

# Gleanings From our Exchanges.

AND OTHER SOURCES.

## OSHAWA.

From the Reformer.

**WATER WHEELS.**—The Joseph Hall Manufacturing Company received a letter the other day from a mill owner in Adelaide, Cape of Good Hope, inquiring for water wheels.

**CAUGHT IN THE ACT.**—On Monday evening last as Mr. John Shea was returning from tea he discovered a man stealing a shawl from the store of Messrs. Shea & Shirley. He immediately collared the thief and held him until assistance arrived. The prisoner was then handed over to the court. He was brought before the police magistrate on Tuesday morning, when he gave his name as Thomas Jones. He was found guilty and sentenced to six weeks' hard labor in the county gaol.

## LINDSAY.

From the Warder.

**FOR MANITOBA.**—Mr. D. H. Cooper, of the firm of Smith & Cooper, barristers, &c., intends leaving for Winnipeg shortly, where he will enter on the practice of his profession.

**HALLOWE'EN.**—Hallowe'en, as usual, was celebrated in the old fashioned way. In some instances windows were broken and gates carried off. The boys appear to think the destruction of property quite lawful on Hallowe'en much to the annoyance and loss of the unfortunate victims.

**RETURNED.**—Rev. Father Stafford has returned from an extended tour in Europe, having arrived home on Wednesday evening. His friends all over the country will be pleased to know that he is very much improved in health.

**SUDDEN DEATH.**—A poor paralysed fellow, known as "Bobbie" McLean about the town for years, was found dead in his bed on Tuesday morning last. "Bobbie" evidently had passed away in his sleep, and, as is supposed, from disease of the heart.

## PORT HOPE.

From the Guide.

The new letter boxes are found to be a great convenience and are much used by citizens living a good distance from the post office.

**GO' HIS HAND SMASHED.**—Mr. Robert Glass, section boss on the Midland Railway, while engaged in laying steel rails in the yard here, the other day, got his hand badly smashed by the falling of a rail on it. There were no bones broken, but he will be laid up for some time by his hurt.

**TAFFY PULLS.**—Several "taffy pulls" were held in town Monday night, and some of the pullers did not get home until the wee sma' hours next morning. The night watchman had an eye on them.

**ACCIDENT.**—Mr. Samuel Caldwell's son Willie—lot 11, 7th concession of Hope—on Saturday last had his leg broken. While driving a yoke of oxen attached to a stone-boat the team ran away, throwing the young man off and breaking the large bone of his thigh. A surgeon was called who reduced the fracture. The patient is doing as well as can be expected under the circumstances.

**FATAL ACCIDENT.**—Mr. Albert Trenouth, who lives on Lot No. 4, 6th Con. Hope, while returning from Port Hope, Wednesday of last week, was thrown from his wagon near his own farm and had his skull fractured. He died on Friday morning. Deceased was forty-one years of age. He leaves a wife, one son and an adopted daughter to mourn his untimely end. The funeral took place on Sunday at 2 p.m.

## UXBRIDGE.

From the Journal.

**DELAYED.**—The completion of the new Mechanics' Institute building is delayed on account of the scarcity of lime. The building was to have been finished a month or two since, but this unavoidable delay has deferred the completion of the block indefinitely.

**TYPHOID FEVER.**—A mild type of this disease has broken out in Uxbridge, and the town physicians have quite a number of cases on hand. In the township of Scott there are also several cases of this kind of fever as well as whooping cough. Over 300 cases are reported in Toronto. The cause of this disease is principally defective drainage, want of cleanliness, and back yards which are made the receptacle of kitchen refuse, and otherwise kept in a slovenly state.

Mr. JOHN A. ROSS, a former pupil of the Uxbridge High School, succeeded in winning a scholarship at Knox College, Toronto, for University College work.

## CANNINGTON.

From the Gleaner.

**THEFT.**—On Thursday night, the 27th ult., some person or persons stole a bag of peas and two ducks from the premises of Mr. George Dawson, on the 13th con. of

Brook. Petty thefts have of late been of frequent occurrence in that neighborhood, and certain parties living near are suspected of committing these depredations. Whoever the guilty parties are it is hoped they may be caught and brought to justice.

**FIRST IN THE LOCK-UP.**—On Saturday last, the notorious Jack Keith absorbed rather too much "wet groceries," and in consequence was feeling very glorious. For this, John secured the honor of being the first in the lock-up, where he languished all night and the following day, when, after hard begging, he was released from further punishment. John will likely visit Whitley the next time. On "Hallowe'en" night, two small boys were caught at some mischief, and were also accommodated with two hours in limbo to meditate on the evil of their ways.

## PETERBOROUGH.

From the Times.

**A PROBLEM.**—It will not be long until the advisability of lighting the town with electric light will be before the public. Gas then will only be confined to the Council Chamber and School Board, where it will be generated.

**ACCIDENT ON THE MIDLAND.**—Robert Deyell, of Cavan Township, on Friday night last jumped off the Midland express train south of Millbrook, while it was travelling at the speed of twenty-five miles an hour. He received several severe injuries. One of his thigh bones was broken, a shoulder dislocated, and one or two ribs crushed. His recovery is not at all certain.

**WATERWORKS.**—It is authentically stated that the preparations for commencing the waterworks operations are nearly completed and that we shall soon see the works progressing. Mr. Gamble, it is reported, is negotiating with the city of Belleville with a view of building waterworks there for both fire and domestic purposes.

**STATION IMPROVEMENTS.**—Preparations for the erection of a new freight house are rapidly going forward on the newly purchased property east of the Midland station. When this building is completed and the branch laid the convenience to both railway and the merchants will be very considerable. It is an improvement long needed. This movement will greatly relieve the present sidings from the crowding.

**MACADAMIZING.**—Street Inspector Johnson has at last begun to macadamize George street. Teams have been some days at work, hauling and levelling the broken stone that have so long been an eye-sore to the residents on McDonnell street. Thus two long wished for things are being accomplished. It is hoped that not only the broken stone heaps are to be all removed, but that the cobble stone near George street will also be removed and that the sides of the streets will be cleaned up.

## MIDLAND.

From the Penetanguishene Herald.

Mr. WM. CHEW is building a new skating rink 90x45 ft. self supporting roof on Midland avenue.

Mr. J. GARRET has bought a lot and has the brick on the ground for a new bakery for his son.

The B. C. L. and Transportation Co., H. H. Cook Manager, are getting out timber for a new mill, to be situated east of the present one, and about one third larger. They are also about building a new tug.

Mr. S. GANTON is erecting a new Waggon and Blacksmith shop at the rear of Mr. Horrell's store near King St.

A GENTLEMAN resident of Cobocook has caught five hundred weight of longie in Balsam lake within the last six weeks, running from 10 to 15 lbs. each.

## ARGYLE.

Mr. Rich. Fairman we learn has been engaged for this School Section, Mr. Wm. Campbell being engaged by Hartley Section.

## UFFINGTON.

From our own Correspondent.

Mr. Spence is renovating his dwelling and store, by building a veranda around it and rene ing the floor of the store house. Mr. Hall is also completing his house which was built a year ago.

A considerable number of the neighbors are having chimneys built in their houses, which have been very much deficient without them. This will be quite an improvement to our "hamlet."

The mails of this week have been more on time than usual as a different person has been carrying them. I believe 6 o'clock is the compulsory proper time for its arrival but it is most generally nearer 8 o'clock. This is very inconvenient, as some have to walk three and four miles to their respective homes at this time of night. I think if the law was put in force it would have a tendency to bring the tardy mail carrier on time.

The school in Section No. 4, Draper, which has been vacant for about a month is about to re-open again. The trustees have engaged a young lady from near Triggerville, as teacher.

## CAMBRAY.

From an occasional Correspondent.

The Cambray Total Abstinence Society was organized on Tuesday, Oct. 11th, and held its first public meeting on Tuesday, 1st November, in the Presbyterian church. The Rev. James R. Scott, president, called on the Rev. D. McDonald to open the meeting with prayer, after which the chairman addressed the meeting on the nature and work of the Society. Messrs. John Sinclair, Joseph Wilkinson and Robert Douglas made some remarks. The president then read a paper on "The Christian Tempter and Tempted Abstinence." The Secretary, Mr. John Irwin, entered the names of new members, an addition of eight to the roll. Arrangements were entered into for Music at future meetings. The next meeting to be held on Tuesday, the 15th inst., at 7 p.m., when an address may be expected from the Rev. D. McDonald.

## ELDON STATION.

From Our Own Correspondent.

The scarcity of the "indispensible" in Manitoba and the North West have in all probability disheartened our Lotharios, who had been some time ago contemplating a departure, and there is every probability that we have prudently decided to remain with *paterfamilias* another season.

The McEachern Bros. have their new dwelling house about completed. This is unquestionably the most substantial building in the township. D. Campbell, Jr., (Lot 18, 13th Con.) will shortly have his dwelling house completed. The external appearance of this house is very nice. Both buildings are of brick.

On Hallowe'en a posse of libertines took advantage of the tranquil hours to change the location of a few gates in the vicinity of Eldon Station. They *minused* some of all the gates, and supplied others with these articles to an excess. Their generosity on the occasion was so exuberant that they could not close their programme without capping the chimney of a certain house at the station with a barrel, once used for holding coal oil. What their motive in performing the last act was we cannot tell,

unless it was to make known to the passer-by that coal oil was for sale in the apartment underneath the *Rovino-Signum*. How these experts succeeded in placing the "Novel Advertisement" in its lofty position without arousing the inmates from their tranquility is the wonder of the neighborhood.

Dr. Basswood with his knapsack passed by Eldon Station a few days ago—Kate West another notable medicant, gave us an unwelcomed visit last week.—There is to be a meeting to-night at Eldon Station to discuss about the erection of a steam sawmill in this neighborhood.—School attendance very large.—Roads muddy.—No *dulseca* seekers falling in the mud here as reported elsewhere.

Every lady should see our New Dress Goods, 10 yards for \$1.00. McIntyre & Prior.

THEY ALL DO IT.—Everybody uses "TEA BERRY" for the teeth and breath, the newest, brigest, costliest little toilet gem extant. Try a 5 cent sample.

THE SADDEST OF SAD SIGNS—the grey hairs of age being brought with sorrow to the grave is now we are glad to think becoming rarer every year as the use of Cingalese Hair Restorer become more general. By its use the scanty locks of age once more resume their former color and the hair becomes thick and luxuriant as ever; with its aid we can now defy the change of years, resting assured that no Grey Hair at any rate will come to sadden. Sold by all druggists at 50 cents per bottle.
