SELV-BINDERS are becoming quite common in this locality. Farmers find that even with their high price, money is saved by their use.

THERE is a loud call for more tenement houses in this village. Several families are now in want of residences and we feel sure that were suitable cottages erected they would prove a paying investment.

We are in want of an active girl about thirteen or fourteen years of age to learn type-setting. Must be able to read and spell well. Work light and fair wages to a good girl.

THE Uxbridge Guardian came to hand again last week in half sheet form. Mr. Pemberton, the worthy Proprietor has been exceedingly unfortunately lately. Being burned out during the great fire which occurred in that village lately, a new building was erected and on moving in, it collapsed, breaking the presses and converting his cases into a huge heap of "pi". Mr. Pemberton has our sympathy and we hope to see him vigorous as ever in a short time.

VERY few people know that a letter mailed in a hotel envelope which fails to reach the person addressed is sent at once to the dead letter office, notwithstanding the 10 days' return notice on the corner. If you stop at a hotel and use one of their envelopes, always mark out the name and insert your own if you want your letter again if it fails to reach the person addressed.

THE Stables and driving sheds of the Nipissing Hotel, Lorneville, were destroyed by fire on Monday morning last. The fire was discovered about 4 o'clock a. m., and is supposed to have been occasioned by some tramps having slept their over night and lighting a pipe. No other explanation can be offered for its occurrence at such an unreasonable hour.

To distinguish a good from a poor potato, take a sound one, pay no attention to its outward appearance, but divide it into two parts with a sharp knife and examine the exposed inner surfaces. If there is so much water or "juice" that a slight pressure would seemingly cause it to fall off in drops, you may be sure that it will be "aggy" after it is boiled. That is evidence of a poor potato, and don't you buy it. The following are the requisite qualities of a good potato: When cut into, the color should be a yellowish white; if it is a deep yellow it will not cook well. There must be a considerable amount of moisture, though not enough to collect in drops and fall off, even with moderate pressure. Rub the two pieces together, and if it is good a white froth will appear around the edges, and also upon the surfaces after they are separated. This signifies the presence of a proper amount of starch. The more froth the more starch, and consequently the better the potato; while the less there is the poorer it will cook. The quantity of the starchy element may also be judged by the more or less ready adherence of the two parts. If the adherence is sufficient for one piece to hold the other up, that fact is evidence of a good article. These are the experiments usually employed by experts when buying potatoes, and are the best tests that can be given short of boiling; but even they are by no means infallible.

Have you tried Holloway's Corn Cure? It has no equal for removing these troublesome excrescences.

Now that there is a reliable remedy for kidney troubles, half the torments attached to these complaints have been removed. For this let us be thankful, and to Dr. VAN BUREN'S KIDNEY CURE award all praise for having thus removed a hitherto considered fatal disease from our path. It is everywhere known to fail. Sold by all druggists.

There is no excuse for suffering from headache. Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unerring remedy, and only costs One Dollar a bottle. Holloway's Pills.—Indigestion and Liver Complaints.—The digestion cannot be imperfect or seriously disordered without the effects of such derangement becoming visible on the countenance. These Pills at once remove the disorder and its unpleasant consequences. They stimulate the digestive and assimilative functions, and consequently promote that great blessing—a good appetite. Holloway's Pills most satisfactorily remove all deranged or diseased action of the many organs engaged in extracting nourishment for our bodies from our various diets—as the liver, stomach, and bowels, over all of which they exercise the most salutary control. By resorting to an early stage of the malady to these purifying and laxative Pills, the melancholy and jaundiced dyspeptic is speedily restored to health and strength, and his sallowness gradually vanishes.

The progress of Medical enlightenment has led to the abandonment of many antiquated remedies of questionable value, and the adoption of newer and more rational ones. Prominent among the latter is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, the justly celebrated Blood Purifier, a comprehensive family remedy for liver complaint, constipation, indigestion, loss of physical energy, and female complaints.

Holloway's Corn Cure is the medicine to remove all kinds of corns and warts.

HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: the entire fulfillment of its promises.

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.
