Editorial Notes.

[By the Editor or gathered from Exchanges.]

CHIEF Justice Richie gave judgement last week in favor of J. C. Ayer & Co. and against the Dominion Government in the celebrated Customs case brought against the medicine men.

REV. Dr. Wild says that fifty years from this three great powers will rule the earth—England Germany and Egypt. If Egypt is going to rule anything fifty years from now some huge strides must be taken at once. The Dr. finds his authority in a prophecy which refers to Israel, Assyria and Egypt, Israel being England the States and the Colonies, Assyria being Germany, and Egypt being Egypt.

OPPONENTS of vaccination should note the fact that in the Canton of Zurich, in Switzerland, there was compulsory vaccination up to 1882 and that not one death occurred from small-pox during the year. But the anti-vaccinationists secured a repeal of the law and deaths from the disease annually increased until in 1886 they numbered eighty-five per thousand. But that other lives are at stake, it would be sheer justice to leave such self-willed and prejudiced people to the consequences of their own folly.

THE way the American Democrats talk:—"Did you ever consider the taxes 100 per cent. when you arise on Sunday 35 to 100 per cent. in your home. breakfast from dishes taxed 45 to 40 to on a tablecloth taxed 40 per cent.. and when the Sabbath bell taxed 35 per cent. sounds its inviting notes you take your bible taxed 25 per cent. and go to the church built of lumber taxed 20 per cent. and there in a Sunday school song book taxed 25 per cent. you sing the praises of God.

THE General Assembly in session at Halifax last week, comprised 42 Presbyteries, stretching from Newfoundland on the Atlantic to British Columbia on the Pacific, including 1,600 ministers and probationers and in round numbers half a million members with a revenue for all purposes of $1,500,000. This shows an increase in receipts of $60,000 in ten years. The 137,000 communicants in the church belong to 76,000 families and 10,000 single members. The church provides sitting accommodation for 411,000 of its 500,000 adherents. The representatives to the assembly numbered four hundred.

FAILURES in Canada have been more numerous during the half year which is just ended than during the same period of 1887, but the aggregate amount of liabilities shows a great decrease. The increase in number amounts to twenty-one per cent. but the average amount of liabilities has fallen from $14,830 to $8,948, or nearly forty per cent. The failure of a banking institution or a couple of large wholesale firms will make all the difference in the average of liabilities so that not a great deal of reassurance is to be drawn from a drop in the average and the increase in the number of failures shows the necessity for the continuance of that caution in business which has characterized trade as a rule so far this year.

A MEETING of St. Catharines citizens has condemned Sunday traffic on the Welland Canal and a report of the meeting will be forwarded to the Government. It was a mistake to open the canal on Sunday in imitation of the Americans, who appear to have little respect for the day of rest. Any attempt to bring Sunday to the level of working days should meet with the vigorous opposition of workingmen everywhere, for as soon as the liberty of that day is invaded their rights suffer. Six days a week is long enough for men to labor, and anyone or any interest that tries to make Sunday a working day also should be looked upon by the toilers as an enemy and be treated accordingly.

REPORTS from the Canadian Northwest, Russia and India, show that the grain harvests in these countries will be enormous if present prospects are borne out and that there will be more breadstuffs for export than ever before. In case of any trouble in Europe this fall or next spring the supplies of food will be available at all events and the fighting men will not have to march on empty stomachs if their superiors have money to trade with.

OLD DR. CHASE'S NEW RECEIPT BOOK,

Published in both English and German.

His Last & Crowning Life Work.

Dr. Chase's Third, Last and Complete Receipt Book and Household Physician, or the Book for the Million, contains nearly 900 pages and sells for $2.25 in cloth binding and $2.50 in imported oil cloth, marble edge, and is justly by him called

"THE CROWNING WORK OF MY LIFE"

It is the result of over a half a century's observation, study and experience. Yet this embodies no compilation of his former books. It is wholly a new book. If 30 years ago he could produce a book that has had a sale of over fifteen hundred thousand copies, and has made his name familiar in nearly every English-speaking home in the United States, Canada, and thousands of homes in Europe, Australia and South America, what KIND of a book could or would he produce as his Crowning Life Work, WITH MORE THAN THIRTY YEARS OF ADDITIONAL PRACTICE AND EXPERIENCE? The book itself answers the question, and is the most valuable production in the history of book publishing.

CAUTION! Unscrupulous and pirating publishers are attempting to copy this book by taking portions of it out and palming it off on the public as the complete work. We own the manuscript, purchased from Dr. Chase's heirs. See that you get the genuine book. See that it has our name on the title page and is copyrighted by us.
