OMEMEE.

From the Hera'd.

THE HIGH School .- On Monday evening lot Mr. Jas. Lumsdon, Head master for the Onemce High School, arrived and entered upon his duties on Tuesday morning. The s hool has a very fair attendance. The re tiring mester, Mr. John Shaw M. A., has o enjand the position for upwands of nine tan years and has turned out many excel. leut scholars during his long engagement. We doubt if there are more than two or three High School teachers in the Province twin have enjoyed the contidence of the pablic for so long a period.

FOR THE SHANTIES. - On Saturday last a gang a eighty Frenchmen, under the command of Mr. M. B yd, of B bery gem. passed through here on that Midland railway. Our informant says that they were all dressed alike in grey full cloth and looked like an army of Zulus as they marched four ' tleep up Kent street, Lindsay, for the Victoria railroad station.

ACCIDENT .- We are sorry to have to chronicle a severe accident which happened to Rev. E Barrass, M. A., of this village. He was about to enter the gato at his residence when he accide stally slipped and fell to the "round his back co ning in contact with the e ve of a plank randered him very lame. The reverend gentleman informs us that he suffered the most excruciating pain for some time after the accident. We are glad to hear that | bad condition. he is r. pi lly recove ing.

PORT HOPF.

From the Guide.

IN CLOVER. - One of the conductors of the Midland Railway, it is currently reported, has fallen heir to \$200,000 by the death of relation. Another ex-employee, an engine driver, has discovered a gold mine, his share of which is valued at \$200,000.

WATERWORKS EXTENSION .- The iron for the vaterworks extension has been purchased from the St. Lawrence foundry, Toronto, and will be delivered at once. The laying cown of the pipes will begin as soon as the i:on acrive.

A SMASH-UP. - There was another big smash on the Grand Trunk Railway last week at Highland Creek. One of the wheels of a refrigerator car broke and threw a numher of others off the track and blocked the road so that all traffic was delayed for a night. The local and express from the west did not arrive here until eight o'clock in the morning. We understand no one was hurt.

From the Times .

RAISE IN WAGES .- The 'Longshoremen have made a demand for 25c an hour instead of 20c, which has been generally complied

A young man named George Crnikshanks, a son of Lewis Crnikshauks, bailiff, of Trenton, committed suicide on the 15th inst., on his far n near Stirling, by taking a dose of Paris green.

THE dredging of the harbour still continues. The Nithsdale was yesterday working alongside the Queen's wharf, and is doing good service. The town dredge has been laid up for the winter.

IRRAGULAR. - The Line boats have been very irregular in their time for the last week. owing to storms which have prevailed. The Norseman had to forego one two trips, not caring to face the sea.

M. J. W. HINMAN, of Winnipeg, was mar ried last evening to Miss Clara Whiting, of this place. The happy couple left for Winnipeg on the late train last evening. The best wishes of a large number of friends to with them to their new home in the west.

Norostous Barney Finnigan, who was brought before Judge Burnham on Friday last, was remanded to Monday last, when he was tried and sentenced to four years imprisonment in the Penitentiary for stealing the boots, and two years more for stealing the money from Mr. Littlejchn, altogether seven vears.

A VERY strange and novel sight was seen on Simcoe street one day last week, namely, two men and a boy lugging along as many ducks as they could carry. They had been to the lake and shot them. Some of our dlsheartened sportsmen will, we hope, take heart at this cheering news and try again before the season is over to "get a duck."

Ostrawa has a Band of Hope with a membersh p of over four hungred. The little people meet once a month in the C. M. Sunday School, and the last gathering put twenty four new names on the books. Is there a little Band in the Dominion of Canada a beat this ?

MR. R M. GOCTMAN, of this office, has shown us a very fine specimen of the new potato, called the Mammoth Pearl, weighing one pound and fourteen ounces. Who can beat it?

HEAD LAKE,

From Our Own Correspondent.

LUMBERING, - Three lumber shanties were started north of the Lake last week, each employing on an average fifty men.

DEKE HUNTING, - Deer hunting seems to be the occupation of a number around here lately. Mr. Richard Peel shot a large deer last Friday and shot three times at another In Head River and never hit it. He must have been excited.

PHOTOGRAPHER. -- Mr. Frenk 'Crawford is coming up here this week from Norland to take pictures. He has been looked for long time and he will no doubt be hailed with great joy.

Going A Courting,-A young man from Norland was up here last Sunday to see his fair one, and when starting home he fell off his horse in the mud. He went home much ashamed. We hope he will have courage enough to come back.

BEXLEY.

From our own Correspondent.

MR. RICHARD PEEL, formerly of this place, who left for Manitoha about a year ago, arrived here last Saturday. He gives a very good account of that province and inends returning in about a month.

We are blessed with an over-abundance of rain at present, there scarcely being a fair day now at all, If part of it had come about a month or so ago, it would have been made very welcome. The roads are in

HUNTERS are numerous, the bang of the gun being heard in all directions. WILD gee e are numerous.

GLENARM.

From our own Co. respondent.

NINE young men from this neighborhood left for Michigan last week. The party comprises Messrs. James Gilchrist, Thomas Ferguson, John McMillan, Neil Sinclair, Alex. McLean, Peter Graham, Alex. Sinclair, Colin Murchinson and John Brown. They intend working in the lumber woods all winter.

Mr. Evans Dewill, a gentleman of this place has recently exhibited a gun of his own invention that will attract much lattention among the gun-smiths of this period, and which if it possesses all the virtues that are claimed for it, is certainly one of the most important inventions of its kind ever brought to notice. It is extremely simple in its construction, and is a wonder to those who have witnessed it how it has been kept so many years in abeyance. At a recent trial with the Winchester and Evans guns its power was unequalled as an army gun, From a careful investigation we are satisfied that Mr. Dewill's invention wil accomplish large results at the lowest rate of cost, and we hope he may be successful in the work he has undertaken. A patent is applied

IMPRESSIONS OF GRAVENHURST.

To the Editor of the Woodville ADVOCATE : Str,-The writer made his first trip to Gravenhurst, Muskoka District, on Sunday, 18th inst. It being dark when the train left Orillia nothing could be seen that evening. Three hotel 'busses were in waiting at the station on arriving at Gravenhurst. was agreeably surprised next morning at the appearance of the village. which is pleasantly situated on high and gently rolling ground, and mostly between two lakes, Muskoka to the west and Gull Lake to the east. The population of the village, I was informed, is between 1600 and 2000; it is a hive of industry, there being in the village fourteen saw and shingle mills. There are quite a number offdry goods, grocery, bardware stores, waggon shops, blacksmith shops, tive well appointed hotels, and last but not least, four churches, belonging to the following denominations: Church of Bexley P.O. intends resigning both offices at | Roman Catholic. I was present at the Engthe end of his present term. There are lish church on last Thursday evening when two infants were christened, and listened to an able and impressive thanksgiving sermon by the resident pastor, Rev. Mr. Lloy I. This church had been but recently dedicated, and is a tasty and comfortable edifice. Large quantities of lumber and shingles are carried from this point over the the hole the other horse was at last rescued, | Northern Railway. There is an enormous quantity of lumber there ready for shipment, some fifteen millions of feet, so I was intop was grown over with grass except about formed, beside an immense quantity of shingles. The business men of the place seem to be doing well, and seem to be well satisfied. The lake scenery here is very pretty. The lakes in most part are walled in with immense and high granite rocks, and the numerous islands in them are huge rocks. The mill owners of the place and neighborhood are preparing to bring down increased quantities of logs for next season's cut. Saw a few fairish farms, but that neighborhood is better adapted for grazing than wheat growing. The land grows very good coarse grains, hay and roots The writer was shown specimens of ore Ly Mr. Jacob Davidson, who is doing a pashing business with his saw mill, four miles from Gravenhurst. It is altogether likely that rich finds of ores will be made in that region of country, for if there is not, I am not so sure of the future of the neighborhood after the timber supply will be exhausted. But the people there expect the timber to last for a number o years to come. At Thompson & Co's mills at Longford,
