That part of the Bill providing for the consciidation of the bonds or stock, and the issue of new stock or bonds, was struck out, also the clause providing for an extension of the existing agreement with the Hamilton & North-

A surrous fete is to be held at Pompeii at the beginning of May. The first day it is supposed there is a visit of the Emperor of Rome to Pompeii; there will be circus games, chariot riding, a procession and a number of shops will be decked out as they would have appeared 1,800 years ago. On the second day there will be a marriage and a funeral, with their respective rites. The third day are promised gladiatorial games and a gladiator fete.

A sourcion is beginning to pervade men's minds that this balmy weather business that the South annually brage of at a season when the North is hidden beneath huge snow-drifts and the inhabitants well nigh fromen by the intense cold, is a delusion and a humbug. Stories have been brought home by travellers, who have searched far and wide for a warm corner in Louisiana, Mississippi and Florida, of the awful cold they experienced in the " Land of Flowers" and other picture quely named places. A correspondent, who spent the coldest night of his life in an Arkansas hotel some weeks ago, was not affighted when an alarm of fire in the street at midnight partly roused him; he only prayed that it was next door, in which case he could have got warm. A New Ocleans paper caps the climax, however, by stating that of three boys who ventured in bathing at Lake City, Fla., two caught such severe colds that they died in & low days.

A LATE cablegram says that the Emperor William is ill. Every attempt is made to ing. cenceal the fact, and the official announce. ments declare that he is merely suffering Berlin know better, and the aged Kaiser's ent material, and the one you want might William Riudge and in as great danger of condition is regarded with absolute alarm. The Emperor is the oldest monarch in back. 24th of May. King Christian of Denmark copy it out of a "Letter Writer." If your of all modern complaints. They are the to 65, and his wife, the Queen, is a year older. The Emperor of Austria is 54 and his wife is 46, while King Leopold of Belglum, 49 years old, has a wife aged 50. One of the youngest monarchs reigning is King Alfonso of Spain, who has seen 27 years, and next to him come King George of Greece and Alexander of Russia, each of Sultan of Turkey is 42, King O car of life of happiness or prevent one of misery. as to all his or her friends. These Sweden 55, Louis of Portugal 46 Humbert of Italy 40, President Grevy of France 71. The wife of the Russian ruler is three years younger than her husband, the wife of the German five and the Queen of Italy five.

REV. DR. CHAMBERS, one of the American revisers of the Scriptures, announces that the work of revision of the British and American authorities is now nearly completed. "We have," he says, "been through the whole of the Old Testament twice, and at present we are going over different passages in various books, giving the Anishing touches, as it were. When the work will be finished I cannot say; there is no certain time fixed for a specific amount of work, and the translators on the other side will send us from time to time beoks, chapters, or passages for our criticism. The publication of the revised edition will probably take place toward the end of this year, but I cannot speak with certainty. Our work has been confined exclusively to retranslating. We have not attempted to re-edit the sacred book, that is, we have not exercised the function of critics in any other way than in regard to the meaning of the language in the original. In almost every instance we have followed there is a difference between the American and English translators our version will be appended."

Tax Countess of Dalhousie, who was the belle of the great ball given by Lady Ashburton, at Kent House, London, last week comes of an old Northumbrian family. Her maiden name was Lady Ida Louisa taking active measures against the Poles Bennett, and she is a younger daughter of Ail Polish employees of the Russian Gov. the present Earl of Tankerville. In her ernment have been dismissed and the use 20th year she mar ied Lord Ramsay, who of the Polish language in public places has four years ago succeeded to the Scottish been prohibited.

earldom of Dalkousie on the death of his father. The Countees is now in her 27th year, and in point of age has the advantage of her husband by 10 years. Her mother, the Countess of Tankerville, is the daughter of the late and sister of the present Duke of Manchester. Thus, Lady Dalhousie is cousin to Viscount Mandeville, who married Miss Consuelo Yznaga, and is as well kaown in New York as in London society. Ludy Dalhousie can also claim descent from one of the noblest families of France, for she is a great-granddaughter of the late money to erect a monument to the poet Duc de Gramont, head of the princely and ducal house of Gramont. The Earl of Dalhousie is one of the lords in waiting to the Queen. He is also a very keen politician of extremely radical opinions, and, will propose a monument for the late Q. as radical peers are rare birds, he probably Heratius Flacous. It is the glory of the has a notable future before him in English

In L'Union Medicale Dr. Dumontpallier shows that in certain cases the hallucinations of chronic mania can only accounted for by the fact that one half of the brain may become more active than the brain. The manner in which he demonstrates this fact is interesting. The patient is put into the somnambulistic WE could all eat with horn spoons in. state. The object is to produce two differeut yet simultaneous hallucinations, one of them caused by the action of one-half of the brain, and the other by a wholly indepoor; but, if we did, civilization would be pendent action upon the other hemisphere. feet under an occan of manufactured pau. Accordingly the doctor tells the patient at perism. Did not a clergyman in Eliza- his right ear that he weather is fine and both's reign denounce the monstrous luxury | the sun warm and pright; his assistant of meing any forks at all, when God had so upon the left tells him at the same time visibly given man five flugers to eat with? | that it rains. The result is that the patient smiles with one-half of the face, while dis the Dominion Senate yesterday Mr. | content shows itself upon the other. The when the hallucinations of two different sensorial organs, hearing and sight, are excited. For this the doctor tells the patient at his right ear that he is in the country, and draws a mental picture, a picnio, in which he is taking part. At the same moment an assistant is imitating the barking of a dog at the left ear. On one side of the face the patient smiles with western Company for a period of 999 years. delight, while the other expresses annoy. ance and terror. "There is no mimic," said the doctor, " however skilful he may be, who can give expression simultaneously upon each side of his face to emotions so opposed."

Perpetual Injunction.

In the U. S. Circuit Court in Maryland, it was, on the 10th of March, 1884, adjudged and decreed that a perpetual injunction be issued against Louis E. Wetter and eighteen others, restraining them from imitating the labels of the Rum'ord Chemlosl Works, manufacturers of Horsford's Baking Powder, and also from using prolong life with an its pleasures and bless their old bottles. The defendants were ings. required to bring into court all fraudulent labels, and all imitation powder, for destruction. It was decreed that the Rumford Chemical Works be entitled to receive the profits which have been diverted from it by reason of the infringement, and the defendants were ordered to pay all costs. Thus is another victory so red for the Rumford Chemical Works, who, not long since, caused several parties to be heavily fined for violating the injunction of the Supreme Court restraining all persons the Masoretic text. In points in which from offering for sale "Acid Phosphate" (so called) in any package which shall be a substantial or oclorable imitation of Horsford's Acid Pacephate.

Father's Despair and Belt-Inflicted Death-His So Final Restuc Too Late to Bave His Parent.

The graphic occurrence that is described below is one of the most remarkable episodes in the domestic history of America. It is absolute truth which can readily be verified.

The inhabitants of the pleasant town of Cortland, N. Y., were shocked one morning by the announcement that Mr. Clinton Rindge, one of their most prominent citi zens, had committed suicide. The news spread rapidly and aroused the entire neighborhood where Mr. Rindge was so well and favorably known. At first it seemed impossible that any one so quiet and domestic could do so rash a deed, and the inquiry was heard on every side as to the cause. The facts as developed on investigation proved to be as follows :

Mr. Rindge was domestic in his tastes, and took the greatest enjoyment in the society of hie children and pride in their development. And indeed he had good reason to be proud, for they gave promise of long lives of success and usefulness. But an evil day came. His youngest son, William, began to show signs of an early decay. He felt unusually tired each day, and would sometimes sleep the entire afternoon if permitted to do so. His head pained him, not acutely, but with dull, heavy feeling. There was a sinking sensation at the pit of his stomach. He lost all relish for food and much of his interest for things about him. He tried manfully to overcome these feelings, but they seemed stronger than his will. He began to lose flesh rapidly. The father became alarmed and consuited physicians as to the cause of his son's illuess, but they were unable to explain. Finality severe sores broke out on arms, and he was taken to Buffalo, where a painful operation was performed, resulting in the loss of much blood, but affording little relief. The young man returned home and a council of physicians was called. After an exhaustive examination they declared there was no hope of final recovery, and that he must die within a very few days. To describe the agony which this announcement caused the father would be impossible. His mind failed to grasp its full meaning at first; then finally seemed to comprehend it, but the load was too great. In an agony of frenzy he seized a kuife and took his own life, preferring death rather than to survive his idolized son. At that time William Rindge was too weak to know what was transpiring. His face had turned black, his breath ceased entirely at times, and his friends waited for his death, believing that the fiend Bright's disease of the kidneys, from which he was suffering, could not be removed. In this supreme moment William's sister came forward and declared she would make a final attempt to save he brother The doctors interposed, assuring her it was useless and that she would only hasten the end by the means she proposed to employ. But she was firm, and putting all back, approached her brother's side and administered a remedy which she fortunately had on hand. Within an hour he that right should be reserved until after seemed more easy, and before the day was over showed signs of decided improvement. If you have any conscientious scruples | These favorable signs continued, and to-day against marrying a man with a mother, William B. Rindge is well, having been virtualty raised from the dead through the to oblige you, or get rid of you to oblige | marvellous power of Warner Safe Cure, as can be readily verified by any chizen of

Cortland. Any one who reflects upon the fact to oblige him. Remember your hair above described must have a feeling of sadness. The father, dead by his own Be very sure it is the man you are in hand, supposing his son's recovery to be impossible; the son restored to health to mourn the loss of his father and the is foolish to take a stylish suit for better or agonized relatives with a memory of sadness to forever darken their lives. Had If you intend to keep three servants Clinton Rindge known that his son could after marriage, settle the matter before- recover he would to day be alive and happy,

any one would accept as true. Don't try to hurry up a proposal by However sad this case may be, the truth carrying on a flictation with some other remains that thousands of people are at fellow. Different men are men of differ- this moment in as great actual peril as that he is not "Sir Reger," but it never was go off in a fit of jealously and forget to come | causing misery if not death to their friends. They are far \$500. more deceptive than consumption, and cau Don't marry a man to oblige any third rarely be detected even by skilful person in existence. It is your right to physicians unless a microscopic analysis suit yourself in the matter. But remem- be resorted to, and few doctors understand a little friendly advice from one whose or possibility of approach, should strike advice is worth having may insure you a terror to the cue who is threatened as well If you have no fault to flud with him diseases have no distinct symptoms, personally, financially, conscientiously, but come in the form of lassitude, scoully, morally, political y, religiously, or loss of appetite, aching muscles and joints, any other way, he is probably perfect dult headacues, pains in the back, stomach enough to suit you, and you can afford to and onest, sour stomach, recurring signs of believe in him, hope in him, love him, cold, irregular pulsations of the heart, and frequent dizziness. If neglected, these symptoms are certain to run into chronic kidney and liver or Bright's disease, from which there is sure to be a great amount of agony and only one means of escape, which is by the use of Warner's Safe Cure. The importance of taking this great remedy upon the slightest appearance of any of the above symptoms Cannot be too strongly impressed upon the minds of all readers who desire to escape death and pain and

Two of a Klad.

There are several ways of calling a man a puppy, but an Austin photographer did it in a very nest manner one day last week. A feeble imitation of a Fifth avenue dude appeared at the artist's studio, with a young bull dog attached to the other end

of the string in his hand. "What will you charge me to take picture of this dawg?"

"Two dollars," replied the artist. "But how much do you awek, ab, if I am on the same picture, you knaw?" "No extra charge for you. I don't charge any more for one than I do for both

There were several ladies in the studio and to save his life, the dude can't imagice why they became so vi joly affected .-

Men from 21 to 65 years of age may frequently be seen playing marbles in the streets of Angel's Camp, Cal

Love one time layeth burdens; another time giveth wings .- Sir P. Sidney.

He Bage Very Willing Game in the Hocky Mountains.

Rev. Principal Grant, in the Week, gives the following amusing account of his successful attempt to bag a peculiar kind of held that so long as the witness could regrouse in the Selkirk range of the Rocky cognize the voice of the party speaking to Mountains, through which the C. P. R. is him, the distance between them was imto pass: "After lunch, Al. and I had re- material. mained behind our party to make up a bag of fool hens, after a fashion that I am well aware will bring down upon us the wrath and contempt of all sportsmen. | There are various kinds of grouse in the mountains, all easily shot, but none taken so easily as the fool hen, or ruffled tree grouse. These sit on logs or underbrush, or the branches | * . of trees, and gaze placidly at you, even when you are drawing near to knock them over with a stone or stick, or to snare them in some primitive way. Dr. Hector says that he never found much difficulty in catching them with a short piece of sinew twine, made into a noose and fastened on a slender pole. As you approach slowly, the bird does not seem in the least frightened, but sits gravely watching your proceedings, till you pass the noose over its head, or-perhaps when the noose is close -it obligingly dodges its head, and then you have only to pull it off the tree. The flesh is sweet and tender, and half a dezen fool hens in a stew are to dainty appetites a welcome addition to the invariable bacon and bannocks of the camp supper, though packers and ordinary men disdain anything less solid than pig in some form or another. Well, Al secured four or five in ten minutes. knocked one over with a stone, and, chasing | * * * FEMALE POPULATION. * * * another into the bush, struck at it two or three times with a long stick, and at last brought it down. Farther on, we peppered with volleys of stones an old cook who had PLACEMENTS, AND THE CONSEQUENT SPINAL WEAKperched on the top of a tree, and who looked calmly down at us the while, occasionally changing his position to another tree, as if to give us a better chance, and at lastdisgusted with our bad practice - flying away too far into the wood for us to follow

No Warmth in Alcohol.

During the extreme cold weather of January last a man was found leaning upright against a railing in London, frozen to death. This circumstance led an English admiral to write a letter to Public Opinion, in which he says:

" I would not impute an improper use of spirits to the watchman found frozen, but can unbesitatingly say that, from my own experience, nothing would be more likely to cause a stoppage of the heart than for a person, after taking a draught of spirits in a comfortable temperature, suddenly to expose himself to such a biting

cold as we have lately had." The admiral was a member of the last Arctic committee, and says that the witnesses before it were unanimous in the opinion that taking spirits to keep out cold is a fallacy; tea and coffee being much be:ter. He concluded his letter by saying:

"Seamen who were with me in the Aratio regions, after one day's experience in rum drinking, came to the conclusion that tea, which was the only beverage used my self, was much preferable; and they quickly derived great dayantage from its use while undergoing hard work and considerable cold. It cabmen, watchmen and others exposed to the weather would give up entirely the use of spiritucus liquors and use het tea and coffee, I can promise they would be better fortified to withstand the cold, enjoy more comfort, and have more hilling s to take home on Saturday night.'

The Tichborne Claimant.

According to the Melbourne Herald, the lunatic Creswell, now in Paramatta Asylum, is Arthur Orton, and the authorities of New South Wales seem to be inclined to hand. The man who is making love to but the facts which turned his brain and adopt this view. I suppose that the matter you may expect you to do your own wash- caused him to commit suicide were such as is capable of proof or disproof; but if selves in a difficult position with regard to our old friend the claimant.
