OUR DELINQUENT LIST.

The following are a few of the many who are indebted to us. We will add to this list week by week, and names will be removed as the amounts are paid. We would be very sorry to publish the names of any who, by misfortune are unable to pay their just debts, yet we think the public should be warned against those who run up accounts which they never intend to pay.

- Alex. Weeks, Beaverton, job work, ...\$1 50
- A. Campbell, formerly hotelkeeper at Glenarm, since removed, sub., &c. 3 60
- W. H. Waller, formerly of Hartley, ... 1 50
- Wm. Kerr, Woodville, job. 1 25
- Jos. H. Breggs, manufacturer of Breggs's Liniment, circulars, 2 50
- Wm. Johnson, M. A., Lindsay, adv., ... 4 00
- R. Pirt, farmer, near Argyle, adv., &c. 3 90
- Geo. Bauldrey, formerly of Woodville, now in Sunderland, job, 3 00
- Fred. Bick, advertisement, 10 00
- D. H. Cameron, adv. 13 00
- T. A. Clouston, job work, adv. &c. 8 50
- Beaverton Lacrosse Club, job, 4 00
- A. Moore, formerly of Woodville, now of Beaverton, 6 25
- Kenneth Murchison, formerly of Palestine, now in Rapid City, Little Saskatchewan.

Local Matters.

You save 25 per cent. by getting your teas at Gunn Bros.

Read our delinquent list and be warned.

All rips in any boots, bought at Rod. Campbell's repaired free of charge.

A portion of Mariposa Council proceedings unavoidably crowded out this week.

Archie "the cooper" was "jugged" last Monday for being drunk and disorderly. He appeared before the "cadi" on the following day and contributed \$1.00 towards the township revenue.

With last week's number our esteemed contemporary the *Warder* has completed its twenty-third year of publication. Its long career is the best criterion to be found of its merits. We wish its enterprising proprietors many more years of prosperity.

Peter Clifford says No, and it costs him 50cts. to settle. On Tuesday Mr. Grant proposed to him that he do some road work, which proposal he declined to entertain, with the lamentable result chronicled. Leap year don't got any privileges for Peter, at least, so says the pathmaster.

The *Inverness Highlander* has at last turned up with an ample apology for the delay. Mr. Murdock had the misfortune to entrust his business, when starting for America to a person who it seems did not merit the trust reposed in him. The paper, however, will come regular hereafter.

Pathmasters should remember that the new "Act to prevent Canada Thistles" takes away the optional character of the old law, and makes it imperative for pathmasters to see that it is enforced, regardless of the opinion of the Municipal Council concerning the matter. The notices to owners of land overrun with thistles must be served before the 25th of June.

Good.—At the School Convention last Friday it was decided to introduce a library, which is to be accessible to all the members of the Association. It will consist of a number of first class books on educational and other subjects and will be distributed around in the manner of a circulating library. This will give students a chance to peruse books which otherwise would be beyond their reach. The membership fee is only 75cts. which entitles the members to a year's subscription to the *School Journal* as well as access to the library.

Eldon Township Council held a protracted meeting last Monday.

Early.—Mrs. Chesterfield surprised us on Tuesday morning by leaving a fine basket of new potatoes, green peas and carrots. These are the first new potatoes we have seen this season and they were a very fair size. We tender our thanks.

We are glad to see our old friend Mr. Merry around again. We had missed him for some time. He has been suffering from a severe abscess for the past two months, he is, however, rapidly recovering. Delinquent ratepayers, beware.

The Weather.—It cannot be denied that Vennor made a hit for May, and as he predicted that the beginning of June would be "fall-like, with frosts," it must be also admitted that he has scored at least one for the present month. He thinks that, on the whole, June will be an intensely hot month.

Confident.—Our farmers seem to be very confident of a bountiful harvest. Mr. Norman Ferguson informs us that he has already completed three large barns this season and has three more under construction. This is promising and shows, at any rate, our farmers are not discouraged.

Improvements.—Our village pathmasters have had a large gang of men on the main street for the last few days with a most favourable result. Under their treatment it is beginning to assume something of a shape. A similar treatment every year for a few years would soon put our main street in good condition. The sidewalk is also undergoing repairs.

Although a printer, may be setting all day, yet, in his own way, he is a great traveller, or at least his hand is. A good printer will set 8,000 ems a day or about 25,000 letters. The distance travelled over by the hand will average about one foot per letter, going to the boxes in which they are contained, and of course returning makes two feet per every letter he sets. This would make a distance each day of 48,000 feet, or a little more than nine miles; and, in the course of a year, leaving out Sundays, the hand of a printer travels 3,000 miles.

A Leading commercial paper expresses the opinion that the want of advertising is one of the chief causes of business failures. There are business men who don't understand the value of advertising. They do not see the direct connection between advertising and the entering of a customer, or the demand for any particular article. They also, with a self-importance which is amusing, fancy their business is known to the whole community, changing as that community is to an extent which they have no conception of. The principle upon which business men should act is, advertise, and advertise the truth. If you have a good thing let the people know it. Furthermore, never let an advertisement get stale.

W. Victoria School Convention.—A report of the Convention will be found in another column. A large number of teachers were present and a liberal sprinkling of the outside public. The lecture in the evening, on the Kindergarten system of education, was one well worth the attention bestowed upon it, and the masterly manner in which the subject was handled by the lecturer, Mr. S. L. Huges, M. A., of Toronto, shows that he has entire control of his subject, which is one that should cause all interested in education considerable thought. The system, though not at all likely to come into general use is undoubtedly founded on the true and natural principles of education, and, as the lecturer pointed out, much can be gained from it which might with benefit be introduced into our school system.

Bad Boys.—Three of our village boys with Tom Gifford as ringleader, on Friday last, went east on the town line to where it is crossed by the Midland railway and meeting a little son of Mr. John D. Perrin, about 11 years of age, presented a pistol at his head, threatening to shoot him and otherwise tormenting him. The little fellow was so badly frightened that he had the greatest difficulty in crawling home, and it was some time after he reached there before he was able to tell what was wrong. His father immediately started in pursuit of the boys, and succeeded in overtaking them before they reached the village, but he very leniently let them go with admonition. This, we are sorry to say, is not the first time young Gifford has figured in a somewhat similar affair. Had Mr. Perrin had recourse to the law there is no doubt the three of them would have had to serve a term in the Reformatory, and we fear that getting off so easy this time will only encourage them to acts of lawlessness. Something should be done to prevent them carrying firearms in the future as there is no knowing what might happen when such lads are allowed to carry deadly weapons.

Farm Produce taken in exchange for Boots and Shoes, at Rod. Campbell's.

CASH PAID for butter at Gunn Bros. 1000 TUBS WANTED.

Dr. Butler, "the redoubtable," was in town last Monday.

Nuisance.—Now that the hot weather has come the Commissioners should see that the slaughter house opposite the Queen's Hotel be closed. The smell at times is sickening and if something is not done immediately we predict a very sudden appearance of fever. Have it closed, it is endangering the health of the community.

All our town boys are now busily engaged concocting fiendish devices for the 1st. You find them everywhere pondering thoughts of the most really awful costumes imaginable. From the amount of mental exertion being expended on them the costumes of the Phizogs should be "fearfully and wonderfully made." There is a prize for the best Phiz. boys!

The Celebration Committee has so far been very successful in their canvas; they advertise two hundred dollars in prizes, the most ever offered in Woodville. This certainly should bring a large crowd to the village on the 1st. A new feature we notice this year is the introduction of prizes for dancing the Highland Fling and Sword Dance. Some of our Highland friends will now have a chance to display their agility.

English Sparrows.—Our little brown coated citizen has been so frequently contemned of late, that we are glad to ascertain a new field of usefulness has been found for him. Last summer, a St. Louis botanist noticed a great many Canadian thistles spring up in localities about the city. He saw the thistle down floating about in the air, and felt much concerned at the prospect of the pestilent weed becoming sown broadcast over the country. One day, while out riding, he came across a considerable patch of the thistle, and wishing to procure some of the seed for some purpose, commenced searching for them. He found many ripe heads and much floating down but not a seed could be discovered. He was much surprised at this fact, and on investigating the matter found that they were devoured by the English Sparrow, which are numerous in that city. The seeds are oily, and were so greedily sought after by the sparrows that scarcely one escaped them. He had at that time specimens of the Canada thistle growing in his garden, and made sure of finding seed there for the purpose he wished, but on searching could not find one, and the gardener informed him that they were also eaten by the tame goldfinches that roam in freedom through the garden. He afterwards watched to see for himself whether the sparrows ate of the seeds of the thistles that grew by the wayside, and saw them in flocks seeking for them. From this it appears that the English sparrow is destined to do much good in localities infested by this obnoxious weed. The sparrow is rapidly increasing in this vicinity. They made their first appearance here about this time last spring, and now they have become quite numerous.

TWO LIVES SAVED.

Norwood, February 19th, 1880.

T. Milburn & Co.
GENTLEMEN:—I notice that you have become proprietors of that old and well-tried medicine—FOWLER'S EXTRACT OF WILD STRAWBERRY. I have sold it for the last twenty years, and in no case have I known it to fail to give relief when used in Summer Complaint in any of its forms. People often tell me what it has done for them. Not long since I was at Colborne Station awaiting a train, when a gentleman approached, calling me by name and holding out his hand. "You don't remember me," said he, "but I have reason to remember you, for I shall always believe you were the means, under God, of saving the lives of my two children." I took his hand and asked him his name and the particulars as to how I could have done him such a service. He said his name was "Downer," and that "some years before he had known me while clerking in a store in Ashburnham." One day, after burying two of his children who had died of Summer Complaint he had been telling me his trouble. Also, "that two others of his children were at that moment very low with it, and the Doctors unable to do them any good." I then remembered the circumstances myself, and that I had told him to go back to Messrs. Ormond & Gilmour's Drug store in Peterboro' and get a bottle of FOWLER'S EXTRACT OF WILD STRAWBERRY. He said that "he did so," and that "there was an improvement from the first dose," and "that it saved the lives of his children."

I may add that it is equally good for adults, often checking and curing this dreadful disease when nothing else will. Hoping that this may be of service in extending a knowledge of its virtues,
I am, yours truly,
JNO. A. BUTTERFIELD,
Clerk, 2nd Div. Court.

Peterboro' Co., Ont.
