# Motes and News.

New England alone there are 230 ers clubs, to which seventy two sand active members belong. There over twenty thousand volumns ting on Agricultural subjects in libraries. In the whole United es there are about 2,000 Agricul-Societies, with libraries of a total ,000 volumes and 360 journals of ulture. It is just on this point of cultural libraries that we fail in country. Every distinct farming nunity ought to have its reading , with the best agricultural jourand a library of the most imporworks on scientific farming, stocking, &c., which would, tend to ovement in farming.

E are pleased to note that the peo-Omemee are alive to the necesprotecting their village, to the f their ability from fire. # D. AGRICULTURAL SOCIETY.

FALL SHOW.

The Annual Fall Show of the above Society, was held at the village of Victoria Road, last Tuesday, and although there were not so many entries and visitors as expected, still the show was very good. The weather was all that could be desired, the day being remarkably fine and warm. The exhibit of

STOCK

Was rather limited, but we noticed some splendid sheep, and two really fine bulls of the Durham short-horn breed, the first prize animal being a splendid beast and in perfect order. The show of swine was very small, being confined to very few exhibits. The show of

HORSES .. Was very good in the various classes, a heavy draught team especially eliciting a large amount of admiration. In

POULTRY The exhibit was poor, both as to quantity and quality. The other departments of the exhibition, however, were better represented. In

GRAIN.

A large number of samples were exhi- 1 J. McKee, 2 do. Pair Polands, 1 E. bited, some of them being of very fine quality. The first prize Fall Wheat was the best sample of grain we have seen this season. The finest feature of the show, however, was the display of

Al! of which were remarkable fine and of immense size. We observed some Early Rose Potatoes which we are sure could not be beaten by, any exhibit in Toronto. The show of

FRUIT

Was not large, but the quality of the specimens shown were very fine. We noticed some very large apples, and also some good sized grapes. The number of entries in

BUTTER ..

Were many, and in quality equally as varied. The finest specimen of the article was discovered in some, "prints," which unfortunately were debarred from taking the prize, owing to not being put up in the required form rolls. However, it was highly recommended. Butter is an extremely hard article to judge impartially, and requires a person with a very keen taste; but we think the judges did fall justice in their awards.

LADIES' WORK,

As usual, was by far the most plentiful, a large number of handsome articles, both useful and ornamental, being exhibited. The first prize, Coverlet was which the cost of these inquiries a handsome piece of work, and fairly e met. If the accusations are deserved the award. A great variety of mottoes were also exhibited, many of them showing considerable taste in color and ingenuity in work; one production in this department especially called for that Toronto's Great Central attention-the "Lprd's Prayer" being worked on card with Berlin Wool. The display of

IMPLEMENTS

Was small. White & Bro., of Woodville, received first prize for Fanning Mill, of which there were three on the ground. Fred. Leas, of this place, also received the prize for Cutter, the only exhibit in that line present,

STILL THEY COME. - Dr. H. En. Ross, Kincardine, considers YELLOW OIL as staple an article as he has in his store, and as sure to sell as tea or sugar. Jas. Bobbin, Bobbinton P. O., writes :- "We have used HAGYARD'S YELLOW OIL, and find it answers every purpose for which it is recommended." There is nothing better for burns, bruises, scalds, etc. ; no better liniment in the world. Mil. burn, Bentley & Pearson, Proprietors, To-

To be thoroughly happy, you must be well. To be well, in flousands of cases, you should a take the great medicine, which relieves, regulates and renovates disorderly systems-Vic-TORIA BUCHU and URST. For Bright's diseases of the kidneys, diabetes and all diseases of the urinary system, its timely use is very beneficial. For sale by all dealers at \$1 per bottle.

The annual United Counties ploughing match will take place this year onthe farm of Mr. Hugh McCorquodale, west half Lot 3, in the 3rd Con. Eldon, on Tuesday, October 21st. We understand Mr. S. S. Peck, M. P., has given a handsome plow for competition.

Warning. - Last Sabbath evening some party or parties unknown entered. the driving shed of the Presbyterian . Church and stole two ivory rings from the harness of Mr. D. McCrimmon. This is not the first act of the kind that has been committed, and if the perpetrators are caught they will be punished a as rigorously as the law will allow.

Removal .- This week we have fost one of our best citizens, Mr. W. A. Silverwood, J. P., having removed to . Victoria Road. We believe Mr. Silverwood has purchased a large farm in that neighborhood and intends to go largely into stock raising. It is a business that has never been tried to any extent in this Township, and we hope it will turn out a success.

Communion Services .- The Sacrament of the Lord's Supper was dispensed in the Presbyterian Church last Sabbath morning. The Rev. Mr. Elliott, of Cannington, conducted the English CLASS. M. -LADIES' WORK .- Pair service and the Rev. Mr. Ross, the vices were characterized by their solemnity and impressiveness.

Aged persons are often troubled with derangements of the kidneys and urinary organs, and will be glad to learn that VICTORIA BUCHU and Uva URSI is prepared with the especial purpose of meeting these troubles, and making life happy to the aged. Those who have used it speak highly of it, and it is \*. highly recommended with confidence.

NERVOUSNESS .- A very great number of those in the middle and higher classes of society, who, without being ever actually sick, never know what real health is; who live constant y in a lower plane of living than is normal in man, who are weak all over, though not specially and constantly weak in any one organ, who may not experience piercing and grinding pain, yet suffer at times, if not always, that profound exhaustion which in many respects is worse than pain. Those in that lamentable state have always been relieved, and many permanently so by using the VICTORIA SYRUP OF HYPOPHOSPHITES, it being particularly adapted for those cases.
