Correspondence.

BEXLEY.

From our own Correspondent:

The Methodist Sunday School here was re-opened on Sunday, May 1st.

Several bush fires were raging here last week. No damage done.

Mr. Belfrey has again charge of the post office at Carden. He also carries the mail from Victoria Road to Carden and Bexley and vice versa.

The fall wheat looks well in this neighborhood, being but little damaged by the frost. A few of the farmers are through with their spring work.

BRECHIN.

From Our Own Correspondent.

HYMENEAL.—One of those events which tend to promote the happiness of human life, took place in our neighborhood last week, by which Mr. Allan Scott was united in the bonds of matrimony to Miss Malloney. The affair passed off very quietly, no one seeming to be very deeply interested. However we wish the couple all the happiness which this life affords.

ACCIDENT.—A boy named Richard Donnelly met with a severe accident while edging lumber in the saw-mill at Dalrymple. His hand was thrown on the saw and one of the fingers nearly severed, another receiving such injuries as will render the amputation of a part of it necessary.

THE FALL WHEAT.—The fall wheat throughout this section is looking very well, and there are prospects of a fair crop. There is one field near the boundary line of Carden which is really hard to beat.

ELDON STATION.

To the Editor of THE ADVOCATE.

SIR,—I notice in the *Warder* issue of the 29th ult., that the Eldon Station correspondent for that paper, is flattered with possessing great intrepidity on account of not being born in the woods, (as if intelligent or courageous men were never born there.) This honor he may justly claim; for indeed, it would be rather preposterous undertaking for any animated being to attempt to frighten a "Cow-bell." As regards high honor, I rather think that the same renowned correspondent can easily carry around all at his command of the *essential*. And if he does not in the future adhere more closely in his writings to that for which he nominally has such a sacred regard, he will be "honored" with a gift in the form of an elegant coat of tar ornamented with feathers. The census taker has been recently around, but he did not take the senses from that distinguished correspondent. His Lordship had none to give away. As it would be rather unbecoming not to thank the genteel editor of the *Warder* for the information he has so cordially tendered his "Eldon Friends" concerning me. I therefore beg to state, that I think myself obliged to him beyond all expression of gratitude. As regards his threats of further enquiries, he is at liberty to make all the enquiries imaginable of the Inspector, concerning the cheeky individual referred to in his issue of the 29th ult. His consequential correspondent for Eldon may henceforth indulge to his heart's content in his impertinent buffonery, as I do not intend to disturb his peace of mind, or mar his happiness over his charming productions, any further. If he thinks he is acquiring celebrity, through writing such correspondences as had been some weeks ago written by him for the *Warder*, let him enquire of the inhabitants in the vicinity of Eldon Station their opinion of the *Warder's* correspondent for that community, and they will without any hesitation, tell him that he is like a "Jack-ass" between two bundles of hay.

Yours Truly,

D. B. CARMICHAEL.

HARDWARE! HARDWARE!

THE attention of farmers and others who are thinking of building, is directed to the following facts:—In order to prevent disappointment, it is necessary to see just what you are buying, otherwise goods may be sent you on your order, which are not exactly what you want, and when different qualities and varieties are kept in stock, you can be much better suited by judging for yourself which you will take. When you have bought your Hardware, very often a mistake is made in size or quantity, which necessitates sending back to the store and much time is thus consumed when you are dealing at a distance from home. In view of the above facts you are requested to call and examine the stock and prices of the undersigned who keeps constantly on hand A LARGE AND WELL-ASSORTED STOCK OF SHELF AND HEAVY HARDWARE.

R. F. KILLALY, Cannington.

N. B.—Parties purchasing their Hardware from me, having more than they require of Glass, Putty, Nails, or any other articles, may return them and full price will be allowed if in good order. TERMS, LIBERAL.

HONEY'S IMPROVED FANNING MILL.

We desire to call the attention of the farming community to the above well known Fanning Mill, now being manufactured at our works. We are prepared to give

A WRITTEN GUARANTEE THAT OUR MILL IS ALL THAT IS CLAIMED FOR IT.

It is a perfect cleaner, and chaffer. It will take out Wild Oats perfectly. It will take out all Cockle, Chess and other foul seeds, making a perfect sample of Market Wheat. It is a most perfect separator, and will separate all the large kernels from the small and shrunken grains. It is very rapid in its action. It separates all kinds of grain as well as seeds, and if Oats and Peas, or Timothy and Clover seed are mixed together and put through this Mill, they will come out perfectly separated. It will separate small and split Peas from large Peas, taking them from the chaff in the most perfect manner. The Honey Improved Fanning Mill and Separator, is acknowledged by all to be

The Best Mill Manufactured In The Dominion.

And in proof of this strong statement, we can furnish abundant testimonials from those having them in use. To intended purchasers we would say, come and see it for yourselves, and, we feel confident you will be entirely satisfied that they are all they are represented.
