A RELIGIOUS paper in London speaks of the great annoyance which some ministers suffer while preaching, from the thoughtlessness of restless and fidgety persons, who pull their watches from their pockets or turn around to look at the church clock. This paper says that there ought to be a law that whoever takes out his watch or looks at the clock during sermons should be condemned to sit out the monotonous reading of one of the longest sermons of one of the driest sixteenth century divines.

New Millinery! New styles in Hats & Bonnets. A choice stock of feathers, flowers, ornaments &c. Trimmings of all descriptions. A first class Milliner employed, at McIntyre & Prior's.

Our village cheese factory is to open on Monday next and we understand under more favorable auspices than last season. Messrs. Speers & Cameron are the managers, and with their attention we hope to see the factory become the leading one in the district. Mr. Speers is well and favourably known to the farmers in this locality, and we hope to see the firm supplied with a liberal number of cows. During the present season cheese promises to be a very profitable product and we do not think our farmers will have any fault to find with their returns from this source.

THIS is Venner's predictions for the month of May:—There will in all probability, be snow falls through the Gulf and the St. Lawrence district about the 7th and 8th. After the 10th of May hot weather may be expected, and after the 15th bush fires will probably break out in certain districts, although thunder storms are probable on the 13th and 15th. Between the 20th and 25th there will probably be cloudy weather with rains, and vegetation will have advanced considerably by the 24th of the month. Between the 20th and the 25th the weather will probably be cool. The month will probably end hot and sultry.

WHAT threatened to be a fatal runaway occurred last Tuesday afternoon, about 1 o'clock. The team owned by Mr. Thos. Edwards, and driven by Dr. McKay, when near the 4th Concession of Eldon, became frightened, and turning suddenly, started for the village at a tremendous pace. When opposite the residence of Mr. E. R. Irish, the Doctor, who still held the lines was thrown out, leaving his little son still in the buggy. The horses continued their desperate course until reaching the post office where endeavours were made to stop them. When opposite Wilson's store the buggy came into collision with a post, throwing the boy out and releasing the horses, who dashed around into the back street. When picked up the boy was none the worse of the adventure, excepting a bad bruise on the forehead. The Doctor did not escape so fortunately, however, he sustaining a severe cut on the head with numerous bruises. The buggy was badly damaged and the horses escaped with but little injury.

**Holloway's Pills.**—It is difficult to determine which is more the trying to health, intense cold or excessive heat, though everybody knows that sudden transitions from the one to the other tend with disease, which may in most instances be starved off by an early resort to these purifying, regulating, and strengthening Pills. It is well-known and highly esteemed medicine affords a safe and easy remedy for almost every constitutional wrong which climatic changes or dietetic errors can engender, and effectually removes any weakness self-indulgent habit may have induced. In all conditions of the system bordering on disease indicated by apathy, listlessness, and restlessness, Holloway's Pills will prove especially serviceable in begetting a vivacity appreciated by both sound and sick.
