

**Beaverton Local News.**

MR. H. WESTCOTT announces Harvest Tools, cheap, in another column.

DIVISION Court was held on Monday last. The docket was light.

GAMBRIDGE Village picnic occurred on Tuesday last. Quite a gathering of our boys were present.

CRADLES and scythes are a rare article in this part of the country now. Everywhere the mower and very soon the reaper and often the self-binder. This shows to what a science farming is becoming and also shows the rapid advance in wealth our farmers have made in the last few years. [E.]

A farmer says that for three years past he has not been troubled with cabbage moth, his remedy being the simple one of placing a small branch of the common elder bush on the growing cabbage. Cut this out and save it.

Pure Paris Green at the "Medical Hall" Beaverton. 300 lbs in stock, the cheapest and best in the market.

Grip is humorous, by profession and by practice; but, like its English contemporary, Punch, it can be serious enough when any great cause is at stake. This is sensible enough: "Mr. King Dodds who makes an honest living by advocating the continuance of the "Curse of Canada" is very fond of asserting that prohibition does not prohibit, and points triumphantly to the secret drinking dens which he asserts may be found in all prohibition States. This is his strongest argument. Well, what does it amount to, if true? Is it not better to have an evil driven to the holes and corners where none but abandoned sots will follow it, than to leave it in the "respectable" position it occupies in most communities at present. Prohibition kills the treating system, and thereby breaks the back of the liquor traffic. It may leave a boozing den here and there in the slums of the towns, but the question is would King Dodds or any other decent member of society care to take his tippie in such quarters habitually? Nine men out of every ten would go without it first."

THE Richmond Hill Lacrosse Club defeated Uxbridge by three straights inside of twelve minutes on Dominion Day.

MR. WM. BAIN, of Thorah, returned from Calgary, N. W. T. on Tuesday last. He reports the crop prospects of the far west as very promising. His brothers who have located near Calgary, are much pleased with their new home and intend herding a large number of animals this season.

THORAH Township Council meet on the 28th inst.

READ Harrison & Leslie's New advertisement in another column.

It is our duty to record still another death this week, this time in the person of Mrs. Jas. Duncan who died on Friday last. The lady had been sick for some time but on Thursday strong hopes of her recovery were entertained. A sudden change occurring, however, she rapidly declined and passed away. The cause of death we learn was blood poisoning. She leaves a husband and infant daughter to mourn her early end. Mr. Duncan and family have the heartfelt sympathy of all in his affliction.

Baxter's Mandrake Bitters cure indigestion, Heart Burn, Costiveness and all malarial diseases. Twenty-five cents per bottle.

THE Presbyterian Sabbath School of Woodville picniced here on Wednesday.

THE "Checkers" were to have played a match with the Orillia at the R. C. picnic at Brechin last week and prepared for it. The Orillians failed to put in an appearance, however, at the picnic much to the disappointment of our boys and those who had gathered to see the play. The "Checkers" we believe would like to hear from the Orillia Lacrosse Club with a hope of some time crossing sticks with them.

THE Lacrosse Club were unsuccessful in their negotiations with the G. T. R. for an excursion to Peterboro on the 18th. Those who exert on that day will be entitled to a full fare ticket on payment of the price.

MR. ROBINSON, the Missionary from Eromanga who preached on Sabbath last did so to a large audience. A collection was taken up for the Mission he represents.

IMMENSE quantities of butter and eggs are being shipped from here almost daily. These products have risen to be a very important consideration to the farmer and every year is likely to improve the market. If better care were exercised in the manufacture of butter greater satisfaction would result both to the buyer and seller. We have seen butter brought to the stores and purchased for a good price which should rather have been fit for soap grease than the table and yet people are surprised that a better price is not obtained. First class butter always commands a good value, but trash should not be accepted, it is dear at any price.

Those twin foes to bodily comfort, Dyspepsia and Bileousness, yield when war is waged against them with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Its use also insures the removal of Kidney and Uterine maladies, and promotes unobstructed action of the bowels. The purity of its ingredients is another point in its favor. As a blood purifier it has no equal. It is also a great favorite with the ladies.

**STAPLE ARTICLE THROUGHOUT THE WORLD.**

**THE MERCHANT'S PROFIT AND THE SICK MAN'S HOPE.**

Australia forms no small portion of the vast field over which the celebrated Thomas Holloway has spread the blessings of his peerless remedies. Their peculiar adaptation to the diseases of our climate was discovered at an early day by our shrewd, observant population, and for years the demand for them has increased with ever accelerated rapidity. The heaviest commercial houses in England are in the frequent habit of receiving from their correspondents in Sydney, Melbourne, Adelaide, Geelong, and in fact from every port of Australasia, orders for Holloway's Pills and Ointment, and merchants of the Jewish persuasion, proverbially the most cautious of all the mercantile community, invest larger sums than any other traders in these popular preparations. They know full well that the moment the shipments arrive out they can be sold at a large advance on invoice prices, and that the market for them never is depressed. Few persons think of turning their faces towards the gold fields without a supply.

For disorders of the liver and stomach the Pills are claimed to be a swift and sure specific, and the claim is verified by an overwhelming mass of testimony. Now we all know how entirely the bodily health depends upon the condition of these important organs. If the digestion is impaired, the bowels disordered, and the liver torpid or congested, the whole frame suffers. The strength declines, the spirits droop, the complexion becomes cadaverous, the flesh wasted, sappiness and despair take the places of energy and hopefulness. A few timely doses of the Pills bring back digestion, appetite, and physical energy: The stomach is strengthened and toned, the liver invigorated, the de-vitalized blood restored to its normal condition, and the invalid recovers the strength, the energy, and the health that belong to vigorous manhood.—Observer.

**SCROFULA**

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores. "Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me."  
Yours respectfully, MRS. ANN O'BRIAN,  
146 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. BALL, of Rochester, N.H., writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

**Ayer's Sarsaparilla**

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

PREPARED BY  
**Dr. J. C. Ayer & Co., Lowell, Mass.**  
Sold by all Druggists; price \$1, six bottles for \$5.

**Road Contract!**

Township of Eldon.

THE undersigned Commissioners will be at Lot 3, on 2nd Concession of Eldon, on the 19th day of July, 1884, at the hour of 4 o'clock, p. m., to let a contract for Ditching the Watercourse through East half Lot 3, in 1st Concession of Eldon. The plan and profile may be seen at the Clerk's Office, Lorneville. Full particulars of terms, and the manner in which the work is to be performed will be given at the time and place.

E. D. McEACHERN,  
WM. CAMERON,  
Commissioners.

Eldon, July 9th, 1884

**LOST.**
