Not the slightest affinity exists between the numberless cough mixtures which the market is flooded and that successful preparation—Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. It stands alone, distinct, as like itself, and nothing else. It embodies the best results of advanced pharmaceutical science. It accomplishes positive, decisive results, effectually relieving coughs (when the lungs are not tuberculous or hopelessly affected), colds, laryngitis, and diseases of a scrofulous origin. While it does not cure Consumption, it is the most reliable means of defence against that dreaded scourge. The invigorating properties of the hypophosphites reimburse the system debilitated by the constant tear and wear of a cough, while the paroxysms rapidly diminish in violence, in consequence of the soothing emollient action of the cod liver oil upon the inflamed lung membrane. The phosphorus, lime and soda, in combination with it, are all natural components in the construction of the bodily edifice, which, in a state of decay, lacks a sufficiency of those elements. These the hypophosphites supply, increasing the nutritive properties of the system, and building up and rehabilitating the shattered human structure with a degree of promptitude as astonishing as it is gratifying to the invalid. A perceptible gain in flesh as well as in strength is one of the consequences of using this standard preparation, which both time and experience have demonstrated to be fully worthy of the confidence reposed in it. Prepared by NORTHROP & LYMAN, Toronto, and sold by all druggists.

GENTLEMEN,—I have been using your "Castorine" and have discovered a new use for it, extremely useful to Printers in Oiling Roller Moulds. To get a roller out of a mould is one of the most difficult jobs a Printer has to do.

I tried "Castorine" three times and was perfectly delighted with its actions, the roller slipping out like a charm. By testing the Castorine between finger and thumb it struck me that it would be just the thing to swab the iron mould with. Were this hint published in the Mail or Globe it would be a great boon to Country Printers.

Yours Truly,
