## Editorial Notes.

The census returns just published, show that there has been no change in the numerical rank of the various religious denominations, since the census of 1871 was taken. The increase per cent., however, made by the five largest denominations is as follows:—

	Per cent.
Roman Catholic.....	21
Methodist.....	35
Presbyterian.....	24
Church of England.....	16
Baptist.....	24
Increase of population.....	25

The discharge of innocent persons arrested on suspicion of being the assassins continues in Ireland. The police are becoming despondent, and an additional reward has been offered with the intention of deterring persons from harbouring the assassins. The authorities claim to have discovered the existence of a plot to assassinate eight persons, among the number being Earl Spencer, who it is said was saved for want of an opportunity to carry out the murderous intention. The car-drivers have passed resolutions denouncing the assassinations, and pledging aid to the authorities. On this side of the Atlantic considerable difference of opinion exists. At a Land League meeting at Brooklyn very strong language was used, several speakers openly glorifying the murder of Mr. Burke. The car which conveyed the murderers has been discovered.

**Holloway's Pills.**—Indigestion and Liver Complaint.—The digestion cannot be long or seriously disordered without the derangement being perceptible on the countenance. These Pills prevent both unpleasant consequences; they improve the appetite, and with the increase of desire for food, they augment the powers of digestion and assimilation in the stomach. Holloway's Pills deal most satisfactorily with deranged or diseased conditions of the many organs engaged in extracting nourishment for our bodies from our various diets—as the liver, stomach, and bowels, over all of which they exercise the most salutary control. By resorting at an early stage of this malady to these purifying and laxative Pills, the dyspepsia is speedily restored to health and strength, and his sallowness gradually vanishes.

An exchange sagely remarks:—"Altogether too many branches encumber the school-boy and girl who fritter away their only available school days in the foolish pursuit of ten or twelve different branches of learning. A liberal education is, theoretically at least, very nice, but to all a liberal education is denied, even though it does as at present chiefly consists of fragments hastily gathered out of many studies. If boys and girls were kept at school long enough, as they should be, the several branches which constitute a liberal education might be taken up with profit. But everybody knows that almost all pupils leave school entirely without a fixed knowledge of any particular branch, and a pretty confused idea of all parts. Boys and girls leave school at or rather before sixteen, just when they begin to think consecutively. This being so, educators should be less hypocritical and be honest enough to refuse to teach more than four or five branches. Fully one-half the books now found in our schools ought to be consigned to the tender mercies of the bad boy. *Fort Hope Times.*—This is precisely what we have always maintained, and until this view of the matter is accepted our school system will fall in its most essential points. A good, sound, common education is all that is expected. To say that a pupil can obtain a comprehensive knowledge of the many subjects which are placed before him in the short period which is usually allotted to the school days is absurd, and it is time that a vigorous re-modelling of subjects was introduced. Let those who desire a higher education find it in the proper place, but it should not be allowed to intrude in the elementary schools.

**A POPULAR REMEDY.**—Hagyard's Pectoral Balm is one of the most deservedly popular remedies for the cure of coughs, colds, sore throat, asthma, whooping cough, croup, bronchitis, and all pulmonary complaints. For sale by all dealers.

**DYSPEPSIA,** that all prevalent disease of civilized life, is always attended with a disordered sympathetic system and bad secretions, and no remedy is better adapted to its cure than Burdock Blood Bitters taken according to special directions found on every bottle.

The pyramids of Egypt were built who knows what for, but every one knows that the Esterbrook Steel Pens were made to suit the different tastes, habits and styles of various writers.

**WEAK LUNGS AND HOW TO MAKE THEM STRONG.**—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but simple food, and take that best of all cough remedies, Hagyard's Pectoral Balm. It speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

Thomas Myers, Braintree, writes: "Dr. Thomas' Electric Oil is the best medicine I sell. It always gives satisfaction, and in cases of coughs, colds, sore throat, &c., immediate relief has been received by those who use it."
