On Saturday evening last, what came near being a serious accident happened in the neighborhood of the T. & N. R. Station. Peter McCuaig, employed at Mrs. Morrison's was going to meet the evening train, but mistaking the railway track for the road to the station he turned the horse's head in that direction. Fortunately the horse had not got far enough on the track when the train came up, as the engine threw horse, cutter and driver unceremoniously into the ditch, a broken shaft being the only damage sustained.
A large quantity of Flax Seed at Gunn Bros., cheap.
SEVERAL complaints have been made to us respecting mail service at Brechin Post Office. Letters and newspapers are reported to be detained there for long periods. One of our subscribers informs us that on calling for his paper a short time ago he received three which had lain there for some time, although he had regularly called for them. It would be well for the postmaster to be a little more accommodating. Country postmasters are undoubtedly important individuals, but a suffering public will not long permit themselves to be tyrannized over even by those officials.

BEAUTIFULLY ILLUSTRATED.
35th Year.

THE Scientific American!

THE SCIENTIFIC AMERICAN is a large first-class Weekly Newspaper of Sixteen Pages, printed in the most beautiful style, profusely illustrated with splendid engravings, representing the newest inventions and the most recent Advances in the Arts and Sciences; including new and interesting facts in Agriculture, Horticulture, the Home, Health, Medical Progress, Social Science, Natural History, Geology, Astronomy. The most valuable practical papers, by eminent writers in all departments of Science, will be found in the Scientific American.
Terms, \$3.20 per year, \$1.60 half year, which includes postage. Discount to Agents. Single copies, ten cents. Sold by all Newsdealers. Remit by postal order to MUNN & CO., Publishers, 37 Park Row, New York.

PATENTS. In connection with the Scientific American, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, have had 35 years experience, and now have the largest establishment in the world. Patents are obtained on the best terms. A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this Agency, with the name and residence of the Patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.

Any person who has made a new discovery or invention, can ascertain, free of charge, whether a patent can probably be obtained, by writing to MUNN & Co. We also send free our Hand Book about the Patent Laws, Patents, Caveats, Tri de-Marks, their costs, and how procured, with hints for procuring advances on inventions; Address for the Paper, or concerning Patents,
