A SIDEWALK is badly needed on Church street to the Methodist church. A single board is all the present allowance. Why cannot the lumber taken from the old sidewalk be utilized for this purpose. It would certainly be better than plowing through the mire. The church authorities would not object to having the walk if the material be provided.

THE T. & N. R. freight train "run off" on the 7th inst. occurred two miles to the south of Goodwood station. A MEDICAL authority says when you get chilled all over and away into your bones and begin to shiver and almost struggle for your breath, just begin in time and tribulation need not last long. Get some powdered borax and snuff the dry powder up your nostrils. Get your camphor bottle, smell of it frequently, pour some on your handkerchief and wipe your nose whenever needed. Your nose will not get sore, and you will wonder what has become of your cold. Begin this treatment in the forenoon and keep on at intervals until you go to bed, and you will sleep as well as ever you did.

A REAL NECESSITY.—No house should be without a bottle of HAGYARD'S YELLOW OIL, in case of accident. There is no preparation offered to suffering humanity that has made so many permanent cures, or relieved so much pain and misery. It is called by some the Good Samaritan, by others the Cure All, and by the afflicted an Angel of Mercy.

WRETRY boasts of some very fine plate glass windows now.

It cures Scrofula—it cures Liver Complaint—it cures Dyspepsia—it cures Female Complaints and purifies the Blood while it restores strength and vitality to the shattered system. C. R. Hall, Grayville, Ill., says:—"I have sold at retail price since the 4th of December last 156 bottles of Dr. Thomas' Electric Oil, guaranteeing every bottle. I must say I never sold a medicine in my life that gave such universal satisfaction. In my own case, with a badly Ulcerated Throat, after a physician pronounced it for several days to no effect, the Electric Oil cured it thoroughly in twenty-four hours, and in threatened croup in my children this winter it never failed to relieve almost immediately."

TYPHOID fever is very prevalent in the northern and eastern sections of South Ontario.

Horace Greeley's bad penmanship is passed into a prove b. No description of it without a facsimile of the writings could convey any idea of its illegibility. It is charitable, however, to the old philosopher to suppose that the fault lay with the pens he had been accustomed to use, but what a world of grief and trouble would have been saved to the comp. sitors if he had written his editorials with an Esterbrook Falcon Pen.

There is said to be good agricultural land between Lake Nipissing and the Ottawa.

MR. JONATHAN GOULD, of Uxbridge, has purchased for \$15,000 the splendid 200 acre farm from Mr. W. Sumnerville, of Stouffville. The farm is the west half of lot 11 and 12, in the 9th con. of Markham, only one mile from that village, and is considered one of the best farms in that splendid township.

A mild type of typhoid fever has broken out in Uxbridge, and the town physicians have quite a number of cases on hand. In the township of Scott there are also several cases of this kind of fever, as well as whooping cough. The cause of this disease is principally defective drainage, want of cleanliness, and back yards which are made the receptacle of kitchen refuse, and otherwise kept in a slovenly state.

THAT Penetang has been making steady and marked progress since the completion of the Northwestern railway is quite apparent, but in no year has it accomplished as much as in the past season, during which time upwards of forty buildings were erected, which is said to be the largest number for the same time in sixty years. This will readily explain the extensive trade that must be carried on in lumbering, that being, without the only source, to which our town can look for support. The agricultural trade is at a discount in consequence of the light soil in this section.

Holloway's Ointment and Pills.—Old Sores, Wounds, and Ulcers.—Fas res. Inness with

which Holloway's ointment removes all obstructions in the circulation of the vessels and lymphatics explains their ir. assistible success in healing old sores, bad wounds, and indolent ulcers. To insure the desired effect the skin surrounding the diseased part should be fomented, dried and immediately well rubbed with the Ointment. This will give purity to the foul blood, and strength to the weakened nerves, the only conditions necessary for the cure of all those ulcerations which render life almost intolerable. No sooner is this Ointment's protective powers exerted than the destructive process ceases, and the constructive business begins—new, healthy growth appears to fill up the lately painful excavated pit.
