**Two Rejected Lovers.**

The following story is told by a gentleman who was intimate with ex-President Hayes and the late President Garfield, and whose personal truthfulness is vouched for by the Cleveland Ohio, Herald. In the little village of Bedford only twenty miles distant from Cleveland, there lived some thirty years ago, two charming and attractive girls. To one of these President Hayes had become an ardent suitor; but the parents of the young lady had vigorously opposed their courtship, on the ground that young Hayes was poor, and gave evidence of hardly sufficient ability to warrant risking their daughter's future. The match was broken off, and the lady is to-day married and well known to Cleveland people. The other young lady had received some attention from young Garfield, and was disposed to reciprocate them. Her parents, however, objected to their intimacy, giving as the reason of their opposition the poverty of Garfield and the any thing but bright prospects of his future. The most remarkable coincidence of the courtships were that both young ladies lived in a village of not more than five hundred inhabitants, and both refused two future Presidents of the United States, because of their poverty. — N. Y. Evening Post.

**A Word for the Devil.**

A great many persons are in the habit of looking upon and speaking of printers' devils in a manner that reflects no credit on themselves. These same printers' devils, in nine cases out of ten, are three times as well posted on the issues of the day as the person who slights and speaks lightly of them. There is no class of boys for whom we have a more profound respect than well-behaved printers' devils. They know something and are practical, which is more than you can say of all classes of boys. In that respect, we place the boys who work in a printing office head and shoulders above most boys. Benjamin Franklin was once a printer's devil. He was also one of the signers of the Declaration of Independence. Haubal Hamks, Vice-President under Lincoln, was once a printer's poor devil. Schuyler Colfax, who was Speaker of the House of Representatives for years, was nothing but a devil in a printing office at one time. Horace Greeley, who was one of the first journalists on this continent, and ex-Congressman, was a printer's devil. Ex-Senator Simon Cameron, of Pennsylvania, was a "devil." Thurlow Weed, one of the wealthiest and most influential men in New York, was a penniless "devil" in a printing office. Ex-Senator Ross, of Kansas, commenced his successful career as a printer's devil. Two thirds of the editors in the United States were once printers' devils. Permit us to tell you that the men who once did duty as printers have done more to advance the interests and sustain the good name of America than any other class.

**A PHYSICAL RISK**—A hacking cough says the medical constitution, not alone because it destroys the tissue of the lungs and develops tuberculosis which corrode and destroy them, but also because it runs rest and impairs digestion. How important, therefore, is a resort to judicious medication to stay the ravages. A total physical wreck must inevitably ensue without this. In the choice of a remedy the pulmonary invalid is sometimes misled by specious representations, to the serious prejudice of his bodily well-being. The only safe resort is a tried and highly sanctified remedy. The credentials of Northrop & Lyman's Emission of Cod Liver Oil and Hygieine spores of Linn and Soda salt are in the place of certificates, viz., that of the foremost cough medicine ever, and vigorous sold on this continent. The testimony of veteran physicians, and a popular, yea, a court, combine to give it the prestige of a standard medicine. In cases of asthma, weak chest and lungs, bronchitis, laryngitis and other throat and lung complaints, it may be implicitly relied upon.

**Honest Casting.**  
"All right?" shouted the steersman of a double runner to the boy on guard at the foot of a steep hill. "No I won't retorted the leader. "If Charlie Green says it isn't all right, it isn't. He never lies."  
At that instant, a heavily laden express team came lumbering across the track, its wheels making no noise in the soft snow and no bells announcing its coming. Had the sled started, it would have been a narrow escape, had there been no mishap to boys or horses.  
A second more, and a hearty "all right" from the foot of the hill set the double runner flying in safety and delight to its distant goal.  
Each boy may draw his own moral.

**A PRODIGIOUS SOURCE OF DISEASE.**—A trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is consumption, the direct consequence. Their original cause, is, however, thoroughly eradicated from the system by NORTHROP & LYMAN'S VEGETABLE DISCOVERY, DYSPEPTIC CURE AND BLOOD PURIFIER, a medicine which only requires regularity and persistence in its use to cure dyspepsia and the many ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of constiveness, it never produces any of the pains in the abdominal region, or weakness of the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilating activity which it promotes, a most efficient remedy for kidney complaints, rheumatism and all diseases of the blood, female weakness, &c. Price, \$1.00. Sample Bottle, 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-simile of their signature. Sold by all medicinal dealers.
