**Woodville Fall Show.**

A Very Successful Day.

As a usual thing Woodville Fall Show is good and consequently the public do not hesitate in turning out to visit it. This year was certainly no exception to this and throughout, the affair was quite successful. The exhibits were good and numerous, the day was fine and the attendance large consequently all the elements necessary for an excellent show were present. The show of stock this year was hardly up to that of former occasions but in other departments such as Poultry, Roots and Vegetables with the several departments of the Hall the display was good. In Poultry particularly was the improvement noticeable most of the birds being in excellent trim and true to name. In roots, this section, if those shown here are a fair sample, can boast of having the best in the district, for we have not seen any elsewhere that could approach the exhibit shown either in size or quality. Everything passed off quietly and we believe without complaint. Below will be found the prize list for which we are indebted to the energetic Secretary, Mr. J. C. Gilchrist:

**HORSES.**

**DRAUGHT.**

Draught Team—1st J Risdon, 2nd G. Ross.  
 Mare and Foal—1st G Ross, 2nd J. Wilson.  
 Foal of 1887—1st C Ross, 2nd J. Wilson.  
 2 yr old colt—1st J Campbell, jr., 2nd D. Grant.

**GENERAL PURPOSE.**

Team—1st Ross & McKay, 2nd J. Bolton.  
 Mare and Foal—1st D Grant, 2nd J F McBrine.  
 Foal of 1887—1st D Grant, 2nd J F McBrine.  
 2 yr old colt—1st A McKay, 2nd C Francis.  
 1 yr old colt—1st D McIntyre, 2nd D Grant.

**ROADSTERS.**

Mare and foal—1st W Thorndike, 2nd D McKay.  
 2 yr old colt—1st F McEachern, 2nd G Maysee.

**Fenetanguisheno.**

A dense smoke has been enshrouding the town during the past week rendering the air difficult to breathe. It comes, no doubt from the extensive bush fires along the north shore.

Mr. Beck recently bought an extensive timber limit on the north shore paying for it \$80,000.

Mr. D. W. Campbell, of McGill College, Montreal delivered an interesting lecture on London, illustrated by one hundred beautiful views, on the evening of Sept 22nd, in McCrosson's Hall, in aid of the Presbyterian Church Building Fund. Mr. Campbell is an intelligent lecturer and the evening was well spent in listening to him. He delivered his lecture on "A trip around the world" on the evening of Sept. 80th, in Midland.

An interesting ceremony took place in town on Thursday Sept 22nd in the afternoon. It was the occasion of the laying of the corner stone of the new Presbyterian church. The stone was laid by the Rev. D. J. McDonnell, of Toronto, who handled the "silver trowel" very cleverly.

**REASONINGS ON DEBILITY.**

Under this title a great deal has been written, and yet the substance of the whole thing "lies in a nutshell," or rather in four words—"impurity of the blood." This is the source of debility or weakness, whatever may be the proximate or immediate cause of the mistake, and they are numerous. When Holloway directed his attention to this important and not unfrequent state of ailment, he found numerous theories existing; but instead of being led away by vain disquisitions, he restricted himself to the consideration of what Nature requires for the maintenance of health and strength in the human system. As he said, the stomach must reduce food into a wholesome pulp, which, in due course, is converted by admixture with the bile secreted by the liver into a milky substance, from which the nutritious portion is taken up by the absorbents of the bowels and conveyed through its appropriate vessel (the thoracic duct) to the heart, through which it passes to the lungs and becomes blood, circulating through every part of the system, whose wear and tear it repairs, renews and invigorates—"if it be pure." If this be not the case, then the body wastes—every part of it shrinks for want of nutriment—the vital stamina fail—and there is general debility or weakness. It was this accurate and simple view of the subject which led to the composition of those Pills which the world had gladly accepted from Holloway, and found to be such a perfect restorative of broken and dilapidated constitutions—from whatever cause proceeding—whether the result of unbridled licentiousness and vice, or the consequence of exhausting and poisonous mineral medicines. Fortunately for humanity was the day when Thomas Holloway inaugurated his new mode of treatment. How many loving parents have since then blessed him for the preparation of a medicine which arrested the grip of Death when it was fixing its inexorable talons in the hearts of their sons and daughters, which restored health and strength to worn organs, and, as it were, gave a new lease of life to bodies apparently doomed irrevocably to lingering decay and piecemeal dissolution! For, if there be one class of diseases more than others in which Holloway's Pills have been most successful, it is "General Debility.—[Every Man his own Doctor.]"
