Self-Threading Needles.

One of the latest inventions of interest to ladies is the new patent sewing needle, which is to all appearances like any lordinary needle, but which can be instantly threaded without passing the thread through the eye, and is so simple in operation that even persons who are blind have no difficulty in using them. They are made in England by a well known firm of needle manufacturers, are nicely finished and finely tempered, and do not cut the thread as many do; they are just being introduced here, and sample packets are sent by mail to any address for fitteen cents by the Whiton Manufacturing Company, Toronto, Ontario, and as we know this firm to be thoroughly reliable and the needles not a catch penny, but a useful and genuine novelty, we would advise our readers to send for them.
