TRAGEDY AT LAMBTON MILLS.

Fratriicide and Attempted Suicide—One Brother Shoots Another and then Poisons Himself.

Last Friday a most atrocious crime was perpetrated at the Village of Lambton Mills, about six miles west of Toronto...

The property over which the dispute occurred is said to be but a small place situated somewhere on the Humber flats, and scarcely worth the life of a good dog, far less that of a man.

It is not known if the murderer is yet under arrest, and neither the Toronto police nor the detectives seemed to know anything of the tragedy up to midnight.

The following is the verdict rendered by the jury in the case of Edward de Coursier, murdered by his brother Robert at Lambton Mills on Friday.

PEDESTRIANISM—THE ATLEY BELT—BOWELL THE WINNER.

New York, Sept. 27.—This was the last day of the match, and at 7.13 p. m. a most exciting spurt occurred, which drew out the most enthusiastic applause.

Rowell completed his 525th mile at 7.12 on the run. He was joined by Hart, who challenged the pace, and the moment they started they were joined by Hazael and Merritt.

A grand and most exciting race ensued. Side by side went Rowell and the negro at a ten-mile gait, which every moment was increased, and immediately behind them and trying to catch up were Hazael and Merritt, also side by side.

The great excitement and interest in the walk departed with the departure of Rowell, Merritt and Guyon, but there were 10,000 persons yet in the Garden, and Ennis received great applause as he went toward his 450th mile.

The final and official score of all the contestants is as follows:—Weston 455, Rowell 530, Hazael 500 and 1 lap, Guyon 471, Ennis 450 and 3 laps, Merritt 515, Hart 482 and 4 laps, Krohne 450 and 1 lap, Taylor 250 and 1 lap.

Among the topics discussed with great warmth at the recent grand council of the queer sect of Christians known as "Dunkers," were questions of dress and of "washing the feet."

The double method, in which one person both washes and wipes a brother's feet; and the single method, in which one only washes the brother's feet and lets the brother dry them as best he can.

A recent visitor to the Tiebborne claimant in prison says that he is reduced in size, and really looks a fine and fairly proportioned man, but that it would be difficult to gaze upon a more swarthy, sinister faced man among the convicts.

LONDON, England.—The Pall Mall Gazette concedes that the complaints of the Irish tenants are mostly genuine; that they are, for the moment, unable to pay rent; that they believe in the right to remain on the land in every event. If the general refusal to pay rent is followed by wholesale eviction, this will almost certainly be followed by a series of agrarian murders, and unless the Irish Executive is prepared to support the landlords by measures amounting to little less than the military occupation of a large part of the country, the landlords will have to choose between virtually conceding the tenants' claim and giving the signal for the outbreak of something hardly distinguishable from civil war.

LONDON, England.—The following has been received from St. Petersburg giving the Russian account of the battle at Geok Tepe between the Russian expeditionary forces and the Tekke Turcomans.—Intelligence has been received from Beaums that during the reconnaissance near Geok Tepe on 28th August the Russians encountered large masses of Tekke Turcomans strongly entrenched, who made a desperate resistance.

It has recently been very successfully demonstrated that the best quality of steel can be manufactured from Scotch pig-iron, as the Parkhead Forge proprietors have made several casts with extraordinary results. Four months ago, when the collapse of the Scotch iron trade was deemed certain in consequence of the great demand for steel rails and other things evasive of the Scotch iron trade, it was deemed expedient that the iron masters of the district should attempt the same regime as their Southern neighbors.

For other companies the uniform need not be the same in all schools, but each member must wear that adopted for the company to which he belongs.

THE STRENGTH OF STEEL RAILS were pretty thoroughly tested on the Grand Rapids & Indiana Railroad a few days ago. At a crossing which had been washed out by a freshet twelve feet of rail were left on both sides of the track without any support. Over this a heavy freight engine and several loaded cars passed in safety. The train was running at such a rate of speed that it could not be checked in time to avoid the crossing. One rail was found to be slightly fractured at one point, and both are slightly bent, but not enough to make them useless.

ANOTHER MISSING GIRL.—A young girl named Marha Philippot, between fourteen and fifteen years of age, the daughter of Mr. Richard Philippot, Union, disappeared from her home on Monday afternoon about four o'clock and has not since been heard of. She was an intelligent, good girl, and no one can account for her disappearance. This reminds one of the girl Maggie McVey, the Yarmouth girl, who has been missing from her home for six months. Although \$1,000 are offered for her discovery, no tidings has since been heard of her.
