Advertising.—A prominent business
man remarks:—It is manifestly foolish
to wait for accidental business. The
shrewd man will create business. He
will create it by some means of adver-

that in no other way can he reach so
many readers as by advertising in a
live paper.

Improvement.—The Councils of Mari-
posa and Eldon have made a grant for
the purpose of lowering the hill in
front of Mrs. Morison's residence, and
grading the road in that vicinity. We
believe Mrs. Morison has also contri-
buted towards the work which will be
immediately commenced. This will be
a decided improvement to the road and
one which we are sure will be appre-
ciated by the villagers, as every Spring
and Fall the road in that place has
been very bad.

Honey's Improved Fanning Mill!

We desire to call the attention of the farming community to the above Fanning Mill now being manufactured at our works. It is an Established fact that the farmers of Ontario have in the past purchased largely of machinery which has been represented to them as perfect in every particular, and which too often proves utterly worthless, or unequal to the wants of the purchaser, but which he is compelled to retain against every desire or protest. This manner of dealing has been practiced in no class of implements more than in FANNING MILLS which the number of inferior mills now in use too clearly indicates. This objection, we desire to state, does not exist with us, on the contrary we are prepared to give

A WRITTEN GUARANTEE that THE ABOVE MILL is ALL THAT is CLAIMED FOR IT

To intending purchasers we would say, that Honey's Improved Fanning Mill is a perfect cleaner and chaffer. It will take out Wild Oats perfectly. It will take out ALL Cockle, Chess and other foul seeds, making a perfect sample of Market Wheat, and adds 5c to 8c per bushel to the value over and above that cleaned by any other Fanning Mill.

IT IS A MOST PERFECT SEPARATOR,

And will separate all the large kernels from the small and shrunken grains, and is warranted to make a perfect sample of Seed Wheat. It is very rapid in its action, and will easily make twenty-five bushels of seed wheat per hour. It separates all kinds of grain as well as seeds, and if Oats and Peas, or Timothy and Clover seed are mixed together and put through this Mill, they will come out perfectly separated. Every farmer can save the price of a Mill every year by saving the seed that collects on the barn floor and mangers, and putting it through this Mill. It will separate small and split Peas from large Peas, taking them from the chaff in the most perfect and speedy manner. A large number of these Mills have been sold to the most practical farmers of the country, who all declare, that for speed of work, and the perfect manner in which it is done, and the perfect adaptation of the screens to all kinds of Grain and Seeds, by which it is enabled to do a greater variety of work than any other Mill, that it is altogether

THE BEST FANNING MILL MANUFACTURED IN THE DOMINION.

In proof of this strong statement WE ARE PREPARED TO FURNISH ABUNDANT TESTIMONIALS FROM THOSE HAVING THEM in use. To those contemplating purchasing we would say,

COME AND EXAMINE IT FOR YOURSELVES!

As we feel confident you will be entirely satisfied they are all they are represented.
