BOLSOVER.

Not to be behind Bolsover intends to hold a grand celebration on July 12th. A good list of prizes, a base-ball match and other attractions have been arranged. Posters have been issued.

GAMEBRIDGE.

A picnic will be held here on the 14th inst., in Mr. F. Brown's beautiful grove. Dancing, Base-ball, and other sports will be indulged in and a very pleasant may be expected.

PALESTINE.

From Our Own Correspondent:
The School Picnic was a decided success, there being a large number out, who, to all appearance enjoyed themselves immensely. At the game of base ball between the Kirkfield and Palestine clubs, the Palestinians were defeated by a score of 36 to 9. The latter expect to do much better in the return match, which will probably come off pretty soon.

COBOCONK.

From our own Correspondent.
Dominion Day was celebrated here in a patriotic manner. In the morning the steamer Cobocok arrived from Fenelon Falls, calling at intermediate points for excursionists. The several games were keenly contested, and much interest maintained by the onlookers. The chief excitement was caused by the walkers of the greasy pole. The pole was suspended over the river and when the walkers reached the middle the pole began to sway and they had to jump into the water, and swim for the shore. A mishap happened during the throwing of the shoulder-stone. As one of the throwers pitched the ball, it diverged to one side and struck a man above the ear, inflicting an ugly gash. This taught the rest of the crowd to stand back. This is one more to add to the long list of accidents which occur from throwing the shoulder-stone.

BRECHIN.

From Our Own Correspondent.
Bexley correspondent wishes to know what has become of "That Brechin Correspondent," and thinks he has fallen in love. It strikes me very forcibly that he has had an attack of that passion himself, and it is not at all surprising that he should fancy others similarly affected. Be careful R.—I am told it is a very dangerous malady.
Bruin has again appeared in our midst. He has been seen frolicking with some calves in this neighborhood not long ago. One of our boys charged him with a volley of pigeon-shot, Thursday evening, nothing else being at hand at the time.
Ned Donnelly, second son of Patrick Donnelly, met with what might have been a more serious accident. On Friday last while edging shingles in his father's mill, he escaped minus part of a finger only. This is the second accident of the kind that has occurred in this mill since its opening in the spring. We attribute it to the carelessness or want of proper equipment in the machinery.

ELDON STATION.

From our own Correspondent.
The late rains having given a renewed stimulus to the crops, fields present an appearance which predicts a bountiful harvest to the farmer.
The half yearly examination of the Eldon school took place on Thursday, 30th ult. Quite a number of the members of the section attended, and were highly pleased with the tone of the school. ELDON AGRICULTURAL SOCIETY.

To the Editor of The Woodville Advocate.
SIR,—In THE ADVOCATE of last week I observe a notice by the Secretary of the Eldon Branch Agricultural Society, calling on parties wishing to become members to immediately hand in their names. This notice is right, but would have been more timely had it been earlier, but in order to make the fall show a grand success, much more is required of the officers of the Society and others interested than a notice in a newspaper. Canvassing and hard work will have to be done, if they have a large membership roll and a good exhibit. Having spent 40 years of my life in that neighborhood, and having been a member of the Society for many years, and for several of these years one of its directors, I feel an interest in its prosperity, and as 'times are getting better, I hope that farmers and others will with alacrity join the Society and make it more successful than it has been in the past. The prize list ought to be revised. The Scotch and Club wheats have for several years been degenerating, and I think prizes for these wheats should be discontinued and other wheats substituted in their place. There are several varieties which stand well among many agriculturists. Among these are the White Russian, the White Fife, the Lost Nation and Arnecta. There is a new variety coming before the public, called the French spring wheat, which is supposed by many who are qualified to judge, will soon stand high in public favor for yield and for milling qualities. Such as the above and other new varieties should be encouraged, instead of old varieties which have lost their usefulness. I think it would be well to discontinue giving prizes to grade male animals, more especially to grade bulls, and thereby discourage the raising of inferior stock. There ought to be an alteration or addition to the prize list as regards the class of horses, and if the resources of the Society can permit there ought to be several additions to the prize list, and which I ere long hope to see. But all this and more depends on the energy and enterprise of the officers of the Society. I hope from this forward these gentlemen will work with a will and show that their Society is advancing, and not receding.
SIDNEY MCKENZIE.

Holloway's Pills.—Easy Digestion.—These admirable Pills cannot be too highly appreciated for the wholesome power they exert over all disorders of the stomach, liver, bowels, and kidneys. They instantaneously relieve and steadily work out a thorough cure, and in its course dispel headache, biliousness, flatulence and depression of spirits. It is wonderful to watch the daily improvement of the complexion, as Holloway's Pills purify the blood and restore plumpness to the face which had lost both flesh and colour. These Pills combine every excellence desirable in a domestic remedy. The most certain and beneficial results flow from the occasional use of this regulating medicine; even persons in health, or when following sedentary occupation, will find it an invaluable aperient.

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY cures summer complaints, diarrhoea, dysentery, cholera morbus, cholera infantum, sour stomach, colic, nausea, vomiting, colic, piles, leucorrhoea, and all manner of fluxes.
BURDOCK BLOOD BITTERS cures all diseases of the blood, liver and kidneys, female complaints, nervous and general debility, and builds up the entire system when broken down by disease.

Forty-five millions of dollars is a very comfortable sum of money, and Frank Winker, of Canal Fulton O., who is a coal miner, and his five brothers and one sister to whom a deceased brother in England left it, can rest assured that extreme poverty is not for them. Forty years ago this brother went to Liverpool and thence to the Cape of Good Hope to seek his fortune. He engaged in the diamond business and found it. He used to write home, telling his family that he would surprise them some day. He kept his promise.

DANGER! BEWARE! As you value your life beware of opiates in diarrhoea mixtures. They quell pain but checking too suddenly, the results is inflammation. DR. FOWLER'S EXTRACT OF WILD STRAWBERRY, made from the Wild Strawberry plant and other healing vegetables, is nature's own cure for all forms of bowel complaint.

Manufacturers of Reapers Mowers and Threshing Machines prefer "Castorine" Machine Oil to any other. It will outwear Lard, Seal or Elephant and is warranted not to gum.
