A short time ago we sent out a large number of subscription and other accounts. We hope those who have received them will either send the amount by mail or call and pay them at an early date. Those to whom accounts have not been rendered will receive them soon, or if in town can call and get them. We hope now that money is beginning to circulate they will not forget to pay the printer.

A large assortment of Crockery, Lamps, and Glassware, opening out, at A. C. Campbell & Co's.

Swearing.—Many of our boys, and some who are old enough to know better, are in the habit of collecting on the streets after dark and indulging in the very manly qualification of swearing, much to the disgust of passers. Our constables ought to see into this matter as a few examples would not fail to have a very salutary effect.

New lot of Tweeds and Worsted Coatings arrived to-day, at Jas. A. Mitchell & Co's.

Accident.—A son of Mr. Burnes met with a rather peculiar accident on Tuesday evening last. He was playing with some other boys on the street and did not observe in time to get out of the road Dr. Clarke's horse and buggy. The boy ran in front of the horse, causing it to rear up, kicking him on the forehead and inflicting a rather bad wound.

Accounts are now ready. All parties indebted to A. C. Campbell & Co are requested to call for their accounts.

Social Nuisance.—We are asked to complain of a certain individual who is in the habit of making himself obnoxious, especially to the young ladies, by carefully treading on their pet corns whenever he chances to meet them on the street. He is hereby warned that this conduct will not long be tolerated and the sooner the subject of "right-of-way" is settled the better it will be for that naughty boy.

# Honey's Improved Fanning Mill!

We desire to call the attention of the farming community to the above Fanning Mill now being manufactured at our works. It is an Established fact that the farmers of Ontario have in the past purchased largely of machinery which has been represented to them as perfect in every particular, and which too often proves utterly worthless, or unequal to the wants of the purchaser, but which he is compelled to retain against every desire or protest. This manner of dealing has been practiced in no class of implements more than in FANNING MILLS which the number of inferior mills now in use too clearly indicates. This objection, we desire to state, does not exist with us, on the contrary we are prepared to give

**A WRITTEN GUARANTEE that THE ABOVE MILL is ALL THAT is CLAIMED FOR IT**

To intending purchasers we would say, that Honey's Improved Fanning Mill is a perfect cleaner and chaffer. It will take out Wild Oats perfectly. It will take out ALL Cockle, Chess and other foul seeds, making a perfect sample of Market Wheat, and adds 5c to 8c per bushel to the value over and above that cleaned by any other Fanning Mill.

**IT IS A MOST PERFECT SEPARATOR,**

And will separate all the large kernels from the small and shrunken grains, and is warranted to make a perfect sample of Seed Wheat. It is very rapid in its action, and will easily make twenty-five bushels of seed wheat per hour. It separates all kinds of grain as well as seeds, and if Oats and Peas, or Timothy and Clover seed are mixed together and put through this Mill, they will come out perfectly separated. Every farmer can save the price of a Mill every year by saving the seed that collects on the barn floor and mangers, and putting it through this Mill. It will separate small and split Peas from large Peas, taking them from the chaff in the most perfect and speedy manner. A large number of these Mills have been sold to the most practical farmers of the country, who all declare, that for speed of work, and the perfect manner in which it is done, and the perfect adaptation of the screens to all kinds of Grain and Seeds, by which it is enabled to do a greater variety of work than any other Mill, that it is altogether
