

WHAT a glorious location Beaverton is for a cheese factory and yet our farmers and village capitalists do not recognize the fact that there is money in cheese. A fertile country, plenty of stock and that of excellent quality and plenty of water, why should the production of cheese not become as important an industry here as it is in the west. We know no reason why it should not and it but started we are convinced the farmers, and merchants too, would find it to their advantage. Double the money can be made from the same quantity of milk turned into cheese than is realized into butter, while the trouble and annoyance of making the butter is dispensed with.

THE ice is all gone from the lake. AN immense number of suckers are being taken from the river.

THE committee who have the incorporation of the village in hand are having a plan prepared of the proposed new village. Mr. Gordon will take the census at once.

SIRINGS of the Division Court on the 8th. THE St. Paul's Church, "Beehive" Society intend holding an Easter Bazaar in Alexandria Hall, on the evening of May 7th and 8th. Several novel features are promised in connection with the bazaar and a good programme of amusement is under preparation. Proceeds devoted to church purposes.

MR. GEO. H. WHEELER M. P., was in town on Tuesday last.

WE have several times called attention to the furious manner in which our hotel business are in the habit of crossing the bridge. A conspicuous notice is posted at both ends prohibiting the same, but without effect. Bridges are structures of too costly a nature to allow of usage which tends to destroy them and the drivers should be warned.

THE last few days have been severely cold. Hard frosts on Sunday night.

WE learn, Mara street is to be graded from the bridge to the station this summer. This is a much needed repair. It is veritably the worst piece of road in the township and at the entrance to the village is specially bad.

THE next meeting of the council takes place on the 31st of May.

MR. SMITH of the Foundry has on hand on exhibition one of Harris & Son's new Self-Binders. Farmers who intend purchasing a Binder should call and see this one.

OUR Lacrosse Club intend giving a grand Dramatic Entertainment in Alexandria Hall, on the evening of May 16th, an excellent evening's amusement may be looked for. Full particulars next week.

MR. A. GINN, V. S., has decided to visit Beaverton every Tuesday—until further notice—Any orders left at John McKinnon's Drug Store or by telegraph, will have prompt attention. See card in another column.

Think of it! There were 71 persons committed to jail in 1883 for drunkenness in the county of Peterborough, all of whom might have been spared this degradation but for the legalized temptation thrown in their way.

We are not deeply affected by a sense of our utter worthlessness when we are told that a reverend gentleman residing not a thousand miles from here goes considerably out of his way to attack us, nor do we feel the weight of anathema so severely as the same gentleman would suppose us to do. We are surprised, however at the weakness that would permit an open pulpit reference to a newspaper for its publication of news. Such we learn has recently been done for this paper and also for our esteemed contemporary the Post. We would not have referred to the matter but from the fact that we are not inclined to be abused without cause, and certainly none exists in this case to warrant so severe a stretch of clerical privilege.

Woodville Village council at a recent meeting appointed two pathmasters to superintend the outlay of the statute labor the amount of which is also to be reduced. We confess ourselves surprised at this course. It is a well-known fault of the system usually adopted that comparatively little value is received from a large outlay and we fully expected the Council would demand its commutation into cash, in fact, this item is one of the most important of all our sources of revenue and we would ask where is the wisdom in reducing the labor when every cent available should be brought into service (this year at least) for the repair of the streets. It would be more in accord with the public wish that the full rate of commutation should be charged seeing the great need, rather than a reduction; the placing of its expenditure also in the hands of pathmasters and allowing the work to be performed in the usual way will result in much loss to the village. It is a fact too often demonstrated that one dollar in cash will produce more work than three days of statute labor, besides having it done in a more satisfactory manner.

Holloway's Pills.—Important for the delicate.—It is difficult to determine which is the more trying to the human constitution, the damp, cold days of autumn and winter, or the keen, dry, easterly winds of spring. Throughout the seasons good health may be maintained by occasional doses of Holloway's Pills, which purify the blood and act as wholesome stimulants to the skin, stomach, liver, bowels, and kidneys. This celebrated medicine needs but a fair trial to convince the ailing and desponding that it will cheer and restore them without danger, pain, or inconvenience. No family should be without a supply of Holloway's Pills and treatment, as by a timely recourse to them the first spring function may be reclaimed, suffering may be spared, and life saved.

Health is a duty. Disease a crime. Use Dr. Henry Baxter's Mandrake Bitters and be cured of all biliousness or liver trouble. 25 cents will buy a large bottle.
