Gleanings From our Exchanges

PORT HOPE.

From the Times.

A STUFFED pig, weight about 15 ounces, but blessed with eight legs and two perfectly formed bodies, has been on exhibition in town the past few days.

SUDDEN DEATH.—Mr. John Craig, sen., one of Peterboro's oldest citizens died suddenly on the 6th inst. He was at work on the morning of that day in Lundy's tannery, where he had been employed for many years, when he was overcome with the heat, and within an hour breathed his last. Considering the oppressive weather for the past few weeks it is simply astonishing to have occasion to refer to this as the only instance of fatal collapse from this cause.

OUT ALL NIGHT.—The members of the Garrison Artillery will carry away with them from their camp in the park very lively recollections of the way in which they were accommodated during the first three days of their drilling. No blame attaches to the officers for the miserable management which compelled the men for want of tents to herd together under the trees, and for want of other conveniences to take their meals as they had the luck to do. The patience of the men was exemplary and astonishing.

PRICES UP.—The long continued drought has caused all kinds of articles used upon the household table to increase in cost, and the worst of it is that many producers and vendors will take advantage of the rise and forget when the ground becomes well saturated with moisture to go back to old prices. The commodities which have increased in cost are, unfortunately, those that are needed most by families, and for some time to come persons of moderate means will find it difficult to supply their tables even with absolute necessaries.

From the Guide.

OWING to the exceeding drought, citizens in different parts of the town have been obliged to have water drawn from a distance to keep some of their rare plants from perishing.

SHEEP KILLED.—Mr. Wm. Williams, 4th Con. of Hope—near Canton—had a number of very fine sheep worried by dogs on Sunday night last. It won't be healthy for any dog to go near his place for some time; he has his rifle loaded and ready for action. We don't blame him. There is no sheep by-law in force this year in Hope.

CAPT. MALCOLMSON, who was lost with his son on the ill-fated steamer Columbia, Lake Michigan, in the gale of Saturday last, was well known in this vicinity years ago when he was first mate of the steamer Magnet. He used to winter here with a brother-in-law, who lived on the Robertson Farm near Bletcher's Corners. He was a steady, industrious man, and was a general favorite with the travelling community. His widow and family will be left in comparative poverty, as the Capt. was peculiarly unfortunate of late in all his ventures. He and his brother John, who was drowned a year or two ago, purchased a steamer some time since and by the unfortunate bankruptcy of a Montreal firm that owed them a large amount, they

SHAME! SHAME!—Four boys lately went into the melon patch of Mr. Geo. Smith, gardener, Hope, and stole and destroyed his melons. Three of them are known, and their names will be given to officers of justice, unless they at once make restitution. One of these same boys has been before the Police Magistrate before, and it cost his father considerable in money to get him clear, besides the anxiety and annoyance. What makes the matter worse is, Mr. Smith is a man of over 70 years of age and dependant on his garden for a livelihood, and this dry season has been very much against him, too. Instead of destroying his garden, these boys should have assisted him; their parents are well able to do so. We trust they will make proper restitution.

OSHAWA.

From the Reformer.

A FALL DOWN CELLAR.—On Monday evening last Mrs. O'Keefe, residing on Duke street, dislocated her shoulder and sustained other injuries by falling through a trap door into the cellar.

SPORT.—Pigeons are very plentiful in the north-eastern part of East Whitby. Sportsmen are bagging them by the hundreds.

THE BEES IN OSHAWA, finding their usual supply of sweetness cut off by the drought, have commenced to raid the grocery stores,

ACCIDENT.—Mr. Lester Abrahams met with a painful accident on Monday last. He was chopping wood when the axe slipped, striking his left foot and inflicting a very bad cut. Drs. Hoig and McGill sewed up the wound, and the sufferer is now doing well.

From the Vindicator.

OSHAWA has quite an exhibit at the Industrial Fair this season.

FARMERS are now very busy drawing their barley and fall wheat, for which they are receiving high prices.

THE lake has a fair number of visitors now on Sundays who seem to enjoy the breezes and indulge in boating, etc.

THE improvements to St. George's church are being completed, and it is expected to be opened about the 25th inst.

THE schooner Caledonia ran on the rocks at Bluff Point on Thursday morning, and she now lies in a precarious condition. The dredge has arrived at the harbor, and will go to work at once.

OUR shade trees are beginning to suffer from the long draught. The ash trees in this locality have completely shed their leaves. The maples and other ornamental trees are looking parched and brown.

THE Amber Sugar Cane Syndicate have temporarily secured the building lately occupied by the McGill Works. It will be got ready as soon as possible. The crop here is fair but in some sections is a little short.

THE Council have decided to allow 2 per cent. to those who pay their taxes on or before the 14th day of October, after that date 2 per cent. extra will be charged. Those who pay half the taxes on the 14th Oct., have till the 14th of Dec. to pay the balance. After this date the taxes will be collected.

UXBRIDGE.

From the Guardian.

HAGGAS' system of locomotive water supply is now introduced on the Grand Junction Railway. Men from Uxbridge are also busy laying down the necessary machinery for railways in the U. S.

A FARMER from the Port was interviewing Mr. Councillor Weir, of Uxbridge as to how he made things grow as they could not raise crops in his neighborhood. After explaining matters, and telling his interlocutor that they fed their cows on water and they grew it. Mr. Weir gave as an instance that he threshed 29 sheaves of fall wheat and took three heaped bushels from them.

BAND CONCERT.—We are pleased to announce that on Wednesday September 12th, the second evening of the North Ontario Show—the Fire Brigade intend giving a grand musical entertainment, such as is seldom witnessed by an Uxbridge audience. We understand some half dozen of foreign talent have been secured for the occasion, the Band will be in its full strength, and will be assisted by the strongest orchestra ever seen here. As the Band are ever willing to give their services to any public gathering we trust that on this occasion they will have a full house.

LINDSAY.

From the Post.

THE bridge over the Midland crossing at the 2nd con. of Ops, destroyed by fire some time ago, has not been rebuilt, and the people of the neighborhood are greatly inconvenienced. The matter should be pressed upon the notice of Mr. Cox, the president of the road, and no doubt the bridge will be rebuilt at once.

DARING BURGLARY.—A bold burglary was committed at the Midland railway station here on Thursday night of last week. The door of the passengers' waiting room was found open by some of the employees early on Friday morning, and upon their going into the inner office they found the safe a total wreck, the ticket case and drawers broken open, and everything in confusion. It appears that the burglars effected an entrance to the waiting room by picking the lock off the door, and then made their way to the inner office where they at once set to work upon the safe. They punched a hole in the door of the safe near the lock, and put in a charge of powder. The charge must have been very heavy, for the door was blown to pieces, the glass in the windows near by broken, and the plaster knocked off the wall in places. They then broke open a drawer and took therefrom \$200 in cash, the amount received from the circus that day. An open drawer in another part of the safe contained \$60, but fortunately it was overlooked. Although the

ticket case and other drawers were broken open nothing has been missed. The police were on the ground promptly, and large numbers of citizens were attracted to the place to see the work of the thieves. It is supposed that the robbery was committed by some of the followers of Cole's circus, but there is no clue. The burglars were certainly not novices as they did their work well.

CANNINGTON.

From the Gleaner.

FOR MANITOBA.—We understand that Mr. Matthew Taylor left yesterday for Manitoba to "spy out the land." If pleased with it he will likely invest some capital there.

HYMENEAAL.—The marriage of Miss Mary M. Gillespie, eldest daughter of Dr. Gillespie, to Dr. Anderson, of Port Perry, took place at her father's residence on Wednesday evening, 7th inst., the nuptial knot being tied by the Rev. Joseph Elliot. The bride was tastefully dressed in a pink silk and cream satin, trimmed with orange blossoms. The bridesmaids wore white silk lustré, and white muslin, relieved with lace and satin trimmings. After the ceremony, the happy couple received the warm and hearty congratulations of relatives and friends. The rooms were tastefully decorated with evergreens and floral wreaths. The party then adjourned to the dining rooms, where a sumptuous repast was served. The chairs were ably filled by the host, M. Gillespie, Esq., W. Coulthard, Esq., and R. Edwards, Esq. After justice had been done to the good things provided, the tables were cleared and the party enjoyed themselves in dancing and other amusements until a late hour. The grounds were illuminated with Chinese lanterns. The happy couple left the same evening on their bridal tour. The bridal presents were numerous and valuable.

ORILLIA.

From the Times.

ONE day last week Michael Maloney, aged 15 years, had his fore finger taken off with a scythe at Tait's mill.

GAUDAUR was nowhere in the trial held for the single scull race at Toronto the other day, and only came in second in the Consolation, and second with Trickett in the double scull. His failure is a surprise and disappointment to his many friends here who expected him to give a better account of himself.

WHILE an Orillia lady and friend were walking in the Exhibition Grounds, Toronto, the latter went near a refreshment booth to get a drink of water when a large dog, that had been left on guard, sprang out on her and bit her severely on the arm, cutting through her clothing into the flesh. She was able to walk to the Asylum where the wound was dressed by the Medical Superintendent.

THE new Skating Rink is approaching completion and will be ready for the East Simcoe Agricultural Society's Exhibition, on the 29th and 30th September. It will be the largest rink north of Toronto and will be available for all purposes. It is the intention of the company to erect a large moveable stage so that the building can be used for concerts, theatrical performances, and all kinds of public entertainments. Special care has been taken to provide proper ventilation, so that skaters and on-lookers in winter will be able to enjoy these sports without incurring the risks they run on other occasions.

UFFINGTON.

From our own Correspondent.

Many families have been deprived of their homes during the fires of last week in this part of the country, but of late the fire had somewhat subsided till Friday, when it broke out in the lumber yards of Gravenhurst, and assisted by high winds the flames spread with great rapidity rendering the conflagration most terrible. This will be a very heavy loss for the Insurance Company as it was insured at a very high rate.

Our usually quiet village to the disgust of the inhabitants, has been greatly disturbed by two of our young pugilists venting their spleen on each other on Saturday evening. The combatants came off very safely, one having a black eye and the other a sprained finger.

At the last Division Court the case of Brown vs. the corporation of Cannington was tried, when judgment was given for the plaintiff, with costs.
