The large hotel now in course of removal is becoming a decided nuisance on the road. On Monday afternoon last a cutter belonging to Mr. Robt. Turner came to grief by having to cross the ditch, which is very deep at that point. We will next hear of the Council being called on to foot a bill of damages.

Christmas and New Year goods suitable for presents, Medical Hall, Beaverton.

The young men of the village have resolved to have a skating rink, and we noticed on Tuesday last a number of them busily engaged with a team removing the snow from the surface of the ice on the river. We are pleased to see this move. The carnivals of last winter were particularly enjoyable and furnished much amusement to the young folks.

MR. PETER McMILLAN, we observe, has started out in the carriage building business at the shop on the corner of Mara and Main streets. He is an energetic young man and we wish him success in his venture.

In order to avoid the rush during the days preceding Christmas and New Year's customers will kindly call and select their Christmas and New Year cards early. Our stock is very complete and we are selling them cheaper than Toronto prices. J. McKinnon, Medical Hall, Beaverton.

We notice in our exchanges several accidents to boys in getting off bob sleighs. And yet they do it.

Father Mc Cauly has been appointed Parish Priest of the Roman Catholic Church, Whitby.

Between ten and eleven o'clock on Thursday evening last, the house of Mrs John Osborn, situated on the town line, Brock and Mariposa, just east of this village, was discovered to be on fire, and in a short time was totally consumed. The fire is supposed to be caught in or near the roof, from a defective chimney, and a portion of the roof falling in awakened Mrs Osborn, who with her two children, were sleeping in the lower story. Some of the neighbors were quickly on the spot, and by their assistance the greater part of the household effects were saved. There was an insurance of \$400 on the building, and \$100 on the contents, which will go far to cover the loss.

THE Presbyterians of Victoria Road will celebrate Christmas by holding a grand Festival, which will take place on Christmas Day, in the Town Hall of that village.

THE poultry season has fairly set in and it is desirable that those who kill to sell should do so under the best conditions. The following hints by a dealer who handles a great deal of poultry in season may be worth making a note of: Poultry should not be fasted for 24 hours previous to killing. Bleed well and pluck clean, leaving on the head, also the wing and tail feathers in. Entrails should not be drawn, neither should poultry be scalded. It is easily detected and means from one to three cents per pound reduction in value. If the poultry is intended for shipment, pack firmly in nice, clean cases holding from one to two hundred pounds. Mark each case with correct weights—gross, tare, and net, also number and kind of birds contained, and advise the firm to whom you ship of the particulars of your consignment, and its proper delivery may be looked after, and when this is done, satisfactory returns may confidently be looked for.

Editorial Notes.

LOD DUFFERIN, who now seems to have absolute power in Egypt, has summarily deposed Baker Pasha from his place as Commander-in-chief to the Egyptian army. He is relegated to the charge of the police, and his place is to be filled by an English officer, with an English staff. In separating Egypt from Turkey, it was not thought wise to have the Egyptian army in the hands of a confidant of the Sultan. Lord Dufferin is really the British Resident at the head of an arbitrary protectorate.

The Executive of Ontario Branch of the Dominion Alliance have set apart Sunday, Dec. 17th, as "Temperance Sunday." Ministers of all denominations in Ontario have been invited to preach to their congregations on that day on some phase of the Temperance work. The proposal of setting apart a Sunday for special appeal, is a good one. The magnitude of the evil warrants the taking of more active measures for its entire suppression. The work cannot be carried on without funds, and an appeal has been made to the ministers and people for the collection on that Sunday, to help in this direction. We trust that this request will meet with a liberal response, as the cause of Temperance has suffered very much in the past for want of money to carry on its operations.

The Test of Perfect Health.

SIR ASTLEY COOPER said that no man ought to know he had a stomach. Unfortunately, however, the two extremes of luxury and privation teach a considerable portion of mankind that they have stomachs, and very troublesome ones too, the diggers after gold in our gulches, the alluvial of our rivers and our dry plains, suffer much from diseases of this organ, and of the liver and bowels. At present, however, there is much less fear of these complaints than formerly. All intelligent miners are aware that that can be readily combated and cured by the timely administration of Holloway's celebrated pills. One of the leading forms in which disease of the stomach and bowels exhibits itself in the interior—and we may add in the cities too—is a debilitating diarrhoea. Nothing that has ever been tried either in dysentery or diarrhoea in this country has uniformly succeeded in curing those maladies except Holloway's Pills. It is stated that all cases in which they were administered at the Ballart Diggings, they did not fail in one. The ordinary medical treatment of diarrhoea appears to be wholly useless in this climate. Probably it is so in any climate. Be this as it may, it is beyond cavil that the Pills arrest the complaint as certainly and almost as quickly as the breaks of a rail car arrest the revolution of its wheels. There are no ifs or buts about the matter; the cure is a foregone conclusion. Imagine what a Godsend such a medicine must be to the digger. Possessed of it he feels as if endowed with another right arm. The very fact his or knapsack contains such a potent counterblast to disease, keeps up his animal spirits and renders him less susceptible of unhealthy influences. Miners bound to the more unhealthy diggings usually provide themselves with an extra supply of both the Pills and the Ointment, as they can always dispose of what they do not want at an enormous profit. It is said, and probably with truth, that the large importations of these medicines have seriously interfered with the profits of the drug merchants. Calomel and jalap, and all the purgatives, alteratives, a purifiers, anodynes, &c., are sadly at a discount in the market. Holloway's Pills and Ointment fill their places in public estimation, and more than fill them in beneficial effect.—The Inquirer.

Holloway's Pills.—Invalids distracted by indigestion and discouraged in their search for its remedy should make trial of this never-failing medicine. A lady, long a martyr to dyspeptic tortures, writes that Holloway's Pills made her feel as if a burden had been taken off her. Her spirits, formerly low, have greatly improved; her capricious appetite has given place to healthy hunger; her dull, sick headache has departed, and gradually so marvellous a change has been effected, that she is altogether a new creature, and again fit for her duties. These Pills may be administered with safety to the most delicate. They never act harshly, nor do they ever induce weakness; they rightly direct deranged, and control excessive action.
