CLOSING OUT—All wanting frames for wreaths, wool work or any Pictures for the coming Fall Shows or home decoration, should leave their orders at once. Prices at cost, at Sherman's, Woodville.
A Village Bell.—Seeing that it is impossible to procure anything like fire protector, would it not be advisable to raise a village bell, which is something much needed in Woodville. A good bell would not cost much and would be a decided acquisition to the village. In fact no village should be without one, and we would like to see Woodville up to the times in this respect.
Accident.—As we predicted, "those sidewalks" have at last caused a serious accident. Mrs. W. G. Stoddart having been unfortunate enough to step into one of the many "man-traps," and sprained her ankle. Although the sprain is a very painful one, Mrs. S. has to be thankful that the limb was not broken.
 School Books 15 per cent below regular price at Sherman's. To close out balance of stock.
In a Tight Place.—On Saturday last Mr. G. W. Millar's cow, disappeared, and although every effort was put forth it was impossible to find her, until Tuesday evening, when she was discovered under the storehouse at the Nipissing station, wedged in tight. She was extricated with some difficulty. How she got under is a mystery.
The Grain Market.—The hardening tendency of the British Market during the past week has had a corresponding influence on the local markets, and wheat has at last advanced to the even dollar. We hope farmers will not hold back their grain any longer in view of a further advance, as the probabilities are that the price now paid is as good, if not better, than it will be after the close of navigation.
To our Readers.—We notice that several of our exchanges are going to sue those who owe them. We would not like to follow their example, but those who are indebted to us for subscriptions, advertising, or job work, (and they are many) would greatly oblige us by remitting to us at once, as we have a large amount to make up during the next two weeks. Believing that this notice will be sufficient, we will say no more on the subject just now.
Scared.—One night last week some boys invaded the orchard in the rear of the "Northern Hotel," for the ostensible purpose of possessing themselves of some of the fruit. While some were busily engaged in the trees a shot was fired from somewhere in the orchard, causing a perfect stampede among the robbers, one of whom lustily shouted he was shot. We have not heard of any serious injuries, but we would warn the boys to be careful lest these adventures should not all end in smoke!

Honey's Improved Fanning Mill!

We desire to call the attention of the farming community to the above Fanning Mill now being manufactured at our works. It is an Established fact that the farmers of Ontario have in the past purchased largely of machinery which has been represented to them as perfect in every particular, and which too often proves utterly worthless, or unequal to the wants of the purchaser, but which he is compelled to retain against every desire or protest. This manner of dealing has been practiced in no class of implements more than in FANNING MILLS which the number of inferior mills now in use too clearly indicates. This objection, we desire to state, does not exist with us; on the contrary we are prepared to give

A WRITTEN GUARANTEE that THE ABOVE MILL is ALL THAT is CLAIMED FOR IT

To intending purchasers we would say, that Honey's Improved Fanning Mill is a perfect cleaner and chaffer. It will take out Wild Oats perfectly. It will take out ALL Cockle, Chess and other foul seeds, making a perfect sample of Market Wheat, and adds 5c to 8c per bushel to the value over and above that cleaned by any other Fanning Mill.

IT IS A MOST PERFECT SEPARATOR.

And will separate all the large kernels from the small and shrunken grains, and is warranted to make a perfect sample of Seed Wheat. It is very rapid in its action, and will easily make twenty-five bushels of seed wheat per hour. It separates all kinds of grain as well as seeds, and if Oats and Peas, or Timothy and Clover seed are mixed together and put through this Mill, they will come out perfectly separated. Every farmer can save the price of a Mill every year by saving the seed that collects on the barn floor and mangers, and putting it through this Mill. It will separate small and split Peas from large Peas, taking them from the chaff in the most perfect and speedy manner. A large number of these Mills have been sold to the most practical farmers of the country, who all declare, that for speed of work, and the perfect manner in which it is done, and the perfect adaptation of the screens to all kinds of Grain and Seeds, by which it is enabled to do a greater variety of work than any other Mill, that it is altogether

THE BEST FANNING MILL MANUFACTURED IN THE DOMINION
