

The Woodville Advocate.

"Pro Bona Publico."

WOODVILLE, SEPTEMBER, 15, 1881.

TO OUR SUBSCRIBERS.

With this issue we enclose accounts to all those whose subscription to THE ADVOCATE has expired. Many of our subscribers are very far in arrears, but as the times have been bad we have waited patiently. Now, however, good crops have again favored them, we hope to be remembered and our accounts settled at a very early day.

WHAT have the trustees of S.S. No. 8, Eldon been doing that no money is required this year for school purposes. Has successful financing given them sufficient for the year, if so, the rate-payers are to be congratulated in having such skillful trustees.

RUSSIA is a nice healthy state to be sure. It strongly recommends despotic institutions to all the world. Just fancy your letters carefully studied before being transferred to the rightful possessor, if they ever do find their way to their directed destination; your telegrams all subjected to the examination and control of the officials, and sent or not sent, yourself possibly sent to Siberia on the strength of them; your newspapers confiscated if the word "Russia" appears in them.

THE persecutions to which the Jews have been subjected in Central and Eastern Europe have resulted in a movement to obtain land in Syria from the Porte for them. All the great journals of Europe are owned or controlled by Jews. They hold the purse-strings of Europe. They are the kings of finance and of trade on that Continent, and won't be driven out of Europe and of the great European capitals by a score of such persecutions as they have had to endure during the past year or so.

THE new version of the New Testament as published in the United States has undergone a change from the version published in England, which is likely to produce strange results. In the Oxford edition the suggestions of the American translators were noted and placed at the end of the book. This it appears did not please the American divines, and the edition issued in the United States reverses this arrangement by placing the American suggestions in the text and the English translators' versions at the end in the form of notes.

PORTAGE LA PRAIRIE, Manitoba, objects to be called any longer a hamlet, as it was described in 1877. It is now a flourishing town. The six stores have increased to sixty, amongst which are sixteen general stores, five hardware and tin shops, two furniture and two boot shops. There are also five blacksmiths' shops, seven hotels, besides boarding-houses, two watchmakers, three bakers, three butchers, three banks, and numerous other businesses, together with a telegraph and express office—the whole forming a compact and solid town, second to none in the

province. The greater part of this growth has taken place since it was incorporated in January of the present year, not less than 250 houses having been erected since that month. That is the way "this Canada of ours" is being developed.—Mail.

VERY little Scotch legislation was effected last session, but amongst that was a much called for and most beneficial Act by which all women marrying after the 18th ult. will have secured to themselves absolutely, under their own control, and unaffected by the debts or deeds of their husbands, their whole moveable or personal estate, whether acquired before or after marriage, so long as kept distinct, and not allowed to merge among that of the husband. As regards marriages contracted prior to that date, the parties can obtain the benefits of the Act by executing and registering a mutual deed, though without that deed all the personal property which the wife may acquire after the passing of that Act will be thereby protected to her. In the case of the wife lending money to her husband, and he becoming bankrupt, she will hereafter rank like an ordinary creditor.

PRESBYTERY OF LINDSAY.

The Presbytery of Lindsay met at Beaverton, on Tuesday, 30th August, Rev. Jno. McNabb, moderator, pro tem. Eight ministers and eight elders present. Rev. W. Lorhead was appointed moderator for the year. Messrs. A. Cuthbertson, A. G. McLachlan, John Currie, R. Stewart and D. Bickell delivered discourses, which were sustained and the students certified to college. Mr. A. B. Dobson, having given his trials for license which were sustained, was in due form licensed as a probationer. Various reports were given in, and other routine business attended to. Considerable time was spent in connection with Mission Stations and the supplemented conjugations, both as to clauses for past and grants for the future. Also in regard to supply of vacancies during the winter. The next regular meeting appointed to be held at Woodville, on Tuesday, November 29th, at 11 a.m.

Thanks were voted to the friends at Beaverton for their kindness to the members. J. R. SCOTT, Pres. Clerk.

AN APOLOGY.

To the Editor of The WOODVILLE ADVOCATE: SIR.—In your issue of the 1st inst., I notice a letter from Mr. Jas. Ellis in regard to the post script in my advertisement. The London Mutual has a rule permitting an agent to take risks in another's territory adjoining his own, if he does not go more than the length of two ordinary concessions into it. Some years ago Mr. Ellis ignored the limit of two concessions, and on complaint being made the Board decided that for the future, so far as me and I were concerned, we should not cross over into each other's territory at all; and there is a further rule as follows: "Agents are not permitted to take risks insurable by this company, or for other companies, either in their own or any other territory." How Mr. Ellis has observed these rules, let the customers in my territory answer. I shall now forward the correspondence on this matter to the Head Office and I have no doubt Mr. Ellis will hear from that quarter in due course.

Yours Truly, S. CORNELL.

A BLACK LIST.

We should be sorry if any names appended are those of men who, from adverse circumstances, have been unable to pay. We do not think however that such is the case, as ample time has been given to each party to settle. We shall continue this list until accounts are settled and intend adding others whom we have notified, if not paid before our next. We hope our readers will note the names in this list for their own protection.

THE SADDEST OF SIGHTS—the grey hairs of age being brought with sorrow to the grave is now we are glad to think becoming rarer every year as the use of Cingalese Hair Restorer become more general. By its use the scanty locks of age once more resume their former color and the hair becomes thick and luxuriant as ever, with its aid we can now defy the change of years, resting assured that no Grey Hair at any rate will come to sadden. Sold by all druggists at 50 cents per bottle.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

FARMERS READ THIS.

HONEY'S IMPROVED FANNING MILL.

We desire to call the attention of the farming community to the above well known Fanning Mill, now being manufactured at our works. We are prepared to give

A WRITTEN GUARANTEE THAT OUR MILL IS ALL THAT IS CLAIMED FOR IT.

It is a perfect cleaner, and chaffer. It will take out Wild Oats perfectly. It will take out all Cockle, Chess and other foul seeds, making a perfect sample of Market Wheat. It is a most perfect separator, and will separate all the large kernels from the small and shrunken grains. It is very rapid in its action. It separates all kinds of grain as well as seeds, and if Oats and Peas, or Timothy and Clover seed are mixed together and put through this Mill, they will come out perfectly separated. It will separate small and split Peas from large Peas, taking them from the chaff in the most perfect manner. The Honey Improved Fanning Mill and Separator, is acknowledged by all to be

The Best Mill Manufactured In The Dominion.

And in proof of this strong statement, we can furnish abundant testimonials from those having them in use. To intended purchasers we would say, come and see it for yourselves, and we feel confident you will be entirely satisfied that they are all they are represented.
