FARMERS take warning, and be on the lookout for shoddy peellars as some of these gentry are hovering in this vicinity. AN exchange remarking on the beauties of astronomical science says:—We are told that if a railway were run from the earth to the nearest fixed star, and the fare was one penny for every hundred miles, and if you took a mass of gold to the ticket office equal to the national debt—\$3,800,000,000—it would not be sufficient to pay for a ticket to the nearest fixed star aforesaid. If this be the case, it matters very little to us whether such a railroad is ever constructed. It would be mighty discouraging to go to the ticket office with a mass of gold equal to \$3,800,000,000 and be informed that the fare was \$5,678,032,001. If the ticket agent would not trust until we got back, we'd be compelled to forego the trip.

HONEY'S IMPROVED FANNING MILL.

We desire to call the attention of the farming community to the above well known Fanning Mill, now being manufactured at our works. We are prepared to give

A WRITTEN GUARANTEE THAT OUR MILL IS ALL THAT IS CLAIMED FOR IT.

It is a perfect cleaner, and chaffer. It will take out Wild Oats perfectly. It will take out all Cockle, Chess and other foul seeds, making a perfect sample of Market Wheat. It is a most perfect separator, and will separate all the large kernels from the small and shrunk grains. It is very rapid in its action. It separates all kinds of grain as well as seeds, and if Oats and Peas, or Timothy and Clover seed are mixed together and put through this Mill, they will come out perfectly separated. It will separate small and split Peas from large Peas, taking them from the chaff in the most perfect manner. The Honey Improved Fanning Mill and Separator, is acknowledged by all to be

The Best Mill Manufactured In The Dominion.

And in proof of this strong statement, we can furnish abundant testimonials from those having them in use. To intended purchasers we would say, come and see it for yourselves, and, we feel confident you will be entirely satisfied that they are all they are represented.
