Parties having old standing accounts of 1878 are requested to call and settle immediately or they will be placed in Court for collection. This is positively the last notice. Rod. Campbell.

Brisk business makes glad the heart of the merchant, and to create brisk business the latter should not forget to advertise.

The young lady in town who ate wedding cake and put a piece under her pillow, says she would rather die than marry the man she saw in her dream.

It's wonderful how soon the snow, after being paddled by the feet of many pedestrians, will freeze into ice and trip up those who walk over the side-walk.

A number of hogs and other animals are allowed to prowl the streets much to the disgust of pedestrians. With two pounds in town this had not ought to be.

A man out west died, owing four years subscription to his newspaper. The editor appeared at the grave and deposited in the coffin a palm leaf, a linen duster, and a thermometer. Awfully suggestive, wasn't it?

The shades of night were falling fast,  
 As up King street a young man passed;  
 He stubbed his toe and down he fell,  
 And as he struck he muttered,—

well, not exactly his Sunday school lesson, but what sounded very much like a quotation from it.

Fenelon Falls has instituted a Bell Fund for the purpose of procuring a Bell. Could not a series of Concerts or entertainments be arranged during the winter to furnish us with this much needed article? We are sure our villagers would respond liberally towards it.

**Honey's Improved Fanning Mill!**

We desire to call the attention of the farming community to the above Fanning Mill now being manufactured at our works. It is an Established fact that the farmers of Ontario have in the past purchased largely of machinery which has been represented to them as perfect in every particular, and which too often proves utterly worthless, or unequal to the wants of the purchaser, but which he is compelled to retain against every desire or protest. This manner of dealing has been practiced in no class of implements more than in FANNING MILLS which the number of inferior mills now in use too clearly indicates. This objection, we desire to state, does not exist with us, on the contrary we are prepared to give

**A WRITTEN GUARANTEE that THE ABOVE MILL is ALL THAT is CLAIMED FOR IT**

To intending purchasers we would say, that Honey's Improved Fanning Mill is a perfect cleaner and chaffer. It will take out Wild Oats perfectly. It will take out ALL Cockle, Chess and other foul seeds, making a perfect sample of Market Wheat, and adds 5c to 8c per bushel to the value over and above that cleaned by any other Fanning Mill.

**IT IS A MOST PERFECT SEPARATOR.**

And will separate all the large kernels from the small and shrunken grains, and is warranted to make a perfect sample of Seed Wheat. It is very rapid in its action, and will easily make twenty-five bushels of seed wheat per hour. It separates all kinds of grain as well as seeds, and if Oats and Peas, or Timothy and Clover seed are mixed together and put through this Mill, they will come out perfectly separated. Every farmer can save the price of a Mill every year by saving the seed that collects on the barn floor and mangers, and putting it through this Mill. It will separate small and split Peas from large Peas, taking them from the chaff in the most perfect and speedy manner. A large number of these Mills have been sold to the most practical farmers of the country, who all declare, that for speed of work, and the perfect manner in which it is done, and the perfect adaptation of the screens to all kinds of Grain and Seeds, by which it is enabled to do a greater variety of work than any other Mill, that it is altogether
