dhows full of victims, on the way to Jeddah. Osman Digma's trade then fell from bad to worse, his house property in Suakim was all mortgaged, and he became hopelessly involved. Being of no great distinction by birth, his selection by the Mahdi to lead a religious rebellion is attributed to the accident that Osman Digma, in one of his incursions far south for slaves, met the Mahdi, who formed a high estimate of his ability and of his influence, acquired through successful trading. If this history be trustworthy, with me." passions for other objects than holiness are the key note of Osman Digma's character and motives, and it is against all probability that he will cast his goods and his position into the broken balance of battle. He is no ignorant fanatic, and he cannot himself believe the myths which he multiplies in order to control his followers.

PROF. MOHN of Christiana, Norway, hav-Texas and did not return home until two ing been employed by the Government to afforded to buildings by lightning rods, seems to have substantially settled the much debated question, at least for that region of country. His report shows that lighthouses, telegraph stations and other exposed buildings, which were provided with conductors, did not by far suffer as much as churches, which in most cases were unprotected. It appears, in fact, that of about 100 churches reported to have been struck by lightning, only three were provided with conductors; that of these three the first had a conductor in good order, and the building was uninjured; the second had a conductor of zinc wire, which melted, and, of course, left the structure without protection; the third had a wire which was rusty where it joined the earth, It is reported that for the defence of Hung. "I'm getting to be pretty bald, ain't I? and the church was burned. More than Hoa there are assembled 3,000 Black Flags one-half the number of churches struck were totally destroyed. Mr. Preece, the English Government electrician, states that no damage has occurred since telegraph

Stupid Sayings of Great Men.

In a preface to the recently issued letters of Gustave Flaubert we learn that Flaubert had prepared a kind of dictionary of "the stupid sayings of great men." Some of these are exquisite. "Water," said Fenethose prodigious floating edifices that we call vessels." Dogs, according to Bernardin de St. Pierre, are generally of two colors, so that there may be no danger of cenfounding them with the furniture of the house. The same author remarks that the flea skips by instinct on light-colored objects, otherwise we might never be able to effect his capture. "Shakspeare himself," says La Harpe, "with all his coarseness, was not without reading and information.' "The wealth of a country," said Napoleon III., "depends upon its general prosperity." Chateaubriand was ready to admit that Bonaparte was a great winner of battles, though outside of that the smallest general was more clever than he. frontier," says Havin profoundly, "he down to-day. It gives statistics respecting enters on foreign soil." More might be the ages and occupations of the people, that the genius who remarked on the singu; statements of the number of churches, rivers to the neighborhood of great towns death-rate in the various Provinces during

The Mahdi Interviewed.

The Arab text in the Abou Maddara gives an account of an interview of the editor of the Arab paper with the False Prophet. In the course of the interview Mahommed Ahmed said:

"What proves that I never pretended to be the Mahdi is that I am surrounded by the most illustrious sheiks of Islam and by thousands of partisans who, instead of fighting by my side, would have abandoned me if I had put forward the claim attribeen sent with 500,000 thalers to buy over my allies as he succeeded in buying some Arab chiefs. But I swear, in the name of will kill him and will distribute his money

"But," asked the interviewer, " what will you do in the event of the English arming Indians and Abyssinians against you?"

"I have no fear of the Indians," was the reply. "Those who are Mussulmans are with us. Those who are idolators are anxious to liberate themselves from Eng. one of them would survive." "And what about the English?"

"The sun will melt them. As to myself, if I do not succeed I will perish on the

Pearsail's Five-day Match More Than Half Over and No Signs of Failing.

A New York despatch says: All Fulton fish market is deeply interested in the | * question whether Charles Pearsall is going backs. He goes to John Ross' restaurant, not, and a match was made for Pearsall to start in on Tuesday and eat 30 eggs at a In consequence of the enforcement of the sitting twice a day for five days. Pearsall about 140 pounds weight. He works in him, and outside sports have been betting and emptied into big soda water glasses, Three glasses hold thirty eggs. The fishmen jibe him while he eate. He does not appear to be at all inconvenienced by his unusual meals, and no one doubts that he will win on Saturday. LATER.—Pearsall on Saturday ate the last one of his 300 eggs. and won the wager.

Sensible Talk About Bange.

By-the-bye, it is rumored that bangs are hair on the top of one's head with the fashionable hat of the period. Very few ornaments are worn in the hair. Those that are worn are mostly silver or amber hairpins .- American Queen.

No Female Charmer Admitted.

In the old days no woman was allowed to desecrate the monastery of San Augustin, Mexico, by so much as putting her foot within its walls. A noble lady of Spain, wife of the reigning vicercy, was bent on visiting it. Nothing could stop her, and in she came. But she found only empty cloisters, for each virtuous monk locked himself securely in his cell, and afterward every stone in the floor which her sacrilegious feet had touched was carefully replaced by new ones fresh from the mountain top before the pollution of her presence was considered removed. But times are sadly changed, and the house has been turned into a common hostelry.

The Dominion Census.

An Ottawa despatch says: The second "As soon as a Frenchman has passed the volume of the census of 1881 was brought cited, but this will be sufficient to show births, marriages, mortuary statistics, and lar coincidence that usually brought fine benevolent and penal institutions. The was not alone in his glory .- London News. the year preceding the taking of the census was: Ontario, 11.87 (18.87?) per 1,000; Quebec, 19.07 do.; Nova Scotia, 14.54 do.; New Brunswick, 15 02 do.; P. E. Island, 14.27 do.; Manitoba, 12.34 do.; British Columbia. 20.35 do.

DR. S. B. BRITTAN SAYS: "As a rule, physicians do not by their professional methods build up the female constitution, and they seldom cure the diseases to which it is always liable in our variable climate and under our imperfect civilization. Special remedies are often required to restore organic harmony and to strengthen the enfeebled powers of wemanhood, and for most of these we are indebted to persons outside me if I had put forward the claim attri-buted to me by my enemies. Gordon has of these remedies I assign a prominent place to Mrs. Pinkham's Vegetable Compound."

The Opinion of All

Allah, that if Gordon falls into my hands I | Who have tried Polson's NERVILINE, the great pain remedy, is that it is never-failing among the poorer Mussulmans who fight in pain of every description. Neuralgia, toothache, cramps, pain in the stomach, and kindred complaints are banished as if by magic. Rapid and certain in operation, pleasant to take, Nerviline stands at the very front rank of remedies of this class. A trial bottle may be purchased for 10 cents, a very small amount in any case but the best expenditure you can make, it lish tyranny. As to the Abyssinians, not a sufferer from any kind of pain, is a 10 or Toronto. 25 cent bottle of Nerviline at druggists.

> "Ta, ta; I'll see you later," said Amy, taking leave of the high school girl the other evening. "You mean," replied the latter, "that you will ocularly observe me at a subsequent period, do you not ?"

The Sting Within.
